General Provisions

19-1-101. Declaration of policy. In order to extend to employees of the state and its political subdivisions, including employees of the state and its political subdivisions who are members of the public employees' retirement system of the state of Montana, and to the dependents and survivors of such employees the basic protection accorded to others by the old age and survivors' insurance system embodied in the Social Security Act, it is hereby declared to be the policy of the legislature, subject to the limitations of this chapter, that such steps be taken as to provide such protection to employees of the state and its political subdivisions on as broad a basis as is permitted under the Social Security Act. It is also the policy of the legislature that the protection afforded employees in positions covered by the public employees' retirement system of the state of Montana on the date an agreement under this chapter is made applicable to service performed in such positions or receiving periodic benefits under such retirement system at such time will not be impaired as a result of making the agreement so applicable or as a result of legislative enactment in anticipation thereof.

History: En. Sec. 1, Ch. 44, L. 1953; amd. Sec. 1, Ch. 270, L. 1955; R.C.M. 1947, 59-1101.

(1) The term "employee" includes an elective or appointive officer or employee of the state or a political subdivision of the state.

(2) (a) The term "employment" means any service performed by an employee in the employ of the state or any political subdivision of the state for the employer, except:

(i) service that in the absence of an agreement entered into under this chapter would constitute "employment" as defined in the Social Security Act; or

(ii) service that under the Social Security Act may not be included in an agreement between the state and the secretary of health and human services entered into under this chapter.

(b) Service performed by civilian employees of national guard units is specifically included within the term "employment".

(c) Service that under the Social Security Act may be included in an agreement only upon certification by the governor in accordance with section 218(d)(3) of that act is included in the term "employment" if and when the governor issues, with respect to the service, a certificate to the secretary of health and human services pursuant to 19-1-304.

(3) The term "Federal Insurance Contributions Act" means subchapter A of chapter 9 of the federal Internal Revenue Code of 1939 and subchapters A and B of chapter 21 of the federal Internal Revenue Code of 1954, as the codes have been and may from time to time be amended; and the term "employee tax" means the tax imposed by section 1400 of the Code of 1939 and section 3101 of the Code of 1954 and as the codes may from time to time be amended.

(4) The term "political subdivision" includes an instrumentality of the state, of one or more of its political subdivisions, or of the state and one or more of its political subdivisions, including leagues or associations, but only if the instrumentality is a juristic entity that is legally separate and distinct from the state or subdivision and only if its employees are not by virtue of their relation to the juristic entity employees of the state or subdivision. The term includes special districts or authorities created by the legislature or local governments, such as but not limited to school districts and housing authorities.

(5) The term "secretary of health and human services" means the secretary of the United States department of health and human services; includes any individual to whom the secretary of health and human services has delegated any functions under the Social Security Act with respect to coverage under that act of employees of states and their political subdivisions; and, with respect to any action taken prior to April 11, 1953, includes the federal security administrator and any individual to whom the administrator had delegated any function.

19-1-701. Sources of funds in account. The contribution account shall consist of and there shall be deposited in such account:

(1) all contributions, interest, and penalties collected under 19-1-702 and 19-1-704 through 19-1-706;

(2) all moneys appropriated thereto by the legislature of the state of Montana;

(3) all sums recovered upon the bond of the custodian or otherwise for losses sustained by the account; and

(4) all other moneys received for the account from any other source.

History: En. Sec. 5, Ch. 44, L. 1953; amd. and redes. as Sec. 7, Ch. 44, L. 1953 by Sec. 7, Ch. 270, L. 1955; amd. Sec. 200, Ch. 147, L. 1963; amd. Sec. 1, Ch. 109, L. 1967; amd. Sec. 1, Ch. 124, L. 1969; amd. Sec. 4, Ch. 64, L. 1977; R.C.M. 1947, 59-1105(2).

19-1-702. Contributions by state employees. (1) Every employee of the state whose services are covered by an agreement entered into under 19-1-401 and 19-1-402 shall be required to pay, for the period of such coverage, contributions with respect to wages (as defined in 19-1-102) equal to the amount of employee tax which would be imposed by the Federal Insurance Contributions Act if such services constituted employment within the meaning of that act. Such liability shall arise in consideration of the employee's retention in the service of the state, or his entry upon such service, after February 20, 1953.

(2) The contribution imposed by this section shall be collected by deducting the amount of the contribution from wages as and when paid, but failure to make such deduction shall not relieve the employee from liability for such contribution.

(3) If more or less than the correct amount of the contribution imposed by this section is paid or deducted with respect to any remuneration, proper adjustments or refund if adjustment is impracticable shall be made, without interest, in such manner and at such times as the state agency shall prescribe.

History: En. as Sec. 5, Ch. 44, L. 1953 by Sec. 5, Ch. 270, L. 1955; amd. Sec. 198, Ch. 147, L. 1963; R.C.M. 1947, 59-1103.1.

19-1-703. Budgeting by state departments. Each department of the state shall include in its operating budget for the next succeeding fiscal year, prepared and delivered to the department of administration in accordance with the provisions of law, an estimate of the amount which it will be required to contribute to the contribution account.

History: En. Sec. 5, Ch. 44, L. 1953; amd. and redes. as Sec. 7, Ch. 44, L. 1953 by Sec. 7, Ch. 270, L. 1955; amd. Sec. 200, Ch. 147, L. 1963; amd. Sec. 1, Ch. 109, L. 1967; amd. Sec. 1, Ch. 124, L. 1969; amd. Sec. 4, Ch. 64, L. 1977; R.C.M. 1947, 59-1105(6).

19-1-704. Contribution by political subdivision. Each political subdivision as to which a plan has been approved under part 5 of this chapter shall pay, at such time or times as the state agency may prescribe by regulation, contributions with respect to wages (as defined in 19-1-102) in the amounts and at the rates specified in the applicable agreement entered into by the state agency under 19-1-401 and 19-1-402.

History: En. Sec. 4, Ch. 44, L. 1953; amd. and redes. as Sec. 6, Ch. 44, L. 1953 by Sec. 6, Ch. 270, L. 1955; amd. Sec. 2, Ch. 97, L. 1959; amd. Sec. 199, Ch. 147, L. 1963; amd. Sec. 3, Ch. 64, L. 1977; R.C.M. 1947, 59-1104(4)(a).

19-1-705. Deduction of employee contribution by political subdivision. (1) Each political subdivision required to make payment under 19-1-704 shall, in consideration of the employee's retention in or entry upon employment after February 20, 1953, impose upon each of its employees, as to services which are covered by an approved plan, a contribution with respect to his wages (as defined in 19-1-102), not exceeding the amount of the employee tax which would be imposed by the Federal Insurance Contributions Act if such services constituted employment within the meaning of that act and shall deduct the amount of such contributions from his wages as and when paid.

(2) Contributions so collected partially discharge the liability of the political subdivision or instrumentality under 19-1-704. Failure to deduct the contribution does not relieve the employee or employer of liability therefor.

History: En. Sec. 4, Ch. 44, L. 1953; amd. and redes. as Sec. 6, Ch. 44, L. 1953 by Sec. 6, Ch. 270, L. 1955; amd. Sec. 2, Ch. 97, L. 1959; amd. Sec. 199, Ch. 147, L. 1963; amd. Sec. 3, Ch. 64, L. 1977; R.C.M. 1947, 59-1104(4)(b).

19-1-706. Collection of delinquent payments from political subdivision. (1) The purpose of this section is to encourage compliance with the federal deposit and reporting procedures, not to produce revenue. Therefore, the state agency may waive part or all of the interest penalty when, in the opinion of the board, a reasonable explanation has been submitted in writing by the political subdivision.

(2) Delinquent payments due under 19-1-704 may, with interest at the rate of 9% a year, or $10 per day, whichever is greater, be recovered by action in a court of competent jurisdiction against the political subdivision liable therefor or may, at the request of the state agency, be deducted from any other

moneys payable to the subdivision by any department, agency, or fund of the state.

Part 8

Participation of Teachers

19-1-801. Purpose — general repeal. All acts and parts of acts in conflict herewith are hereby repealed to the extent of any such conflict, it being the purpose of this part to bring under the provisions of parts 1 through 7 of this chapter or any act amendatory thereof teachers and staff members of districts and institutions of higher education for supplemental social security coverage as provided by the federal Social Security Act.

History: **En. Sec. 5, Ch. 271, L. 1955; R.C.M. 1947, 59-1113.**

19-1-802. No effect on rights under other laws. Nothing in this part may be construed to prejudice or otherwise affect any rights, benefits, or privileges heretofore accrued under any other law of this state. It is the intent of this legislation to permit supplementation of present retirement benefits under existing law with social security benefits. It is also the intent to permit teachers and staff in any district or institution of higher education so electing to become members of more than one retirement system, to receive credit under more than one system for the same service, and to receive benefits from more than one system. No benefits received under either system may be deducted from any other or separate system.

History: **En. Sec. 4, Ch. 271, L. 1955; amd. Sec. 9, Ch. 64, L. 1977; R.C.M. 1947, 59-1112.**

19-1-803 through 19-1-810 reserved.

19-1-811. Referendum by school district. A school district of the state may, upon the approval thereof being voted by the board of trustees, conduct and supervise a referendum, pursuant to section 218 of the federal Social Security Act, among the members of the staff and teachers of the school or schools under the jurisdiction of the board of trustees. If the majority of votes cast in the referendum indicates that the staff and teachers approve, then the board of trustees shall certify to the department of administration that the conditions for coverage by social security, required by section 218 of the Social Security Act, have been complied with.

History: **En. Sec. 1, Ch. 271, L. 1955; amd. Sec. 20, Ch. 391, L. 1973; amd. Sec. 6, Ch. 64, L. 1977; R.C.M. 1947, 59-1109.**

19-1-812. Eligibility of staff and teachers. Upon the certification provided for in 19-1-811, the staff and teachers of the district are eligible for coverage under the provisions of the federal Social Security Act.

History: **En. Sec. 2, Ch. 271, L. 1955; amd. Sec. 1, Ch. 253, L. 1965; amd. Sec. 21, Ch. 391, L. 1973; amd. Sec. 7, Ch. 64, L. 1977; R.C.M. 1947, 59-1110(1).**

19-1-813. Collection of contributions. The fiscal officer of the district shall thereafter collect the contributions required under the federal Social Security Act, section 218, from the staff and teachers by payroll deduction and from the school district as employer. The funds collected shall be deposited with the department of administration and held in the contribution account as provided by parts 1 through 7 of this chapter.

19-1-814. District's contribution to be first obligation. For the purposes of this part, the contributions with respect to services equivalent to the employer's tax established by the federal Social Security Act are the first obligation against any state funds received for school support by any school district, high school district, or county high school and shall be paid therefrom before any other expenditure.

History: En. Sec. 2, Ch. 271, L. 1955; amd. Sec. 1, Ch. 253, L. 1965; amd. Sec. 21, Ch. 391, L. 1973; amd. Sec. 7, Ch. 64, L. 1977; R.C.M. 1947, 59-1110(3).

19-1-815. Merger of reporting entities. If the approval of referenda at different times results in the establishment of two separate social security reporting entities for a high school district and an elementary school district and the high school building is located in the elementary school district, the state agency shall, upon request of the boards of trustees in both districts, merge the two reporting entities to form a single reporting entity if the elementary school district and high school district:

(1) have boards of trustees of which a majority of each board is composed of the same persons;

(2) are administered by the same executive officer; and

(3) have payroll calculations made in the same payroll application.

History: En. Sec. 1, Ch. 350, L. 1983.

19-1-816 through 19-1-820 reserved.

History: En. Sec. 3, Ch. 271, L. 1955; amd. Sec. 8, Ch. 64, L. 1977; R.C.M. 1947, 59-1111(1).

19-1-823. Certification by governor. If the majority of votes cast in the referendum indicates that the majority of voters desire it, the governor shall certify to the secretary of health and human services that the conditions set forth in section 218 of the Social Security Act have been complied with in respect to the retirement system voting in the referendum.

History: En. Sec. 3, Ch. 271, L. 1955; amd. Sec. 8, Ch. 64, L. 1977; R.C.M. 1947, 59-1111(3); amd. Sec. 37, Ch. 10, L. 1993.

Compiler's Comments

1993 Amendment: Chapter 10 near middle substituted "secretary of health and human services" for "secretary of health, education, and welfare".

Upon certification, the governor shall designate an official to enter into an agreement or a modification or supplement to an existing agreement or both a modification and a supplement with the appropriate officers of the federal government, pursuant to section 218 of the Social Security Act, to secure coverage thereunder for the retirement system with respect to which certification has been made. An agreement may be made retroactive to the extent permissible under the Social Security Act.

Part 6

Termination of Membership and Refunds

19-2-601. Termination of membership. If a member's accumulated contributions under a retirement system are refunded, the person ceases to be a member of that system, all the person's service is canceled, and the person relinquishes claim to any benefits payable to members of the retirement system.

History: En. 68-1603 by Sec. 7, Ch. 323, L. 1973; R.C.M. 1947, 68-1603; amd. Sec. 18, Ch. 265, L. 1993; Sec. 19-3-406, MCA 1991; redes. 19-2-601 by Sec. 238, Ch. 265, L. 1993.

1993 Amendment: Chapter 265 substituted present section regarding termination of membership for former section that read: "If any part of a member's accumulated normal contributions is refunded pursuant to 19-3-703, he ceases to be a member and all membership service to his credit is canceled.

Any person who is retired ceases to be a member." Amendment effective July 1, 1993.

19-2-602. Refund of member's contributions on termination of service. (1) Except as provided in this section, any member whose service has been discontinued, other than by death or retirement, must be paid the member's accumulated contributions at the member's request.

(2) Upon the written request of a terminating member, the division shall make a direct rollover distribution as allowed under Internal Revenue Code section 401(a)(31) of the eligible portion of a refund of the member's accumulated contributions. The direct rollover distribution must be paid directly to an eligible retirement plan allowed under applicable federal law. The terminating member shall designate the eligible retirement plan on forms provided by the division. Amounts of the member's accumulated contributions that are not eligible for direct rollover distribution must be paid to the terminating member. The terminating member is responsible to correctly designate an eligible retirement plan to receive the direct rollover distribution.

(3) The board may, in its discretion, withhold, for not more than 1 year after a member last rendered service, all or part of the member's accumulated contributions if after a previous discontinuance of service the member withdrew all or part of the member's contributions and failed to redeposit the withdrawn amount in the pension trust fund.

(4) An employer who has an employment-related claim against a terminating member may, within 30 days after the date of termination, submit to the board a written request, signed by the employer and the member, authorizing the payment of all or any part of the accumulated contributions of the member directly to the employer to satisfy the claim in whole or in part. The request, if timely submitted, is sufficient authority for the division to make the direct payment to the employer as part of the member's refund. The total of the payments made to the employer and those made to the member may not exceed the member's accumulated contributions.

(5) Prior to termination of service, a member may not receive a refund of any portion of the member's accumulated contributions, except that a member who does not complete an installment payment schedule for purchasing service must be paid the member's additional contributions, including any regular interest earned on those additional contributions, upon the member's written request.

Amendment effective July 1, 1993.

19-2-603. Reinstatement after withdrawal of contributions. (1) Except as otherwise provided in this section, any person who again becomes a member subsequent to the refund of the person's accumulated contributions after a termination of previous membership is considered a new member without credit for any previous membership service. The person may reinstate that membership service by redepositing the sum of the accumulated contributions that were refunded to the person at the last termination of the person's membership plus the interest that would have been credited to the person's accumulated contributions had the refund not taken place. If the person makes this redeposit, the service credits previously canceled must be reinstated.

(2) Regardless of whether this redeposit is made, the documents held by the retirement system as executed by the member prior to termination of membership must be held by the system for the same purposes as prior to termination, and beneficiaries nominated in the documents continue unchanged until changed as provided in this section.

19-2-705. Absence in military service. (1) Any period of absence from service for one of the following reasons, occurring either during a war involving the United States as a belligerent or during any other national emergency and 90 days after the service, is considered membership service only for the purpose of qualification for retirement and survivorship benefits but not for calculation of service credit:

(b) by reason of voluntary service in the armed forces or on ships operated by or for the United States government; or

(c) by reason of direct assignment to the department of defense for duties pursuant to the national defense efforts where a leave of absence has been granted by the employer.

(b) "family law order" means a judgment, decree, or order of a court of competent jurisdiction under Title 40 concerning child support, parental support, spousal maintenance, or marital property rights that includes a transfer of all or a portion of a participant's payment rights in a retirement system to an alternate payee in compliance with this section.

(3) A family law order must identify an alternate payee by full name, current address, and social security number. An alternate payee's rights and interests granted in compliance with this section are not subject to assignment, execution, garnishment, attachment, or other process. An alternate payee's rights or interests may be modified only by a family law order amending the family law order that established the right or interest.

(4) A family law order may not require:

(a) a type or form of benefit, option, or payment not available to the affected participant under the appropriate retirement system; or

(b) an amount or duration of payment greater than that available to a participant under the appropriate retirement system.

(5) A family law order may only provide for payment to an alternate payee as follows:

(a) Service retirement benefit payments or withdrawals of member contributions may be apportioned by directing payment of a percentage of the amount payable or payment of a fixed amount of no more than the amount payable to the participant.

(b) The maximum amount of disability or survivorship benefits that may be apportioned to alternate payees is the monthly benefit amount that would have been payable on the date of termination of service if the member had retired without disability or death.

(c) Retirement benefit adjustments for which a participant is eligible after retirement may be apportioned only if existing benefit payments are apportioned. The adjustments must be apportioned in the same ratio as existing benefit payments.

(d) Payments must be limited to the life of the appropriate participant. The duration of payments to an alternate payee may be further limited only to a specified maximum time, the life of the alternate payee, or the life of a specified participant. Payments to an alternate payee may be limited to a specific amount per month if the number of payments is specified. The alternate payee's rights and interests survive the alternate payee's death and may be transferred by inheritance.

(e) The participant may be required to choose a specified form of benefit payment or designate a beneficiary or contingent annuitant if the retirement system allows for that option.

(6) The board may assess a participant or an alternate payee for all costs of reviewing and administering a family law order, including reasonable attorney fees. The board may adopt rules to implement this section.

Extension of Coverage by Local Government Employers

19-3-201. Contracts with political subdivisions. (1) Any municipal corporation, county, or public agency in the state may become a contracting employer and make all or specified groups of its employees members of the retirement system by a contract entered into between the board and the legislative body of the contracting employer. The contract may include any provisions that are consistent with chapter 2 and this chapter and necessary in the administration of the retirement system as it affects the contracting employer and its employees.

(2) The approval of the contract is subject to the following provisions, in addition to the other provisions of this chapter:

(a) The legislative body of the contracting employer shall adopt a resolution giving notice of intention to approve the contract and containing a summary of the major provisions of the retirement system. The contract may not be approved unless the employees proposed to be included in the retirement system adopt the proposal by a majority affirmative vote in a secret ballot. The ballot at the election must include the summary of the retirement system as set forth in the resolution. The election must be conducted as prescribed by the legislative body of the contracting employer. Approval of the contract must be by ordinance adopted by the affirmative vote of two-thirds of the members of the legislative body, not less than 20 days after the adoption of the resolution or by an ordinance adopted by a majority vote of the electorate of the contracting employer voting on the contract.

(b) The contract must specify that all employees of the contracting employer or groups of employees as agreed to between the board and the contracting employer must become members. The groups of employees to be included must be by departments, duties, or other similar classifications and not by individual employees. The board may disapprove any classification into groups if, in its opinion, the classification affects adversely the interest of the retirement system. Membership in the retirement system is compulsory for all employees included under the contract and who are hired after the effective date of the contract.

(c) The contract may be amended in the manner prescribed in this section for the original approval of contracts. Groups of excluded employees may be subsequently included by amendment.

(3) The termination of the contract is subject to the following provisions, in addition to the other provisions of this chapter:

(a) The legislative body of a contracting employer shall adopt a resolution giving notice to its employees that it intends to terminate retirement coverage.

(b) All employees covered under the retirement system shall receive notice of the termination resolution and be permitted to vote for or against the resolution by secret ballot.

(c) If a majority of covered employees votes for termination, the legislative body, not less than 20 days after the approval of the resolution by the employees, may adopt by a 2/3 majority a resolution terminating coverage under the system effective the last day of that month and forward the resolution and a certified copy of the election results to the board.

(d) Upon receipt of the termination resolution, the board may request an actuarial valuation of the liabilities of the terminating agency to the retirement system, and the board may withhold approval of the termination of contract until satisfactory arrangements are made to provide funding for any excess accrued liabilities not previously funded by the terminating agency.

19-3-202. Request by individual employee for employer to participate. Any employee who has continuously been, for a period of at least 2 years, an employee of a municipal corporation, county, or other public agency of this state which is not a contracting employer may advise the legislative body of his employer, in writing, that he wishes to participate in the retirement system. Within 30 days after receipt of such written request, the legislative body shall thereupon adopt the resolution of intention and take such action as provided for in 19-3-201.

History: En. 68-1702 by Sec. 15, Ch. 323, L. 1973; R.C.M. 1947, 68-1702.

(1) If the legislative body of any city, county, or public agency having an existing retirement, pension, or annuity fund or system, referred to as the local system, desires to make the members of the local system members of the public employees' retirement system, it may enter into a contract for that purpose with the board in the manner provided in 19-3-201. However, the employees voting as provided in 19-3-201(2)(a) shall be limited to active members of the local system, and approval shall require an affirmative vote of two-thirds of the employees.

(2) All active members of the local system shall become members of the retirement system and shall no longer be members of the local system. The pensions being paid to pensioners or annuitants of the local system on the effective date of the contract must be continued and paid at their existing rates by the public employees' retirement system. The liability for the pensions must be computed by the actuary and charged to the contracting employer. All cash and securities held by the local system must be transferred to the retirement system as of the effective date of the contract and credited to the employer. The value of the securities must be determined by the board.

(3) The trustees or other administrative head of the local system as of the effective date of the contract shall certify the proportion, if any, of the funds of the system that represents the accumulated contributions of the active members and the relative shares of the members as of that date. Any excess of employer credits over charges under this section must be offset, with regular interest, against future required employer contributions. Any excess of employer charges over credits under this section must be payable by the contracting employer, with regular interest, on a monthly basis as specified in the contract.

1993 Amendment: Chapter 265 substituted present section regarding employer contribution rates for former section that read: "(1) Each employer shall contribute to the cost of benefits under the system. The amount of the employer contributions shall be computed by applying to member's compensation the sum of the current service contribution rate and the unfunded liability contribution rate. The sum of these rates is 6.417% from July 1, 1983, to June 30, 1992. The sum of the rates increases to 6.55% on July 1, 1992, and to 6.70% on July 1, 1993.

(2) The actuary shall determine the current service contribution rate to be that level percentage of the present value of the future compensation of the average new member entering the system which equals the then present value of the excess of all prospective benefits in respect of such member over the member's own normal contributions.

(3) The actuary shall determine the minimum unfunded liability contribution rate to be that level percentage of the present value of the prospective compensation of all members for the 40-year period following the date of the determination which is equal to the unfunded liability on that date. The unfunded liability at any time is the excess of the present value of all future benefits payable in respect of all persons then entitled to benefits under the system over the sum of the retirement fund and the present values of the future current service contributions and normal contributions payable in respect of all such persons." Eligibility, Membership, and Vesting

19-3-401. Membership — inactive vested members — inactive nonvested members. (1) Except as otherwise provided in this chapter, all eligible employees shall become members on the first day of covered employment. Each eligible employee shall file with the board information affecting the employee's status as a member of the retirement system as the board may require.

(2) A member with at least 5 years of membership service who terminates service and does not take a refund of the member's accumulated contributions is an inactive vested member and retains the right to purchase service and to receive a service retirement benefit subject to the provisions of this chapter.

(3) A member with less than 5 years of membership service who terminates service and leaves the member's accumulated contributions in the pension trust fund is an inactive nonvested member and is not eligible for any

benefits from the retirement system. An inactive nonvested member is eligible only for a refund of the member's accumulated contributions.

(4) Every employee who reenters service shall become a member unless the employee has had an original election of exemption from membership and the employee's service was not interrupted by a break of more than 1 month. A seasonal employee who has had an original election of exemption from membership is not subject to the requirement regarding the break in service while continuing in the employee's original employment and employed on a seasonal basis, but upon termination of employment to accept new employment or absence of more than 1 month in returning to original employment in any ensuing season, the seasonal employee shall become a member of the retirement system upon reentry.

(5) Time during which an employee of a school district is absent from service during official vacation is counted as service in determining eligibility for membership under this chapter.

19-3-402. Federally subsidized employees eligible. A person whose compensation is paid either fully or in part from federal funds but who is not subject to the federal retirement system is considered an employee and is entitled to all benefits and is required to make all employee contributions under the retirement system based upon the full salary received by such employee, including that portion of salary paid from federal funds.

19-3-403. Exclusions from membership. The following persons may not become members of the retirement system:

(1) inmates of state institutions;

(2) persons in state institutions principally for the purpose of training, but who receive compensation;

(3) independent contractors, unless there is a written contract that specifies the creation of an employer-employee relationship for purposes of retirement coverage under the retirement system;

(4) persons who are members of any other retirement or pension system supported wholly or in part by funds of the United States government, any

state government, or political subdivision of the state and who are receiving credit in the other system for service. It is the purpose of this subsection to prevent a person from receiving credit for the same service in two retirement systems supported wholly or in part by public funds, except when the service qualifies, is applied for, and purchased pursuant to 19-3-503. A member of the retirement system who, because of employment by the state, is required to become a member of any other system described in this subsection is considered, solely for the purposes of making regular contributions, as permanently separated from service. Exclusion under this subsection is subject to the following exceptions:

(a) When an employer has entered into a collective bargaining agreement that includes provisions for payments or contributions by the employer in lieu of wages to a retirement or pension plan qualified by the internal revenue service for its employees, the employees remain eligible, if otherwise qualified, for membership in the retirement system.

(b) For the purpose of this subsection (4), persons receiving pensions, retirement allowances, or other payments from any source on account of employment other than as an employee are not considered, because of receipt, members of any other retirement or pension system.

(5) court commissioners, elected officials, or appointive members of any board or commission who serve the state or any contracting employer intermittently and who are paid on a per diem basis;

(6) full-time students employed at and attending the same public elementary school, high school, vocational-technical center, or community college or any unit of the state university system, except that a person excluded from membership as a student of a public community college or a unit of the state university system who later becomes a member by otherwise becoming an employee may affirmatively exercise the option of qualifying the service excluded by this subsection by applying to the board in writing after becoming a member and become eligible to receive credited service for the excluded service under the provisions of 19-3-505.

19-3-503. Election to qualify military service. (1) (a) A member with 10 years or more of service credits may, at any time prior to retirement, make a written election with the board to purchase service credits for all or any portion of the member's active service in the armed forces of the United States, including the first special service force or the American merchant marine in oceangoing service during the period of armed conflict, December 7, 1941, to August 15, 1945, up to a maximum of 5 years, if the member is not otherwise eligible to receive service credit for this same service pursuant to 19-2-705.

(b) To qualify this service, the member shall contribute to the pension trust fund the amount determined by the board to be due based on the member's compensation and regular contribution rate as of the member's 11th year and as many succeeding years as are required to qualify this service, with regular interest from the date the member becomes eligible for this benefit to the date the member contributes. The member may not purchase more of this service credit than the member has service credits in excess of 10 years.

(2) If a member has retired from active duty in the armed forces of the United States, including the first special service force or the American merchant marine in oceangoing service during the period of armed conflict, December 7, 1941, to August 15, 1945, with a military service retirement benefit, the member may not qualify the member's military service under subsection (1). (1) Time, not to exceed 5 years, during which a member is absent from service by reason of injury or illness determined within 1 year after the end of the absence as arising out of and in the course of the member's employment is considered membership service. However, the member may not earn service credits for this period unless the member complies with subsections (2) through (4), in which case the absence is considered as time spent in service for both service credits and membership credits.

(2) (a) Any member absent because of an employment-related injury that entitles the member to workers' compensation payments may contribute to the retirement system, upon the member's return to service, an amount equal to the contributions that would have been made by the member to the system on the basis of the member's compensation at the commencement of the member's absence plus regular interest accruing from 1 year from the date after the member returns to covered service to the date the member contributes for the period of absence.

(b) Whenever a member elects to contribute under subsection (2)(a), the employer shall contribute an amount equal to what its employer contributions would have been had the member not been absent from service. In addition, the employer may contribute an amount equal to the interest accruing on the employer's contribution calculated in the same manner as interest on the employee's contribution under subsection (2)(a). An employer electing to make a contribution shall do so for all employees similarly situated. If the employer elects not to pay the interest costs, this amount must be paid by the employee.

19-3-505. Qualification of previous employment with employer. (1) Subject to the provisions of this section, any person who has employment with an employer that is not service may convert all or a portion of the employment to membership service by filing written notice with the board.

(2) (a) The person shall pay to the retirement system the sum of the amount that the person and the person's employer would have contributed during the period of service converted if the employer had been an employer covered by the retirement system and the regular interest that would have accumulated on the amount to the time of payment. However, the employer may pay the employer's portion, including accrued regular interest as provided in subsection (2)(b).

(b) The employer shall establish a policy as to the payment of retroactive employer contributions and apply this policy indiscriminately for all employees and former employees. All employee appeals of discrimination are subject to the determination of the board. All successful appeals obligate the employer to pay the employer and employee contributions with accrued interest for that employee filing the appeal with the board. Each appeal must be heard on its individual merits and may not bind the employer to pay all retroactive payments for all former and present employees.

(3) A member may secure service credit not previously credited by submitting salary information certified by the member's employer or former employer to the board. The board shall determine the eligibility of all service credit requests.

(4) Payment may be made in one sum at the time of filing notice or by making additional contributions on an installment basis before retirement. Failure to make regular monthly payments in any month in which the member receives normal compensation forfeits the person's right to make any further installment payments, unless permission is granted by the board.

19-3-1106. Limited reemployment — reduction of service retirement benefit upon exceeding limits. (1) A retired member under 65 years of age receiving a service retirement benefit may return to employment covered by the retirement system for a period not to exceed 600 hours in any calendar year without returning to service and without any effect to the retiree's retirement benefit. The retirement benefit for any retiree exceeding this 600-hour limitation in any calendar year after retirement must be reduced $1 for each $1 earned after working 600 hours in that calendar year.

(2) A retiree 65 years of age or older who returns to employment covered by the retirement system is either subject to the 600-hour limitation of subsection (1) or may earn an amount equal to 50% of the retiree's current annual retirement benefits, whichever limitation provides the greater compensation to the retiree, in any calendar year. Upon reaching the applicable limitation, the retiree's benefits must be reduced $1 for each $1 in other income earned in covered service beyond the applicable limitation during that calendar year.

(3) A retiree returning to employment covered by the retirement system shall report to the board the number of hours worked by the retiree and the gross compensation paid to the retiree in that employment during any month after retirement.

(4) A retiree returning to employment covered by the retirement system may elect to return to active membership at any time during this period of covered employment.

Optional Forms of Benefit Payments

19-3-1501. Optional forms of benefits. (1) The retirement benefit of a member or the survivorship benefit of a designated beneficiary who makes an election must be converted, in lieu of all other benefits under this chapter, into an optional retirement benefit that is the actuarial equivalent of the original benefit. The optional retirement benefit is initially payable during the member's or designated beneficiary's lifetime, with a subsequent benefit to the contingent annuitant whom the member or designated beneficiary nominated by written designation, executed and filed with the board on the application for benefits, as follows:

(a) Option 2—a continuation of the reduced amount after the death of the initial payee and payable during the lifetime of the named contingent annuitant;

(b) Option 3—a continuation of one-half of the reduced amount after the death of the initial payee and payable during the lifetime of the named contingent annuitant;

(c) Option 4—upon the initial payee's death, other actuarially equivalent amounts as may be approved by the board.

(2) Election of an optional retirement benefit must be by written application filed prior to the first payment of the benefit.

(3) If a benefit recipient or the recipient's contingent annuitant dies before the first payment has been made under option 2 or 3, the election of the option is automatically canceled.

(4) If a member dies after retirement and within 30 days from the date the member's election or changed election of an optional retirement benefit is received by the board, then the election is void and the death is considered as that of a member before retirement.

(5) (a) Upon written request to the board, a retired member who is receiving an optional retirement benefit may designate a different contingent annuitant, select a different option, or convert the member's optional retirement benefit to a regular retirement benefit if:

(i) the original contingent annuitant has died; or

(ii) the member has been divorced from the original contingent annuitant and the original contingent annuitant has not been granted the right to receive the optional retirement benefit as part of the divorce settlement.

(b) Upon receipt of the request, the board shall actuarially adjust the member's monthly retirement benefit to reflect the change.

(a) actuarial amount required to fund the retirement system for the fiscal year; and

(b) retirement system's administrative and investment expenses for the fiscal year.

(2) (a) From the remainder obtained in subsection (1), the board shall calculate the amount of investment income earned on that portion of the pension trust fund balance representing retired members.

(3) Subject to the restrictions contained in subsections (4) and (5), the board shall annually use 90% of the amount in the reserve fund provided for in subsection (2)(b) to pay a postretirement adjustment to eligible benefit recipients under 19-3-1603.

(4) If the amount in the reserve fund is insufficient to provide an average monthly postretirement adjustment of at least $1 under 19-3-1603, an adjustment may not be made in that calendar year.

(5) The amount available for payment of the postretirement adjustment is limited to an amount that would provide a percentage increase in the average service, disability, or survivorship benefit of all eligible benefit recipients, when combined with the postretirement adjustment, that is equal to or less than the percentage increase for the previous calendar year in the annual average consumer price index for urban wage earners and workers compiled by the bureau of labor statistics, United States department of labor, or its successor agency.

(2) The board shall calculate the amount of the postretirement adjustment payable to an eligible benefit recipient by:

(a) dividing the amount available under 19-3-1602(3) for payment of the postretirement adjustment by the total accumulated years of service credit for all eligible benefit recipients;

(b) multiplying the quotient obtained in subsection (2)(a) by the individual eligible member's total service credits;

The member's annuity shall be the actuarial equivalent of his aggregate contributions at the time of retirement. The state annuity shall be in an amount which, when added to the member's annuity, will provide a total retirement allowance of 3 1/3% per year of his final salary for the first 15 years' service and 1.785% per year for each year's service after 15 years." Amendment effective July 1, 1993.

(2) If a member elected or appointed to office prior to July 1, 1983, is involuntarily discontinued from service after having earned at least 12 years of service credit but before reaching service retirement age, the member must, upon filing an application in the manner prescribed by the board, be paid the service retirement benefit provided for in 19-5-502.

(3) If a member elected or appointed to office after July 1, 1983, is involuntarily discontinued from service after having earned at least 12 years of service credit but before reaching service retirement age, the member may apply for and receive an involuntary retirement benefit that is the actuarial equivalent of benefits pursuant to subsection (1).

If such total disability is a direct result of any service to the Montana judiciary in line of duty, then such judge or justice who is totally and permanently disabled shall be retired on total retirement allowance of a minimum of one-half of his final salary or the allowance provided in 19-5-502, whichever is greater. In the event of any disability not caused in the line of duty after attaining the age of 60 years, the maximum monthly payment shall be the retirement allowance as provided in 19-5-502." The examination must be made by a physician or surgeon at the recipient's place of residence or at another place mutually agreed on, at the board's expense. Upon the basis of the examination, the board shall determine, by reason of physical or mental capacity, whether the recipient can perform the duties of the position held by the recipient when the recipient was retired. If the board determines that the recipient is not incapacitated or if the recipient refuses to submit to a medical examination, the recipient's disability retirement benefit must be canceled.

The optional retirement benefit is initially payable during the member's or designated beneficiary's lifetime, with a subsequent benefit payable to the contingent annuitant that the member or designated beneficiary nominated by written designation, executed and filed with the board on the application for benefits, as follows:

(a) Option 2—a continuation of the reduced amount after the death of the initial payee and payable during the lifetime of the named contingent annuitant;

(b) Option 3—a continuation of one-half of the reduced amount after the death of the initial payee and payable during the lifetime of the named contingent annuitant;

(c) Option 4—upon the initial payee's death, other actuarially equivalent amounts as may be approved by the board.

(2) Election of an optional retirement benefit must be by written application filed prior to the first payment of the benefit.

(3) If a benefit recipient or the recipient's contingent annuitant dies before the first payment has been made under option 2 or 3, the election of the option is automatically canceled.

(4) If the member dies after retirement and within 30 days from the date the member's election or changed election of an optional retirement benefit is received by the board, the election is void and the death is considered as that of a member before retirement.

History: En. Sec. 25, Ch. 289, L. 1967; amd. Sec. 10, Ch. 63, L. 1977; R.C.M. 1947, 93-1131; amd. Sec. 1, Ch. 126, L. 1987; amd. Sec. 109, Ch. 265, L. 1993.

(2) A member or a beneficiary may elect or, prior to the approval of a previous election, revoke or change the previous election and elect to receive the actuarial equivalent of his retirement allowance as of the date of retirement in a lesser retirement allowance payable throughout life with one of the following options:

(a) Option 2—upon his death, his lesser retirement allowance will be continued throughout the life of and paid to the person that he nominated by written designation, duly executed and filed with the board at the time of his retirement.

(b) Option 3—upon his death, one-half of his lesser retirement allowance will be continued throughout the life of and paid to the person that he nominated by written designation, duly executed and filed with the board at the time of his retirement.

Survivorship Benefits and Death Payments

19-5-801. Payments upon employment-related death. At the designated beneficiary's request, the lump sum may be paid as an actuarially equivalent annuity that will not be subject to increases for any purpose.

(2) If a member dies before reaching retirement age, the member's designated beneficiary is entitled to a monthly survivorship benefit that is the actuarial equivalent of the options as provided in 19-5-503.

Eligibility, Membership, and Vesting

19-7-301. Membership — inactive vested members — inactive nonvested members. (1) Every sheriff is required to become a member of the sheriffs' retirement system unless the sheriff was a member of the public employees' retirement system on July 1, 1974, in which case the sheriff may at the sheriff's option become a member of the sheriffs' retirement system.

(2) An investigator is required to become a member of the sheriffs' retirement system unless the investigator was a member of the public employees' retirement system on July 1, 1993, in which case the investigator has the option of becoming a member of the sheriffs' retirement system.

(3) All sheriffs and investigators who become members of the sheriffs' retirement system must remain members so long as they are actively employed in an eligible capacity, except as provided in 19-7-1101.

(4) A member with at least 15 years of membership service who terminates service and does not take a refund of the member's accumulated contributions is an inactive vested member and retains the right to purchase service and to receive a retirement benefit under the provisions of this chapter.

(5) A member with less than 15 years of membership service who terminates service and leaves the member's accumulated contributions in the pension trust fund is an inactive nonvested member and is not eligible for any benefits from the retirement system. An inactive nonvested member is eligible only for a refund of the member's accumulated contributions.

Compiler's Comments

1993 Amendments — Composite Section: Chapter 261 inserted (2) requiring that certain investigators be retirement system members; at beginning of (3), after "sheriffs", inserted "and investigators" and at end substituted "subsection (4)" for "subsection (2)"; in first sentence of (4), after "employed", substituted "in a position covered by the retirement system" for "as a sheriff"; and made minor changes in style. Amendment effective July 1, 1993.

Chapter 265 in (3), at end, substituted reference to 19-7-1101 for reference to subsection (2); substituted (4) regarding inactive vested member for former subsection that read: "A retired sheriff who is employed as a sheriff after retirement for less than 60 working days in a calendar year is excluded from membership. The retirement allowance of a retired sheriff so employed must be reduced by $1 for each $3 earned in excess of $5,000 in a calendar year"; inserted (5) regarding inactive nonvested member; and made minor changes in style. Amendment effective July 1, 1993.

The codifier codified the reference to 19-7-1101 at the end of (3) instead of the reference to subsection (4) because Ch. 265 deleted former (4).

19-7-302. Ineligibility for membership in public employees' retirement system. (1) After July 1, 1974, a sheriff may not become a member of the public employees' retirement system and the provisions of The Public Employees' Retirement System Act do not apply to sheriffs.

(2) After July 1, 1993, an investigator is not eligible to become a member of the public employees' retirement system and the provisions of The Public Employees' Retirement System Act do not apply to investigators, except as provided in 19-7-301.

(3) This chapter may not be construed to deny any sheriff or investigator any benefits accrued under provisions of the public employees' retirement system prior to membership in this retirement system.

(a) actuarial amount required to fund the retirement system for the fiscal year; and

(b) retirement system's administrative and investment expenses for the fiscal year.

(2) (a) From the remainder obtained in subsection (1), the board shall calculate the amount of investment income earned on that portion of the pension trust fund balance representing retired members.

(b) The board shall deposit the amount calculated in subsection (2)(a) in a reserve fund.

(3) Subject to the restrictions contained in subsections (4) and (5), the board shall annually use 90% of the amount in the reserve fund provided for in subsection (2)(b) to pay a postretirement adjustment to eligible members or beneficiaries under 19-7-710.

(4) If the amount in the reserve fund is insufficient to provide an average monthly postretirement adjustment of at least $1 under 19-7-710, an adjustment may not be made in that calendar year.

(5) The amount available for payment of the postretirement adjustment is limited to an amount that would provide a percentage increase in the average service, disability, or survivorship benefit of all eligible benefit recipients, when combined with the postretirement adjustment, that is equal to or less than the percentage increase for the previous calendar year in the annual average consumer price index for urban wage earners and workers compiled by the bureau of labor statistics, United States department of labor, or its successor agency.

(2) The board shall calculate the amount of the postretirement adjustment payable to an eligible benefit recipient by:

(a) dividing the amount available under 19-7-709(3) for payment of the postretirement adjustment by the total accumulated years of service credit for all eligible benefit recipients;

(b) multiplying the quotient obtained in subsection (2)(a) by the individual eligible benefit recipient's service credits;

Part 8
Service Credit

19-7-801. Membership in municipal police officers' retirement system prior to or following city-county consolidation — payment of benefits by two systems. (1) A law enforcement officer who has not changed employment but who has, because of a city-county consolidation, been transferred either from a city police force to a county sheriff's department or from a county sheriff's department to a city police force as a law enforcement officer is eligible for a service retirement benefit if the officer's combined service in the sheriffs' retirement system and the municipal police officers' retirement system satisfies the minimum membership service requirement of the system to which the officer last made contributions. A member who has elected to continue membership in the public employees' retirement system under 19-7-301 may continue the election. However, credit for service in the public employees' retirement system that has not been transferred prior to January 1, 1979, may not be transferred.

(2) Eligibility for and calculation of disability retirement, death benefits, and refund of contributions are governed by the provisions of the retirement system to which the officer last made contributions.

(3) The service retirement benefit of a member described in subsection (1) must be calculated separately for each system based on the service credited under each system. The calculation for the sheriffs' retirement system portion of the benefit must include the appropriate reduction in the retirement benefit for an optional retirement benefit elected under 19-7-1001. The final salary or final average salary for each calculation must be based on the highest compensation earned while a member of either system. Each system shall pay its proportionate share, based on the number of years of service credited, of the combined benefit. The combined benefit may not exceed 60% of the member's final salary or final average salary.

(4) Upon the death of a retired member receiving a service retirement benefit under this section, the survivor or contingent annuitant and the continuing benefit must be determined separately for each system as follows:

(a) For the municipal police officers' retirement system portion of the benefit, the surviving spouse must receive a benefit equal to the municipal police officers' retirement system portion of the service retirement benefit as calculated at the time of the member's retirement. If the retired member leaves no surviving spouse or upon the death of the surviving spouse, the retired member's surviving dependent child, or children collectively if there are more than one, shall receive the same monthly benefits that a surviving spouse would receive for as long as the child or one of the children remains dependent as defined in 19-9-104. The benefits must be made to the child's appointed guardian for the child's use. If there is more than one dependent child, upon each child no longer qualifying as dependent under 19-9-104, the pro rata benefits to that child must cease and be paid to the remaining children until all the children are no longer dependent.

(b) For the sheriffs' retirement system portion of the benefit:

(i) the contingent annuitant must receive a continuing benefit as determined under 19-7-1001, if the retired member elected an optional retirement benefit; or

(ii) if the retired member did not elect an optional retirement benefit, any payment owed the retired member, including the excess, if any, of the retired member's accumulated contributions standing to the retired member's credit at the time of retirement less payments made to the retired member must be paid to the retired member's designated beneficiary.

The term was subsequently changed by the Code Commissioner in this section. Amendment effective July 1, 1993.

19-7-802. Qualification of other Montana public service. (1) (a) A member may, at any time before retirement, make a written election with the board to qualify all or any portion of the member's service in the public employees', highway patrol officers', firefighters' unified, game wardens', or municipal police officers' retirement system for which the member has received a refund of the member's membership contributions. To qualify this service, the member shall contribute to the pension trust fund the actuarial cost of granting the service in the sheriffs' retirement system, as determined by the board, based on the most recent actuarial valuation minus the employer contribution provided in subsection (1)(b). This service may not be credited in more than one retirement system under Title 19.

(b) Upon receiving the member's payment under subsection (1)(a), the division shall transfer from the member's former retirement system to the sheriffs' retirement system an amount equal to the employer contributions made during the member's service but no more than an amount equal to the normal contribution rate minus the employee contribution rate in the sheriffs' retirement system, according to the most recent actuarial valuation, based on the compensation earned by the employee as a member of the former system.

(2) (a) A member may, at any time before retirement, make a written election with the board to qualify any full-time public service employment performed for the state or a political subdivision of the state. The member shall provide compensation and employment documentation certified by the member's public employer. The board shall grant service credit upon contribution by the employee of the actuarial cost of granting this service in the sheriffs' retirement system, as determined by the board, based on the most recent actuarial valuation of the system.

(b) The board is the sole authority under this subsection (2) in determining what constitutes full-time public service.

(c) This service may not be credited in more than one retirement system under Title 19.

19-7-803. Election to qualify previous military service. (1) A member with 15 years or more of service credit may, at any time prior to retirement, make a written election with the board to qualify all or any portion of the member's active service in the armed forces of the United States for the purpose of calculating retirement benefits, up to a maximum of 5 years, except as provided in subsection (3), if the member is not otherwise eligible to receive credit. To qualify military service, the member shall contribute to the account the actuarial cost of granting the service, to be determined by the board based on the most recent actuarial valuation of the system. The member may not qualify more of the member's military service than the member has service credits in the sheriffs' retirement system in excess of 15 years. Military service purchased under this section is not membership service and may not be used in determining eligibility for a service retirement benefit.

(2) If a member has retired from active duty in the armed forces of the United States with military retirement benefits, the member may not qualify the member's military service under subsection (1). However, a member who is serving or has served in the military reserves with the expectation of receiving a military service pension may qualify the member's active military service under subsection (1) if the member's active duty in the armed forces of the United States is not more than 25% of the total of all the member's years of military service, including reserve and active duty time.

(3) The combined total purchase of additional years of service under the provisions of 19-7-804 and this section may not exceed 5 years.

(1) a lump-sum payment of the accumulated contributions standing to the member's credit at the member's death;

(2) a retirement benefit based on 2% of the final average salary for each year of service credit up to a maximum of 25 years, reduced on an actuarially equivalent basis from age 65 or the date the member would have completed 25 years of membership service, whichever provides a larger retirement benefit;

(2) Election of an optional retirement benefit must be by written application filed prior to the first payment of the benefit.

General Provisions

19-8-101. Definitions. Unless the context requires otherwise, the following definitions apply in this chapter:

(1) "Compensation" means remuneration paid for services to a member out of funds controlled by an employer before any deductions are made and exclusive of maintenance, allowances, and expenses.

(2) "Final average salary" means the average monthly compensation received by a member for any 3 years of continuous service upon which contributions were made or, in the event a member has not served 3 years, the total compensation earned divided by the number of months served. Lump-sum payments for severance pay, sick leave, and annual leave paid to an employee upon termination of employment may be used in the calculation of a retirement benefit only to the extent that they are used to replace, on a month-for-month basis, the normal compensation for a month or months included in the calculation of the final average salary. A lump-sum payment may not be added to a single month's compensation.

(3) "State game warden" means a state fish and game warden hired by the department of fish, wildlife, and parks and includes all warden supervisory personnel whose salaries or compensation is paid out of the department of fish, wildlife, and parks money.

If the board determines that the recipient is not incapacitated, the recipient's disability retirement benefit must be canceled when the recipient is offered a position under subsection (3). If the recipient refuses to submit to a medical examination, the recipient's disability retirement benefit must be canceled when the recipient is notified of the determination of the board.

(2) If the board determines that a recipient of a disability retirement benefit should no longer be subject to medical review, the board may grant a service retirement status to the recipient without recalculating the recipient's monthly benefit. The board shall notify the recipient in writing as to the change in status. If the recipient disagrees with the board's determination, the recipient may request the board to reconsider its action. The request for reconsideration must be made in writing within 60 days after receipt of the notice of the status change.

(3) A recipient whose disability retirement benefit is canceled because the board has determined that the recipient is no longer incapacitated must be

reinstated to the position held by the recipient immediately before the recipient's retirement or to a position in the same classification within the recipient's capacity, whichever is first open. The fact that the recipient was retired for disability may not prejudice any right to reinstatement to duty that the recipient may have or claim to have.

(4) The department of fish, wildlife, and parks may request a medical or psychological review as to the ability of the recipient to return to work as a game warden. If the board's findings are upheld, the department of fish, wildlife, and parks shall pay the cost of the review.

General Provisions

19-9-101. Short title. This chapter may be cited as the "Municipal Police Officers' Retirement Act".

History: En. 11-1860 by Sec. 1, Ch. 456, L. 1977; R.C.M. 1947, 11-1860.

19-9-102. Purpose — application of prior law. (1) As cities other than those participating in the statewide police reserve fund provided for in Chapter 335, Laws of 1974, currently have local police retirement funds, the legislature finds and declares that the law regarding such funds, although in conflict with this chapter, cannot be repealed. It is the express intention of the legislature to allow two separate and distinct retirement systems to exist. The first, which includes local police retirement funds, applies to such cities, other than those of the first and second class, that wish to adopt it. The second, created by this chapter, applies to first- and second-class cities, those other cities that wish to adopt it, and any city that has adopted the above-mentioned statewide police reserve fund.

(2) The following may not be applied in any way to a city operating under the plan created by this chapter: 7-32-4107, 7-32-4120, 7-32-4131, and chapter 19 of this title.

History: En. 11-1892 by Sec. 33, Ch. 456, L. 1977; R.C.M. 1947, 11-1892; amd. Sec. 11, Ch. 114, L. 1979.

19-9-103. Municipal police officers' retirement system established. A municipal police officers' retirement system is established, which is governed by the provisions of chapter 2 and this chapter.

19-9-403. Election to qualify previous military service. (1) A member with 15 years or more of service credit may, at any time prior to retirement, make a written election with the board to qualify up to a maximum of 5 years of the member's active duty service in the armed forces of the United States for the purpose of calculating retirement benefits if the member is not otherwise eligible to receive credit. To qualify this service the member shall contribute to the pension trust fund the actuarial cost of granting the service to be determined by the board based on the most recent actuarial valuation of the system. The member may not qualify more of the member's military service than the member has service credit in excess of 15 years.

(2) If a member has retired from active duty in the armed forces of the United States with a normal military service retirement benefit, the member may not qualify the member's military service under subsection (1). However, a member who is serving or has served in the military reserves with the expectation of receiving a military service pension may qualify the member's active duty military service under subsection (1) if the member's active duty in the armed forces of the United States is not more than 25% of the total of all the member's years of military service, including reserve and active duty time.

Compiler's Comments

1993 Amendments — Composite Section: Chapter 265 substituted (1) that read: "(1) A member with at least 20 years of membership service must receive a retirement benefit equal to the sum of:

(a) 2.5% of the member's final average compensation for each year of service credit up to and including 20 years; and

(b) 1% of the member's final average compensation for each year of service credit after 20 years" (not codified — see compiler's comment) for former (1) through (3) that read: "(1) A police officer with 20 years of qualified service who is eligible under 19-9-801 and does not elect to serve any additional years as an active police officer shall receive a service retirement allowance equal to one-half his final average salary.

(2) A police officer who is eligible for service retirement under 19-9-801 after 20 years of qualified service and who elects to serve additional years shall receive the allowance provided for in subsection (1) plus an additional 1% of his final average salary for each year of additional qualified service, up to a maximum of 60% of his final average salary.

(3) A member who is eligible for service retirement under 19-9-801 with less than 20 years of qualified service shall receive a retirement allowance equal to 2.5% of his final average salary for each year of qualified service"; inserted (2) regarding limitation on total monthly benefit (not codified — see compiler's comment); inserted (3) regarding amount of retirement benefit for member retiring with less than 20 years of membership service (not codified — see compiler's comment); in (2), throughout subsection, substituted references to member for references to police officer or officer; in (2)(a) substituted "retirement benefit under subsection (1)" for "retirement allowance under subsection (1) or (2)", before "fund" inserted "pension trust", substituted "a benefit equal to" for "a sum equal to", and at end substituted "final average compensation" for "final average salary"; in (2)(b) substituted "service retirement benefit" for "service retirement allowance", before "fund" inserted "pension trust", substituted "a benefit equal to" for "a sum equal to", and substituted "benefit" for "allowance"; in (4)(c), near end of first sentence after "dependent", inserted "child" (not codified — see compiler's comment); and made minor changes in style. Amendment effective July 1, 1993.

Chapter 522 deleted former (1) providing for 20-year service retirement (see 1993 Session Law for text); deleted former (2) providing for 20-year service retirement and additional qualified service retirement (see 1993 Session Law for text); in (1), after "under 19-9-801", deleted "with less than 20 years of qualified service"; in (4)(a), after "benefit", inserted "based on at least 20 years of service" and in (2)(b), after "allowance", inserted "based on less than 20 years of service" ((4) amendments rendered meaningless by deletion of sentence by Ch. 265); and made minor changes in style. Amendment effective July 1, 1993.

Chapter 620 in (2)(a), after "(2)", inserted "or (3)" (this amendment was not codified by the codifier due to Ch. 265 amendments) and after "equal to" deleted former language that read: "one-half of the officer's final average salary.

(b) Upon the death of a member receiving a service retirement allowance under subsection (3), his surviving spouse, if there is one, shall receive from the fund a sum equal to"; and made minor changes in style. Amendment effective May 7, 1993.

Compiler's Comment: Chapter 265 contained an introductory phrase that read: "(1) A member with at least 20 years of membership service must receive a retirement benefit equal to the sum of".

Chapter 522 contained an introductory phrase that read: "(1) A member who is eligible for service retirement under 19-9-801 must receive a retirement allowance equal to . . . ."

Because both chapters struck the introductory language of the other, thereby rendering the introductory phrase meaningless, the compiler has combined the language into the current introductory phrase to reflect the apparent intent of both chapters.

The insertion of (1)(a) and (1)(b) by Ch. 265 was parallel to former (2). The provision in (1)(b) concerning 1% for years of service in excess of 20 was not codified because that provision was deleted by Ch. 522. Chapter 265 apparently did not intend to make a substantive change in benefits. The compiler has not codified the inserted benefit language from Ch. 265 because that concept was deleted by Ch. 522.

The compiler has codified the apparent intent of the three chapters.

Style and gender neutral changes throughout the section were slightly different in the three chapters. In each case, the codifier chose the most appropriate of the three.

Retroactive Applicability: Section 6, Ch. 620, L. 1993, provided: "[Section 3] [19-9-804] applies retroactively, within the meaning of 1-2-109, to benefits paid on or after July 1, 1975."

Part 9
Disability Retirement Benefits

19-9-901. Repealed. Sec. 236, Ch. 265, L. 1993.

History: En. 11-1878 by Sec. 19, Ch. 456, L. 1977; R.C.M. 1947, 11-1878(3); amd. Sec. 9, Ch. 597, L. 1981.

19-9-902. Eligibility for disability retirement. If a member is determined by the board to be disabled, the member is entitled to a disability retirement benefit, regardless of the length of the member's service, commencing on the day following the member's termination from service.

History: En. 11-1871 by Sec. 12, Ch. 456, L. 1977; R.C.M. 1947, 11-1871; amd. Sec. 1, Ch. 389, L. 1979; amd. Sec. 5, Ch. 822, L. 1991; amd. Sec. 198, Ch. 265, L. 1993.

Compiler's Comments

1993 Amendment: Chapter 265 near beginning substituted "member" for "police officer", before "disabled" deleted "totally and permanently", substituted "disability retirement benefit" for "disability retirement allowance", and at end substituted "the member's termination from service" for "the police officer's last day of membership service"; and made minor changes in style. Amendment effective July 1, 1993.

19-9-903. Amount of disability retirement benefit — continuation of benefit after death of member. (1) A member who is eligible under 19-9-902 before earning 20 years of service credit must receive a disability retirement benefit equal to one-half the member's final average compensation.

(2) A member who is retired under 19-9-902 and who, at the time of the member's injury or disability, was eligible at the member's option to be retired under 19-9-801 but had elected to serve years in excess of 20 years of service credit and was then serving additional years must be paid for the additional years at the rate prescribed in 19-9-804.

(3) Upon the death of a member receiving a disability retirement benefit under this section, the member's surviving spouse or dependent child is eligible for benefits as provided in 19-9-804.

History: En. 11-1890 by Sec. 31, Ch. 456, L. 1977; R.C.M. 1947, 11-1890(4), (5); amd. Sec. 3, Ch. 350, L. 1985; amd. Sec. 8, Ch. 631, L. 1991; amd. Secs. 6, 9, Ch. 822, L. 1991; amd. Sec. 199, Ch. 265, L. 1993.

Compiler's Comments

1993 Amendment: Chapter 265 throughout section substituted references to member for references to police officer; in (1) substituted "before earning 20 years of service credit" for "before completing 20 years of qualified service", substituted "disability retirement benefit" for "disability retirement allowance", and at end substituted "one-half the member's final average compensation" for "one-half his average final salary"; in (2) substituted "20 years of service credit" for "20 years of qualified service"; in (3) substituted "disability retirement benefit" for "disability allowance" and deleted reference to subsection (4) of 19-9-804; and made minor changes in style. Amendment effective July 1, 1993.

19-9-904. Termination of benefit. The board, in its discretion, may require the recipient of a disability retirement benefit to undergo a medical examination. The examination must be made by a physician or surgeon at the recipient's place of residence or at another place mutually agreed on, at the board's expense. Upon the basis of the examination, the board shall determine, by reason of physical or mental capacity, whether the recipient can perform the duties of the position held by the recipient when the recipient was retired. If an inactive member is determined by the board to be no longer disabled, the inactive member's disability retirement benefit must be canceled when the inactive member is offered a position under 19-9-905. If the inactive member refuses to submit to a medical examination, the inactive member's disability retirement benefit must cease as of the date of the determination. The inactive member must be notified of the determination by the board. The board may review the status of an inactive member at any time.

History: En. 11-1872 by Sec. 13, Ch. 456, L. 1977; R.C.M. 1947, 11-1872(1); amd. Sec. 10, Ch. 597, L. 1981; amd. Sec. 200, Ch. 265, L. 1993.

Compiler's Comments

1993 Amendment: Chapter 265 in three places substituted "disability retirement benefit" for "disability retirement allowance" and in fourth sentence, before "disabled", deleted "totally and permanently"; and made minor changes in style. Amendment effective July 1, 1993.

19-9-905. Reinstatement upon termination of benefit. (1) A retired member whose disability retirement benefit is cancelled as provided in 19-9-904 must be reinstated to the position held by the member immediately before retirement or to a position in the same classification with duties within the member's capacity, whichever is first open. The board shall advise the employer that the disability retirement benefit has been cancelled and that the member is eligible for reinstatement to duty. The fact that the member was retired for disability may not prejudice any right to reinstatement to duty that the member may have or claim to have.

(2) The city may request a medical or psychological review as to the ability of the member to return to work as a police officer. If the board's findings are upheld, the city shall pay the costs of the review.

(3) If the retired member again becomes an active member by returning to service with an employer within 30 days following receipt of notice under 19-9-904, the member must be considered to have been continuously employed during the term of the member's disability. If the retired member fails to become an active member by returning to service with an employer within 30 days following receipt of the notice, the member's termination of service is considered to have occurred as of the member's disability retirement date and the retirement benefit, if any, to which the member becomes entitled on the member's service retirement date must be determined accordingly.

History: En. 11-1872 by Sec. 13, Ch. 456, L. 1977; R.C.M. 1947, 11-1872(2), (3); amd. Sec. 11, Ch. 597, L. 1981; amd. Sec. 201, Ch. 265, L. 1993.

19-9-1007. Supplement to certain benefits. (1) The benefits paid in each fiscal year to a retired member or the member's survivors may not be less than one-half of the compensation that will be paid in the current fiscal year in the appropriate city or town to newly confirmed police officers.

(2) On or before October 1 of each year, the division shall make a report including the following information:

(a) the names of all retired members who are receiving benefits from the retirement system as of the date of the report;

(b) the names of all surviving spouses or dependent children who are receiving benefits from the retirement system because of the death of an active or retired member of this or a prior plan;

(c) for the purpose of determining the base retirement, disability, or survivorship benefits for the computations set forth in subsection (3), the following information relating to the base fiscal year commencing July 1, 1976:

(i) the amount of the benefits paid in the base fiscal year to each retired member described in subsection (2)(a);

(ii) the amount of the benefits paid in the base fiscal year to each surviving spouse or dependent child described in subsection (2)(b);

(e) the compensation that will be paid during the current fiscal year to a newly confirmed police officer of each city or town participating in the retirement system.

(3) The division shall compute the difference between each amount reported under subsections (2)(c) through (2)(e) and one-half the compensation to be paid during the current fiscal year to a newly confirmed police officer of the appropriate city or town. The difference must be reported to the state auditor who shall pay the difference to the pension trust fund out of the premium tax collected on insurance sold in this state to insure against the risks enumerated in 19-18-512(3) no later than November 1. If the compensation of a newly confirmed police officer has not been set for the current fiscal year in time to be included in the October 1 report to the state auditor, the division shall make any retroactive adjustments necessary to individual supplemental benefits after the current compensation has been determined and shall include these amounts in the next year's report for reimbursement at that time.

(4) The premium tax amount paid by the state auditor is statutorily appropriated, as provided in 17-7-502, for the payment of supplemental retirement benefits to eligible retired members and their survivors. This payment is in addition to the payment to be made by the state auditor under 19-9-702.

(5) If more than one dependent child is entitled to supplementary benefits under this section by virtue of the death of a common parent, the minimum benefit paid to the dependent children under this section must be determined as if there were one dependent child and the supplementary benefits must be paid to the dependent children collectively.

Part 1
General Provisions

19-13-101. Short title. This chapter may be cited as the "Montana Firefighters' Unified Retirement Act".

History: En. Sec. 1, Ch. 566, L. 1981.

19-13-102. Purpose — application of prior law. (1) Because cities other than those of the first or second class currently have fire department relief associations, the legislature finds and declares that the law regarding these associations cannot be repealed. It is the express intention of the legislature to allow two separate and distinct retirement systems to exist. The first, which includes fire department relief associations, applies to cities other than those of the first or second class that wish to adopt it. The second, created by this chapter, applies to cities of the first or second class and those other cities that wish to adopt it. The purpose of the second system is to provide equity and security for retired firefighters who served cities of the first and second class and other cities electing to join the plan by creating a centrally administered system responsible for continuing all retirement payments from the assets of the system.

(2) Title 19, chapter 18, may not be applied in any way to a city operating under the plan created by this chapter except as otherwise provided.

History: En. Sec. 2, Ch. 566, L. 1981.

19-13-103. Firefighters' unified retirement system established. A firefighters' unified retirement system is established and governed by the provisions of chapter 2 and this chapter.

History: En. Sec. 3, Ch. 566, L. 1981; amd. Sec. 205, Ch. 265, L. 1993.

Compiler's Comments

1993 Amendment: Chapter 265 inserted reference to chapter 2. Amendment effective July 1, 1993.

19-13-104. Definitions. Unless the context requires otherwise, the following definitions apply in this chapter:

(1) Any reference to "city" or "town" includes those jurisdictions which, prior to the effective date of a county-municipal consolidation, were incorporated municipalities, subsequent districts created for urban firefighting services, or the entire county included in the county-municipal consolidation.

(2) "Compensation" means:

(a) for a full-paid firefighter, the regular remuneration, excluding overtime, holiday payments, shift differential payments, compensatory time payments, and payments in lieu of sick leave, paid by an employer for the firefighter's service as a firefighter;

(b) for a part-paid firefighter employed by a city of the second class:

(i) 15% of the regular remuneration, excluding overtime, holiday payments, shift differential payments, compensatory time payments, and payments in lieu of sick leave, paid on July 1 of each year to a newly confirmed, full-paid firefighter of the city that employs the part-paid firefighter; or

(ii) if that city does not employ a full-paid firefighter, 15% of the average regular remuneration, excluding overtime, holiday payments, shift differential payments, compensatory time payments, and payments in lieu of sick leave, paid on July 1 of each year to all newly confirmed, full-paid firefighters employed by cities of the second class.

(3) "Dependent child" means a child of a deceased member who is:

Lump-sum payments for annual leave paid to the member upon termination of service may be used to replace, on a month-for-month basis, the normal compensation for a month or months included in the calculation of final average compensation.

(6) "Firefighter" means a person employed as a full-paid or part-paid firefighter by an employer.

(7) "Full-paid firefighter" means a person appointed as a firefighter under 7-33-4106.

(9) "Minimum retirement date" means the first day of the month coinciding with or immediately following, if none coincides, the date on which a member becomes both age 50 or older and completes 10 or more years of membership service.

(10) "Part-paid firefighter" means a person employed under 7-33-4109 who receives compensation in excess of $300 a year for service as a firefighter.

(11) "Prior plan" means the fire department relief association plan of a city that elects to join the retirement system under 19-13-211 or the fire department relief association plan of a city of the first or second class.

19-13-211. Election to join retirement system — transfer of assets. Upon the enactment of the ordinance and passage of the resolution, the provisions of this retirement system become applicable to the city. Any city that enacts an election ordinance and in which the fire department relief association passes a resolution shall send certified copies to the board and shall, as soon as possible, deposit into the pension trust fund all cash and securities held by its fire department relief association. The value of the securities must be determined by the board.

If there is no surviving spouse or if the surviving spouse dies and if the member leaves one or more dependent children, the children are entitled to receive the allowance as long as they remain dependent children as defined in 19-13-104.

(2) A member hired on or after July 1, 1981, who retires with at least 10 years of membership service must receive a service retirement benefit equal to 2% of the member's final average compensation for each year of service credit.

A member who completes more than 20 years of service shall receive an additional 1% of his final monthly compensation for each year in excess of 20, up to a maximum of 60% of the monthly compensation last received by the member.

(b) A member hired before July 1, 1981, who is eligible under 19-13-701 and who elects to retire after completing 10 years or more of service but has not both completed 20 years of service and reached age 50 as an active firefighter shall receive a service retirement allowance equal to 2% of the monthly compensation last received by the member for each year of service up to a maximum of 60% of his final monthly salary.

(i) If the member dies after he is permanently separated from service and before he both reaches age 50 and completes 20 years of service as an active firefighter, the allowance prescribed in subsection (1)(b) must be made to the surviving spouse beginning on the date the firefighter would have both reached his 50th birthday and completed 20 years of service as an active firefighter and terminating upon the surviving spouse's death. If there is no surviving spouse or if the surviving spouse dies and if the firefighter leaves one or more dependent children, the children are entitled to receive the allowance as long as they remain dependent as defined in 19-13-104.

19-13-802. Eligibility for disability retirement. If a member is determined by the board to be disabled, the member is entitled to receive a disability retirement benefit, regardless of the length of the member's service, beginning the first day after the date on which the member became disabled and terminated service because of the disability.

19-13-803. Amount of disability retirement benefit. (1) A member hired before July 1, 1981, who becomes disabled:

(a) before completing 20 years of membership service must receive a disability retirement benefit equal to one-half the member's last monthly compensation;

(3) A member's disability retirement benefit must be paid first to the member during the member's lifetime and, upon the member's death, to the member's surviving spouse. If upon a member's death the member leaves no surviving spouse or upon the death of the surviving spouse, the member's benefit must be paid to the member's dependent children as long as they remain dependent children as defined in 19-13-104.

19-13-804. Medical examination of disability retiree — cancellation of benefit. (1) The board in its discretion may require the recipient of a disability retirement benefit to undergo a medical examination at the board's expense. The examination must be made by a physician or surgeon at the recipient's place of residence or at another place mutually agreed on. Based on the results of the examination, the board shall determine whether the recipient has the physical or mental capacity to perform the duties required by the recipient's position. If the board determines that the recipient is not incapacitated or if the recipient refuses to submit to a medical examination, the recipient's disability retirement benefit must be canceled. The board shall notify the recipient of this determination and the cancellation of the recipient's benefit.

The board shall advise the employer that the disability retirement benefit has been canceled and that the inactive member is eligible for reinstatement to duty. The fact that the member was retired for disability may not prejudice any right to reinstatement to duty that the inactive member may have or claim to have.

(b) If an appropriate vacancy does not exist within an inactive member's fire department when the member's disability benefit is canceled under 19-13-804, the member's benefit must be reinstated until a vacancy occurs.

(2) The city may request a medical or psychological review as to the ability of the member to return to work as a firefighter. If the board's findings are upheld, the city shall pay the costs of the review.

(3) If the inactive member again becomes an active member by returning to active work for an employer within 30 days following receipt of notice under 19-13-804, the member is considered to have been continuously employed

during the term of the member's disability. If the inactive member fails to become an active member by returning to active work for an employer within 30 days following receipt of this notice, the member's termination of employment is considered to have occurred as of the member's disability retirement date and the retirement benefit, if any, to which the member becomes entitled on the member's service retirement must be determined accordingly.

If the member leaves one or more dependent children, then, upon the member's death if the member leaves no surviving spouse or upon the death of the surviving spouse, the member's dependent children must collectively receive the same benefit that a surviving spouse would have received, as long as the children remain dependent children as defined in 19-13-104.

(b) If insufficient money is contained in the state special revenue fund to pay the amount requested in subsection (2)(a), the auditor shall pay to the division the balance contained in the state special revenue fund. Part 4

Pension Benefits

19-17-401. Eligibility for pension benefits. In order to qualify for participation in the volunteer firefighters' pension plan under 19-17-404, a volunteer firefighter shall meet each of the following requirements:

(1) (a) To qualify for full participation, a volunteer firefighter must have completed a total of at least 20 years' service as an active volunteer firefighter and as an active member of a qualified volunteer fire company.

(b) If a firefighter is prevented from completing at least 20 years' service, the firefighter may qualify for partial participation if the firefighter has completed at least 10 years' service and has attained the age of 60. In that event, the firefighter is eligible for only a proportion of the benefits specified in 19-17-404, determined by multiplying the benefits by a fraction, the numerator of which is the number of years of active service completed and the denominator of which is 20.

(c) The years of active service are cumulative and need not be continuous. The service need not be acquired with one single fire company but may be a total of separate periods of active service with different fire companies in different fire districts.

(d) Effective March 1, 1965, the annual period of service for the purpose of this chapter is the fiscal year. A fractional part of any year may not count toward the service requirement, and to receive credit for any particular year, a volunteer firefighter shall serve with one particular volunteer fire company throughout that entire fiscal year.

(2) (a) Except as provided in subsection (2)(b), in order to receive pension benefits, a firefighter must have attained the age of 55 but need not be an active volunteer firefighter or an active member of any volunteer fire company when that age is reached.

(b) An active member of a volunteer fire company whose duty-related injury results in a permanent total disability as defined in 39-71-116 is eligible, regardless of age, to receive a partial pension calculated as follows:

(i) for a member with less than 10 years of service, a pension calculated as provided in subsection (1)(b) in which the numerator equals 10; or

(ii) for a member with 10 years or more of service, a pension calculated as provided in subsection (1)(b).

(3) During each of the years for which credit is claimed under subsection (1), a firefighter must have completed a minimum of 30 hours of instruction in matters pertaining to firefighting under a program formulated and supervised by the chief or foreman of the volunteer fire company.

(4) Effective July 1, 1965, a volunteer firefighter may not receive credit for any year of membership in a volunteer fire company unless, throughout the year:

(a) the company maintained firefighting equipment in serviceable condition of a value of $2,500 or more; and

(b) the company or the fire district served by it was rated in class 5, 6, 7, 8, 9, or 10 by the board of fire underwriters for the purpose of fire insurance premium rates.

(5) In order to receive pension benefits, a firefighter must have ceased to be an active member of any volunteer fire company, and if the firefighter applies for and receives pension benefits under this part, the firefighter is not eligible to become an active member of any volunteer fire company.

History: En. Sec. 4, Ch. 65, L. 1935; re-en. Sec. 5158.4, R.C.M. 1935; amd. Sec. 2, Ch. 118, L. 1965; amd. Sec. 1, Ch. 161, L. 1967; amd. Sec. 1, Ch. 46, L. 1969; amd. Sec. 2, Ch. 80, L. 1971; amd. Compiler's Comments

1993 Amendment: Chapter 283 in (1)(b), in first sentence after "20 years' service", deleted "by dissolution or discontinuance of his volunteer fire company, personal relocation due to transfer or loss of employment, personal disability, or any other factor beyond his reasonable control" and at end inserted reference to attainment of age 60; in (2)(a), after exception clause, inserted reference to receipt of pension benefits; in (5) inserted introductory clause concerning receipt of pension benefits; and made minor changes in style. Amendment effective July 1, 1993.

19-17-402. Certificate of eligibility. On or before September 1 of each year, the chief or foreman of every volunteer fire company shall prepare and file with the board a certificate, subscribed and verified under oath, stating whether or not his company qualified under 19-17-401(4) during the preceding fiscal year and listing the full name and residence address of each member of his company who satisfactorily completed 30 hours of instruction during the preceding fiscal year, as required by 19-17-401(3). The verified certificate shall be maintained in a permanent file by the board for the purpose of establishing eligibility for participation in the volunteer firefighters' pension plan and shall be open for inspection as a public record.

History: En. 11-2020.2 by Sec. 20, Ch. 157, L. 1977; amd. Sec. 3, Ch. 489, L. 1977; R.C.M. 1947, 11-2020.2; amd. Sec. 7, Ch. 57, L. 1983; Sec. 19-12-402, MCA 1991; redes. 19-17-402 by Code Commissioner, 1993.

19-17-403. Procedure for claiming pension benefits. (1) Anyone claiming eligibility under the volunteer firefighters' pension plan must file his claim with the board upon a form to be provided therefor by the board. The claim must be filed on or before May 1 of the calendar year in which the claimant seeks to qualify for participation in the pension plan.

(2) The claim must contain:

(a) the name, address, and date of birth of the claimant and of the volunteer firefighter, if he is not the claimant;

(b) the fiscal year during which eligibility will commence; and

(c) the years during which service as a volunteer firefighter was rendered and the names of the volunteer fire companies with which the service was rendered.

(3) The board may require such proof of age and service as it may consider proper, but it must accept a certificate filed under 19-17-402 or subsection (3) of section 22, Chapter 157, Laws of 1977, as prima facie proof of such service.

(4) If the claim is properly filed and the claimant is found by the board to be properly qualified to participate in the volunteer firefighters' pension plan, the name of the claimant shall be added to the list of qualified persons and the claimant will then be entitled to participate in the volunteer firefighters' pension plan as of the fiscal year beginning July 1 next following the filing of the claim.

19-17-404. Pension benefits. (1) Each person who meets the requirements set forth in 19-17-401 or, in the case of a beneficiary, 19-17-405(1) and who has completed and filed a claim as provided in 19-17-403 is entitled to participate in the volunteer firefighters' pension plan and to receive payments as provided in this section.

(2) The payments must be computed each year in the following manner:

(a) For fiscal years 1994 and 1995, the base benefit level is $120 per month for each retiree qualifying for full participation under the provisions of 19-17-401(1)(a). Partial participation is calculated under the provisions of 19-17-401(1)(b).

(b) Whenever at the close of business on the last day of a fiscal year there is a balance in the volunteer firefighters' fund in excess of $6 million, the board shall set aside the amount to be paid to each qualifying claimant.

(c) For the purpose of computation and payment of benefits under this section, if children of a volunteer firefighter become eligible for benefits, all the children of the volunteer firefighter must be treated collectively as one claimant.

If the amount of the benefit for a qualified claimant is less than $20 per month, the qualified claimant's full pension for that year must be paid in one lump payment on or before December 15 of that year.

19-18-602. Service pension. (1) Each association shall pay, out of its disability and pension fund, a service pension to each of its members who elects to retire from active service after having completed 20 years or more of active duty and has reached the age of 50 years as a fully paid member of a paid or partly paid and partly volunteer fire department of the city or town in which the association was formed. The pension shall be equal to one-half of the sum last received by the member as a monthly compensation, excluding overtime and payments in lieu of sick leave and annual leave, for his services as an active member of the fire department.

(2) Effective July 1, 1974, a member who completes 20 years of service and elects to serve additional years shall receive the pension provided for in subsection (1) increased at the rate of 1% per year for each additional year of service completed, up to a maximum of 60% of the sum last received by the member as a monthly compensation, excluding overtime and payments in lieu of sick leave and annual leave, for his services as an active member of the fire department. No member is eligible to receive a service pension prior to attaining the age of 50 years.

(3) The monthly pension paid to members retiring on or after July 1, 1973, must be at least one-half the regular monthly salary, excluding overtime and payments in lieu of sick leave and annual leave, paid to a confirmed active firefighter of that city, as provided each year in the budget of that city. The monthly pension paid to a member retiring prior to July 1, 1974, must be at least $200. In the case of volunteer firefighters, the pension may not exceed $150 a month.

(4) As of July 1, 1977, a member is not eligible to receive a service pension under this section unless he is making a monthly contribution to the disability and pension fund, as required by 19-18-501, and is on active duty as a fully paid member of a fire department when he reaches the age of 50 years.

(5) A member of a pure volunteer fire department who has served 20 years or more as an active member of the fire department is entitled to the benefits provided for in this chapter regardless of his age. A member of a pure volunteer fire department who has completed 10 years' service as an active member of the fire department but who is prevented from completing 20 years' service by dissolution or discontinuance of his volunteer fire department, personal relocation due to transfer or loss of employment, personal disability, or any other factor beyond his reasonable control may nevertheless qualify for a partial or reduced pension in an amount and to the extent determined by the board of trustees of the association, regardless of his age.

(c) does not qualify for a disability pension under 19-18-604; and

(2) The right to receive the pension vests upon the firefighter's permanent separation from service, but the payments may not commence until the date he would have both reached his 50th birthday and completed 20 years of service as a member of a fire department had his active duty not been terminated.

(3) The pension shall be paid out of the disability and pension fund and shall consist of monthly payments in an amount equal to the number of years of the firefighter's service divided by the number of years of service the firefighter would have had if he had remained in active duty as a member of a fire department until the date he would have both attained age 50 and completed 20 years of service, multiplied by one-half of the sum last received by the firefighter as a monthly compensation, excluding overtime and payments in lieu of sick leave and annual leave, for his services as an active member of the fire department.

(4) If the firefighter dies after he is permanently separated from service and before he both reaches the age of 50 years and would have completed 20 years of service as an active member of a fire department, the payments prescribed in subsection (3) shall be made to the surviving spouse commencing on the date the firefighter would have both reached his 50th birthday and completed 20 years of service as an active member of a fire department and terminating upon the surviving spouse's death or remarriage. If there is no surviving spouse or the surviving spouse dies or remarries and if the firefighter leaves one or more children who have not reached the age of 18 years, the children shall receive the payments until the youngest reaches the age of 18 years.

(5) If the firefighter dies after he both reaches the age of 50 years and would have completed 20 years of service as an active member of a fire department, the payments shall be made to the surviving spouse or children as provided in subsection (4).

(6) The pension escalation provisions of 19-18-602 do not apply to pensions received under this section.

The pension shall be equal to one-half of the sum last received by the member as a monthly compensation, excluding overtime and payments in lieu of sick leave and annual leave, for his services to the fire department of the city or town in which the association was formed.

(2) Effective July 1, 1974, a member who completes 20 years of service and elects to serve additional years shall receive the pension provided for in subsection (1) increased at the rate of 1% per year for each additional year of service completed, up to a maximum of 60% of the sum last received by the member as a monthly compensation, excluding overtime and payments in lieu of sick leave and annual leave, for his services as an active member of the fire department.

(3) The monthly pension paid to members retiring on or after July 1, 1973, must be at least one-half the regular monthly salary paid to a confirmed active firefighter of that city, as provided each year in the budget of that city. The monthly pension paid to a member retiring prior to July 1, 1974, must be at least $200. In the case of volunteer firefighters, the disability pension may not exceed $125 a month.

(1) Each association shall pay, out of its disability and pension fund, a monthly pension to the surviving spouse or children of a deceased member of the association who on the date of his death was an active member of the fire department in the city or town in which the association was formed, who had elected to retire from active service in the fire department and receive a service pension as provided for by 19-18-602, or who, prior to death, had suffered a sickness or injury and was receiving or was qualified to receive a disability pension as provided by 19-18-604. The pension shall be equal to one-half of the last month's salary received as a monthly compensation, excluding overtime and payments in lieu of sick leave and annual leave, by the deceased member for services rendered as an active member of the fire department in the city or town in which the association was formed.

(2) Effective July 1, 1974, if the deceased member had completed 20 years of service and had elected to serve additional years, the pension provided for in subsection (1) shall be increased at the rate of 1% per year for each additional year of service completed, up to a maximum of 60% of the last month's salary received as a monthly compensation, excluding overtime and payments in lieu of sick leave and annual leave, by the deceased member for his services as an active member of the fire department.

(3) The monthly pension paid to the surviving spouse or children of an active member who dies after July 1, 1973, or an active member who elects to retire after July 1, 1973, must be at least one-half the regular monthly salary paid to a confirmed active firefighter of that city, as provided each year in the budget of that city. (4) A pension may be paid to the surviving spouse only so long as such spouse remains unmarried. A surviving spouse is not entitled to a pension under this section if the marriage was entered into after the firefighter had elected to retire from active service and had begun to receive a service pension as provided for by 19-18-602 or if the marriage was entered into after the firefighter had qualified for and had begun to receive a disability pension as provided for by 19-18-604. Part 1
General Provisions

19-20-101. Definitions. As used in this chapter, unless the context clearly indicates otherwise, the following definitions apply:

(1) "Accumulated contributions" means the sum of all the amounts deducted from the compensation of a member or paid by a member and credited to his individual account in the annuity savings fund, together with interest. Regular interest shall be computed and allowed to provide a benefit at the time of retirement.

(2) "Actuarial equivalent" means a benefit of equal value when computed, with regular interest, on the basis of the 1971 Group Annuity Mortality Table, with ages set back 4 years and an interest rate of 8% compounded annually.

(3) "Annuity" means the payments made to a beneficiary for life which are derived from a member's accumulated contributions.

(4) "Annuity reserve" means the present value of all payments to be made on account of a member's annuity computed, with regular interest, on the basis of the mortality tables adopted by the retirement board.

(5) (a) "Average final compensation" means the average of the earned compensation of a member during the 3 consecutive years of full-time service which yield the highest average and on which contributions have been made as required by 19-20-602.

(b) In determining a member's retirement allowance under 19-20-802 or 19-20-804, the amount of each year's earned compensation that may be used in the calculation of average final compensation may not exceed the member's earned compensation from the preceding year by more than 10%, except as provided by rule by the retirement board.

(c) Earned compensation in excess of the amount specified in subsection (5)(b) is considered termination pay as provided in subsection (5)(d).

(d) If the earned compensation includes any termination pay, the member shall select one of the following options:

(i) use the total termination pay in the calculation of the average final compensation. The member and the employer shall pay contributions to the retirement system as are determined by the board to adequately compensate the system for the additional retirement benefit. The contributions must be made at the time the termination pay is received.

(ii) use a yearly amount of termination pay added to each of the 3 consecutive years' salary used in the calculation of the average final compensation, if the member has 4 or more years of service with the employer from which the termination pay was received. The amount of compensation used in the calculation of average final compensation must be divided by the total number of years of creditable service to determine a yearly amount. The member and the employer must pay contributions on the termination pay according to the rates provided for in 19-20-602(1) and 19-20-605(1).

(iii) exclude the termination pay from the average final compensation. No contribution is required of either the employer or member, and contributions made under 19-20-602 and 19-20-605 must be refunded.

(e) For purposes of this subsection, termination pay includes any form of termination pay or any lump-sum payment for deferred compensation, sick leave, or accumulated vacation credit, or any other payment for time not worked other than compensation received while on sick leave or authorized leave of absence.

(6) "Beneficiary" means a person in receipt of a pension, annuity, retirement allowance, or other benefit provided by the retirement system.

(7) "Creditable service" is that service defined by 19-20-401.

(8) "Earned compensation" means the full compensation, pay, or salary actually paid to a member and reported to the retirement system, including amounts paid under a salary reduction agreement, a cafeteria plan, a tax sheltered annuity, a deferred compensation program, and the value of any housing provided by the employer. The employer shall fix the value of any housing provided. The term does not include any other amounts paid in kind or fringe benefits not actually paid to a member. The earned compensation is the full compensation, pay, or salary that would have been paid to a member for full-time service but was not paid to the member because of a reduction in compensation, pay, or salary due to a temporary absence, provided that the retirement system receives the contribution required by 19-20-413. The earned compensation of a member who had less than 3 consecutive years of full-time service during the 5 years preceding his retirement is the compensation, pay, or salary which he would have earned had his part-time service been full-time service. The earned compensation of a member who is awarded a disability retirement allowance prior to the completion of a full year is the compensation, pay, or salary which he would have received had he completed the full year, except that any termination pay, as defined in subsection (5)(e), received by the member is limited to the amount actually paid and is not the amount he would have earned had he completed the full year.

(9) "Employer" means the state of Montana, the trustees of a district, or any other agency or subdivision of the state which employs a person who is designated a member of the retirement system.

(10) "Full-time service" means service which is full-time and which extends over a normal academic year of at least 9 months. With respect to those members employed by the office of the superintendent of public instruction, any other state agency or institution, or the office of a county superintendent, "full-time service" means service which is full-time and which totals at least 9 months in any one year.

(11) "Member" means a person who has an individual account in the annuity savings fund. An active member is a person included under the provisions of 19-20-302. An inactive member is a person included under the provisions of 19-20-303.

(12) "Part-time service" means service which is less than full-time or which totals less than 9 months in any one year. Part-time service shall be credited in the proportion that the actual time worked bears to full-time service.

(13) "Pension" means the payments made to a beneficiary for life which are paid out of the pension accumulation fund.

(14) "Pension reserve" means the present value of all payments to be made on account of a pension computed, with regular interest, on the basis of the mortality tables adopted by the retirement board.

(15) "Prior service" means employment of the same nature as service defined in subsection (20) of this section but rendered before September 1, 1937.

(16) "Regular interest" means interest at 4% per annum compounded annually or at such other rate as may be set by the retirement board in accordance with 19-20-501(2).

(17) "Retirement allowance" means the annuity plus the pension.

(18) "Retirement board" means the retirement system's governing board provided for in 2-15-1010.

(19) "Retirement system" means the teachers' retirement system of the state of Montana provided for in 19-20-102.

(20) "Service" means the performance of such instructional duties or related activities as would entitle the person to active membership in the retirement system under the provisions of 19-20-302.

Creditable Service

19-20-401. Creditable service. (1) The creditable service of a member begins on the date of his employment in a capacity prescribed for his eligibility in 19-20-302 and accumulates to the member's credit on the basis of the retirement board's policy governing creditable service.

(2) The creditable service of a member includes the following:

(a) each year of service for which contributions to the retirement system were deducted from his compensation under the provisions of Chapter 87, Laws of 1937, Chapter 215, Laws of 1939, this chapter, and their subsequent amendments, except that no credit may be awarded for those years of service for which the contributions have been withdrawn and not replaced;

(b) any service awarded by a prior service certificate issued under the provisions of Chapter 87, Laws of 1937, Chapter 215, Laws of 1939, and their subsequent amendments or under the provisions of 19-20-406;

(c) any out-of-state employment service awarded by the retirement board under the provisions of 19-20-402;

(d) any service awarded for employment while on leave under 19-20-403;

(e) any service in the military, red cross, or merchant marine awarded by the retirement board under 19-20-404;

(f) any employment service awarded by the retirement board under the provisions of 19-20-408;

(g) any service transferred after October 1, 1989, from the public employees' retirement system under 19-20-409;

(h) any service awarded by the retirement board for extension service employment under 19-20-410; and

(i) any service awarded for absence due to employment-related injury under 19-20-411.

(3) The retirement board's determination of creditable service under this section is final and conclusive for the purposes of the retirement system unless, at any time, the board discovers an error or fraud in the establishment of creditable service, in which case the board shall redetermine the creditable service.

(4) For a member completing only part-time service during the qualifying period, the first full year's teaching salary used to calculate the cost to

purchase creditable service is the salary that he would have earned if his first year part-time salary had been full-time.

19-20-402. Creditable service for out-of-state employment. (1) (a) A member who became a member before July 1, 1989, may apply for creditable service in the retirement system for out-of-state employment service that would have been acceptable under the provisions of this chapter if the service had been performed in the state of Montana. If the member contributed to a public retirement plan, other than social security, while performing the out-of-state service, he must receive a refund of his contributions for the out-of-state service before qualifying service under this section. The member must be awarded creditable service, conditional upon his completing 5 years of active membership in Montana, for the number of years, not exceeding 5, that the retirement board determines to be creditable service, if he contributes to the retirement system as provided in subsection (2).

(b) For the purpose of this section, out-of-state employment includes service performed outside the United States in a federal or other public or private school or institution if the service would have been acceptable under this chapter if performed in the state of Montana.

(2) (a) Except as provided in subsection (2)(b), to qualify service under this section, the member must contribute an amount equal to the combined employer and employee contribution for his first full year's teaching salary earned in Montana after his out-of-state service for each year of creditable service plus interest at the rate the contribution would have earned had the contribution been in his account upon the completion of 5 years of membership service in Montana. The contribution rate must be the rate in effect at the time he is eligible for the service.

(b) To qualify service performed outside the United States in a federal or other public or private school or institution, the member must contribute for each year of service to be qualified an amount equal to the combined employer and employee contribution for his first full year's teaching salary earned in Montana after his out-of-state service or after July 1, 1989, whichever date is later, plus interest at the rate the contribution would have earned had the contribution been in his account from the date he was eligible to qualify the service. The contribution rate must be the rate in effect at the time he is eligible to qualify the service or the rate in effect on July 1, 1989, whichever date is later.

(3) The contributions required under subsection (2) may be made in a lump-sum payment or in installments as agreed between the member and the retirement board.

19-20-403. Creditable service for employment while on leave. (1) A member with 5 years or more of creditable service in the retirement system who became a member before July 1, 1989, may apply for creditable service for employment while on leave. If he contributes to the retirement system as provided in subsection (2), the member must be awarded creditable service in an amount not exceeding 2 years as determined by the board, conditional upon his having been a member prior to his leave and upon his completing 1 year of active membership in Montana subsequent to his return.

(2) To qualify service under this section, the member must contribute an amount equal to the combined employer and employee contributions for his first full year's teaching salary earned in Montana after his return from leave for each year of creditable service plus interest at the rate the contribution would have earned had the contribution been in his account. The contribution rate must be the rate in effect at the time he is eligible for the service. The contribution may be made in a lump-sum payment or in installments as agreed between the member and the retirement board.

To qualify this service, a member shall submit to the board a completed application form and proper certification of the member's military service.

(2) (a) If a member is ineligible for service credit under subsection (1), the member may apply under the provisions of this subsection (a) for creditable service in the retirement system, except as provided in subsection (2)(b), for active service in the armed forces of the United States, which includes the army, navy, marine corps, air force, and coast guard, or in the American red cross or merchant marine. The person must be awarded creditable service, conditional upon the person's completing 5 years of active membership in Montana, for the number of years, not exceeding 2, that the retirement board determines to be creditable service, if the person contributes to the retirement system an amount equal to the combined employer and employee contributions for the person's first full year's teaching salary earned in Montana following the active service in the armed forces of the United States, the American red cross, or the merchant marine for each year of creditable service plus interest at the rate the contribution would have earned had the contribution been in the person's account upon completion of 5 years of membership service in Montana. The contribution rate is that rate in effect at the time the person is eligible for the service.

(b) If a member elects to purchase additional service under 19-20-412, service purchased under this subsection (2) may be used only for the purpose of calculating the member's retirement allowance and may not be considered creditable service for the purpose of determining eligibility under 19-20-801 or 19-20-802.

(3) The contribution required under subsection (2) may be made in a lump-sum payment or in installments as agreed between the person and the retirement board.

(ii) interest, which begins to accrue 1 year from the date he returns to covered employment; and

(iii) interest not paid by the employer under subsection (1)(b).

(b) Whenever a member elects to contribute under subsection (1)(a), the employer shall contribute an amount equal to the contributions which would have been made by the employer had the member not been absent, based on the member's compensation at the commencement of his absence. If the employer elects not to pay the interest, this amount must be paid by the employee.

Part 6

Funds — Contributions

19-20-601. Method of financing. The retirement board shall establish and maintain the funds described in this part, in which all of the assets of the retirement system shall be credited according to the purpose for which the assets are held.

History: En. 75-6207 by Sec. 102, Ch. 5, L. 1971; amd. Sec. 1, Ch. 57, L. 1971; amd. Sec. 1, Ch. 422, L. 1971; amd. Sec. 3, Ch. 507, L. 1973; amd. Sec. 2, Ch. 26, L. 1975; amd. 19-20-602. Annuity savings fund — member's contribution. The annuity savings fund is a fund in which the contributions for the members to provide for their annuities shall be accumulated in individual accounts for each member. The normal contribution of each member is 7.044% of his earned compensation. Contributions to and payments from the annuity savings fund shall be made in the following manner:

(1) (a) Each employer, pursuant to section 414(h)(2) of the federal Internal Revenue Code of 1954, as amended and applicable on July 1, 1985, shall pick up and pay the contributions which would be payable by the member under this section for service rendered after June 30, 1985.

(b) The member's contributions picked up by the employer must be designated for all purposes of the retirement system as the member's contributions, except for the determination of a tax upon a distribution from the retirement system. These contributions must become part of the member's accumulated contributions but must be accounted for separately from those previously accumulated.

(c) The member's contributions picked up by the employer must be payable from the same source as is used to pay compensation to the member and must be included in the member's wages as defined in 19-1-102 and his earned compensation as used to define his average final compensation in 19-20-101. The employer shall deduct from the member's compensation an amount equal to the amount of the member's contributions picked up by the employer and remit the total of the contributions to the retirement board.

(d) The deductions shall be made notwithstanding that the minimum compensation provided by law for a member may be reduced thereby. Every member is considered to consent to the deductions prescribed by this section, and payment of salary or compensation less the deductions is a complete discharge of all claims whatsoever for the services rendered by the member during the period covered by the payment, except as to the benefits provided by the retirement system.

(2) In addition to the normal contributions and subject to the approval of the retirement board, any member may redeposit in the annuity savings fund, by a single payment or by an increased rate of contribution, an amount equal to any accumulated contributions which he has previously withdrawn, plus interest in the amount the contributions would have earned had the contributions not been withdrawn.

(3) The accumulated contributions of a member withdrawn by him or paid to his estate or to his designated beneficiary in event of his death shall be paid from the annuity savings fund. Upon the retirement of a member, his accumulated contributions shall be transferred from the annuity savings fund to the pension accumulation fund.

19-20-603. Withdrawal of accumulated contributions — options. Any inactive member electing to do so or any person whose membership terminates may withdraw the member's or person's accumulated contributions from the annuity account in the retirement system in accordance with the following provisions:

(1) An inactive member under the provisions of subsection (1) or (3) of 19-20-303 may elect, without right of revocation, to withdraw the member's accumulated contributions. If the member does not withdraw the accumulated contributions, the member remains an inactive member of the retirement system with the right to qualify for its benefits.

(2) Upon recovery from a disabling illness or separation from the armed forces, any person qualifying as an inactive member under the provisions of 19-20-303(2) may withdraw the member's accumulated contributions unless the member returns to active membership.

(3) Any person whose membership terminates under the provisions of 19-20-304(4) may withdraw the person's accumulated contributions.

(4) Upon written request, a terminating member may have the payment of the accumulated contributions split. The tax-deferred portion of the contributions may be paid directly to an individual retirement account or other qualified plan designated by the member, and the other portion must be paid directly to the terminating member. The board shall provide forms for making the written request. The terminating member is responsible for correctly designating an account or plan eligible to receive the tax-deferred amount in order to continue the status of the amount.

19-20-702. Optional allowances. (1) Until the first payment on account of any benefit becomes normally due, any member may elect to receive one of the optional allowances described in subsection (2) in lieu of the normal form of retirement allowance, which is provided for in part 8 of this chapter and 19-20-902. If a member dies within 30 days after retirement, the member's election to receive an optional allowance is void and the member's death will be considered as that of an active member.

(2) An optional allowance is the actuarial equivalent of the member's retirement or disability allowance at the time of the member's retirement and provides an allowance payable to the member throughout the member's lifetime and, upon the member's death, an allowance payable to the person that the member nominated by written designation, duly acknowledged and filed with the retirement board at the time of the member's retirement, in accordance with one of the following options:

(a) Option A—the optional allowance will be paid to the member throughout the member's lifetime and, upon the member's death, continue throughout the lifetime of the member's designated beneficiary.

(b) Option B—the optional allowance will be paid to the member throughout the member's lifetime, and upon the member's death, one-half of the optional allowance will be continued throughout the lifetime of the member's designated beneficiary.

(c) Option C—the optional allowance will be paid to the member throughout the member's lifetime, and upon the member's death, two-thirds of the optional allowance will be continued throughout the lifetime of the member's designated beneficiary.

(d) Option D—some other benefit will be paid either to the member or the member's surviving designated beneficiary in accordance with provisions approved by the retirement board.

(3) (a) Upon written request to the retirement board, a retired member who is receiving an optional retirement allowance may designate a different beneficiary, select a different option, or convert the member's optional retirement allowance to a regular retirement or disability allowance if:

(i) the original beneficiary has died; or

(ii) the member has been divorced from the original beneficiary and the original beneficiary has not been granted the right to receive the optional retirement allowance as part of the divorce settlement.

(b) Upon receipt of the request, the board shall actuarially adjust the member's monthly retirement or disability allowance to reflect the change.

(4) Effective on the first of the month following receipt of notification of the death of a person nominated as the designated beneficiary under subsection (2), any optional retirement allowance that is effective after October 1, 1993, will revert to the full normal form of retirement allowance available at the time of retirement. The normal form of retirement allowance available must be increased by the value of any postretirement adjustments received by the member since the effective date of retirement.

(a) actuarial amount required to fund the retirement system for the fiscal year; and

(b) retirement system's administrative and investment expenses for the fiscal year.

(2) (a) From the remainder obtained in subsection (1), the board shall calculate the amount of investment income earned on that portion of the retirement fund balance representing retired members.

(b) multiplying the quotient obtained in subsection (2)(a) by the member's total years of service;

(c) dividing the product obtained in subsection (2)(b) by a factor for calculating a monthly annuity from actuarial tables adopted by the board; and

(d) applying the provisions contained in subsections (3) and (4).

(3) If a member had elected to receive an optional retirement allowance, the amount of his postretirement allowance must be adjusted by the appropriate optional factor.

Part 1
General Provisions

19-21-101. Authority to establish optional retirement program. The board of regents may establish an optional retirement program, as provided in this chapter, for the administrative officers and members of the instructional and scientific staff of the Montana university system. The program may be an independent plan or part of a larger plan with respect to some or all of the benefits provided. The benefits under the program must be provided through individual annuity contracts, either fixed or variable, or a combination thereof, issued to and owned by the participants in the program.

History: En. Sec. 1, Ch. 494, L. 1987.

19-21-102. Definition of teachers' retirement system. In this chapter, "teachers' retirement system" means the teachers' retirement system provided for in Title 19, chapter 20.

History: En. Sec. 2, Ch. 494, L. 1987.

19-21-103. Duties of board of regents. The board of regents shall:

(1) provide for the administration of the program;

(2) designate the company or companies from which the contracts are to be purchased and approve the form and content of the contracts, taking into consideration the:

(a) nature and extent of the rights and benefits to be provided by the contracts for participants and their beneficiaries;

(b) relationship of these rights and benefits to the amount of contributions to be made;

(c) suitability of these rights and benefits to the needs of the participants and the interests of the Montana university system in the recruitment and retention of administrative officers and members of the instructional and scientific staff; and

(d) ability of the designated company or companies to provide these rights and benefits.

History: En. Sec. 5, Ch. 494, L. 1987.

19-21-104 through 19-21-110 reserved.

19-21-111. Actuarial investigation to determine past service liability compared to contributions required. (1) The legislative auditor shall, using independent actuarial assistance as necessary and in cooperation with the teachers' retirement board and the board of regents, determine the dollar value of past service liability of active, inactive, and retired teachers' retirement system members of the Montana university system as compared to contributions required of the Montana university system on behalf of teachers' retirement system members pursuant to 19-20-605. The legislative auditor shall report any findings to the legislature. The office of the commissioner of higher education shall pay for the determination, required by this section, of past service liability of teachers' retirement system members compared to contributions required of the Montana university system.

(2) If the valuation determines that the percentage contribution established in 19-21-203(5) has an adverse effect on the amortization of the

unfunded liability, then the board of regents shall pay an additional sum over a period of 40 years to rectify the adverse effect.

(3) Changes in the teachers' retirement system occurring after July 1, 1987, that create additional unfunded liabilities may not be considered in the valuation, and the board of regents may not be required to pay any additional sum on that account except to the extent that those changes benefit members of the teachers' retirement system who are employees of the Montana university system.

(4) If the valuation determines that the board of regents is paying an amount in excess of that needed to amortize the unfunded liability, the teachers' retirement board shall credit the board of regents for the excess payments. The board of regents shall credit the active participants in the optional retirement program with the excess payments.

History: En. Sec. 9, Ch. 494, L. 1987; amd. Sec. 1, Ch. 365, L. 1991; amd. Sec. 2, Ch. 178, L. 1993.

Compiler's Comments

Part 2

Participation — Benefits

19-21-201. Participation in program. (1) Except as provided in subsection (2), academic and professional administrative personnel with individual contracts under the authority of the board of regents are eligible for and may elect to participate in the optional retirement program instead of the teachers' retirement system. This election must be exercised:

(a) before January 1, 1988, for an eligible person hired before July 1, 1987;

(b) within 90 days after entry into service or before January 1, 1988, whichever is later, for a person hired in an eligible position on or after July 1, 1987; and

(c) within 30 days after receiving written notice of eligibility or before January 1, 1988, whichever is later, for an employee who becomes eligible to participate in the optional retirement program by reason of appointment, promotion, transfer, or reclassification to an eligible position.

(2) (a) An eligible person hired on or after July 1, 1993, shall become a member of the optional retirement plan unless the person is, on the date hired, an active, inactive, or retired member of a public retirement system created in Title 19, chapter 3 or 20.

(b) A person hired who is a member of a public retirement system created in Title 19, chapter 3 or 20, shall elect to:

(i) remain with the retirement system of which the person is a member on the date hired; or

(ii) become a member of the optional retirement plan.

(c) A person eligible to make an election under this subsection (2) shall exercise the election within 30 days of being hired.

(3) The election must be exercised by filing a written notice with the teachers' retirement system and the disbursing officer of the employer. The

election is effective as of the date the notice is filed or January 1, 1988, whichever is later.

(4) If an eligible officer or staff member fails to exercise the election, as provided by this section, that person must remain or become a member of the teachers' retirement system.

(5) An election under this section is not effective unless the notice filed with the disbursing officer of the employer is accompanied by an appropriate application, if one is required, for the issuance of a contract or contracts under the program.

History: En. Sec. 3, Ch. 494, L. 1987; amd. Sec. 3, Ch. 178, L. 1993.

Amendment effective July 1, 1993.

19-21-202. Effect on rights under teachers' retirement system. (1) An election under 19-21-201 to participate in the optional retirement program is a waiver of all rights and benefits under the teachers' retirement system except as provided in this section.

(2) A member of the teachers' retirement system who elects to participate in the optional retirement program is considered, for the purpose of determining eligibility for rights and benefits under that system, to be no longer employed in a capacity that allows active membership in that system as of the effective date of the election. Thereafter, the member is considered an inactive member of the retirement system if qualified under 19-20-303, with the rights and privileges provided under 19-20-603(1). A member who elects to participate in the optional retirement program who does not qualify as an inactive member under 19-20-303 is considered a terminated member of the retirement system under 19-20-304(4).

(3) A person who elects to participate in the optional retirement program is ineligible to be an active member of the teachers' retirement system while continuously employed in a position eligible to participate in the optional retirement program.

History: En. Sec. 4, Ch. 494, L. 1987.

19-21-203. Contributions. (1) Each optional retirement program participant shall contribute an amount equal to the member's contribution required under 19-20-602. The board of regents shall contribute an amount that, when added to the participant's contribution, is equal to 12% of the participant's earned compensation.

(2) (a) On or after July 1, 1997, the board of regents may:

(i) reduce the participant's contribution rate established in subsection (1) to an amount not less than 6% of the participant's earned compensation; and

(ii) increase the employer's contribution rate to an amount not greater than 6% of the participant's earned compensation.

(b) The sum of the participant's and employer's contributions made under subsection (2)(a) must remain at 12% of the participant's earned compensation.

(3) The board of regents shall determine whether the participant's contribution is to be made by salary reduction under section 403(b) of the Internal Revenue Code of 1954 or by employer pick-up under section 414(h)(2) of that code.

(4) The disbursing officer of the employer or other official designated by the board of regents shall pay both the participant's contribution and the appropriate portion of the regents' contribution to the designated company or companies for the benefit of the participant.

(5) (a) The board of regents shall contribute the amounts specified in subsection (5)(b) to the teachers' retirement system to discharge the obligation incurred by the employees of the Montana university system who elect or who are required to become members of the optional retirement plan. The contributions paid by the board are for the past service liability incurred by active, inactive, and retired members of the teachers' retirement system and must be consistent with the requirements of 19-21-111.

(b) (i) Beginning July 1, 1993, through June 30, 1997, the contributions to be made by the board of regents must equal 2.503% of earned compensation attributable to optional retirement participants.

(ii) Beginning July 1, 1997, the contribution rate must be adjusted, pursuant to 19-20-201, based on the actual experience of the members of the Montana university system who are members of the teachers' retirement system, and must be set at a rate sufficient to amortize the past service liability of the university system members by July 1, 2033.

History: En. Sec. 6, Ch. 494, L. 1987; amd. Sec. 4, Ch. 178, L. 1993.

Compiler's Comments

1993 Amendment: Chapter 178 at end of (1) substituted "an amount that, when added to the participant's contribution, is equal to 12% of the participant's earned compensation" for "an amount equal to the employer contribution required under 19-4-605"; in former (2), (2)(a), and (2)(a)(i) deleted requirement that the Board of Regents' contribution be apportioned and paid to the designated companies in an amount equal to the greater of the employer contribution to the Teachers' Retirement System not used to amortize past service unfunded liability or in an amount that, when added to the participant's contribution, is equal to 10% of the participant's contribution; deleted (2)(b) providing that the balance of the contribution went to the Teachers' Retirement System; inserted (2) allowing the Board to reduce the participant's contribution to an amount not less than 6% of the participant's earned compensation and to increase the employer's contribution rate to an amount not exceeding 6% and requiring the sum of the participant's and employer's contribution to remain at 12%; and inserted (5) pertaining to contributions by the Board of Regents to the Teachers' Retirement System for employees of the University System for past service liability incurred by active, inactive, and retired members of the Teachers' Retirement System. Amendment effective July 1, 1993.

19-21-204 through 19-21-210 reserved.

19-21-211. Payment of benefits. No retirement, death, or other benefit may be paid by the state or the board of regents under the optional retirement program. Benefits are payable to a participant and his beneficiaries only by the designated company or companies in accordance with the terms of the contracts.

History: En. Sec. 7, Ch. 494, L. 1987.

19-21-212. Exemption from taxation, legal process, and assessments. All contracts, benefits, and contributions under the optional retirement program and the earnings thereon are:

(1) except for a retirement allowance received in excess of $3,600 or adjusted by an amount determined pursuant to 15-30-111(2)(c)(ii), exempt from any state, county, or municipal tax;

(2) not subject to execution, garnishment, attachment, or other process;

(3) not covered or assessable by an insurance guaranty association; and

(4) unassignable except as specifically provided in the contracts.

20-3-302. Legislative intent to elect less than majority of trustees. (1) It is the intention of the legislature that the terms of a majority of the trustee positions of any district with elected trustees may not regularly expire and be subject to election on the same regular school election day. In elementary districts, there may not be more than three trustee positions in first-class districts, two trustee positions in second-class districts or third-class districts having five trustee positions, or one trustee position in third-class districts having three trustee positions regularly subject to election at the same time. In high school districts there may not be more than two additional trustee positions in first- or second-class districts or more than one in third-class districts regularly subject to election at the same time. In high school districts operating a county high school, there may not be more than two trustee positions to be filled by members residing in the elementary district where the county high school building is located or more than one trustee position to be filled by members residing outside of the elementary district where the county high school building is located subject to election at the same time.

(2) In the following circumstances relating to newly created trustee positions, the initial terms may be shortened to comply with the intent of subsection (1):

(a) the creation of a new elementary district under the provisions of 20-6-217;

(b) the consolidation of two or more elementary districts to form an elementary district under the provisions of 20-6-203 or the consolidation of two or more high school districts to form a high school district under the provisions of 20-6-315;

(c) the establishment of additional trustee positions of a high school district under the provisions of 20-3-353 or 20-3-354 or new trustee positions under the provisions of 20-3-352(3);

(d) the change of a district's classification under the provisions of 20-6-201 or 20-6-301;

(e) the establishment of additional elementary trustee positions under the provisions of 20-3-341(3); or

(f) the establishment of additional high school trustee positions under the provisions of 20-6-313.

(3) If the change of a district's classification under 20-6-201 or 20-6-301 decreases the number of trustee positions, the positions must be eliminated in a manner that complies with the intent of subsection (1).

(4) Although the legislature intends that the terms of a majority of trustees of any district may not regularly expire and be subject to election at the same time, it is recognized that filling a vacancy under 20-3-308 may lead to a subsequent school election in which a majority of trustee positions are subject to election at the same time.

20-3-352. Request and determination of number of high school district additional trustee positions — nonvoting trustee. (1) As provided in 20-3-351(1)(b), a high school district, except a high school district operating a county high school, may have additional trustee positions when the trustees of a majority of the elementary districts with territory located in the high school district, but without equitable representation on the high school district trustees under the provision of 20-3-351(1)(a), request the establishment of additional trustee positions under the provisions of subsection (2) or when the electors approve an alternative method of electing members of the board of trustees under the provisions of subsection (3).

(2) A request for additional trustee positions must be made to the county superintendent by a resolution of the trustees of each elementary district. When a resolution has been received from a majority of the elementary districts without representation on the high school district trustees, the county superintendent shall determine the number of additional trustee

positions for the affected high school district in accordance with the following procedure:

(a) The taxable valuation of the elementary district that has its trustees placed on the high school trustees must be divided by the number of positions on the trustees of the elementary district to determine the taxable valuation per trustee position.

(b) The taxable valuation used for the calculation in subsection (2)(a) must be subtracted from the taxable valuation of the high school district to determine the taxable valuation of the territory of the high school district without representation on the high school district trustees.

(c) The taxable valuation determined in subsection (2)(b) must be divided by the taxable valuation per trustee position calculated in subsection (2)(a). The resulting quotient must be rounded off to the nearest whole number, except that when the quotient is less than 0.5, at least one nonvoting trustee position must be established for the territory without representation on the high school district board of trustees under the provision of 20-3-351(1)(a).

(d) Except for a nonvoting trustee position, the number determined in subsection (2)(c) must be the number of additional trustee positions, except that the number of additional trustee positions may not exceed four in a first- or second-class high school district or two in a third-class high school district except when two-thirds or more of the high school enrollment of the high school district and two-thirds or more of the taxable valuation of the high school district are located outside of the elementary district that has its trustees placed on the high school district trustees. When this situation exists, three additional trustees must be elected from the elementary school districts in which the high school is not located and one additional trustee must be elected at large in the high school district.

(3) (a) If more than half of the electors of the high school district reside outside the territory of the elementary school district in which the high school district buildings are located, at least 10% of the electors of the high school district who are qualified to vote under the provisions of 20-20-301 may petition the county superintendent, requesting an election to consider a proposition on the question of establishing the following alternative method of electing the members of the high school district board of trustees:

(i) one trustee to be elected from each elementary school district with territory included in the high school district; and

(ii) two or three trustees to be elected at large in the high school district, whichever number results in an odd number of members on the board of trustees.

20-4-121. Interstate agreement on qualification of educational personnel. The interstate agreement on qualification of educational personnel is enacted into law and entered into with all jurisdictions legally joining therein in the form substantially as follows:

Article I. Purpose — Findings — Policy

(1) The states party to this agreement, desiring by common action to improve their respective school systems by utilizing the teacher or other professional educational person wherever educated, declare that it is the policy of each of them, on the basis of cooperation with one another, to take advantage of the preparation and experience of such persons wherever gained, thereby serving the best interests of society, of education, and of the teaching profession. It is the purpose of this agreement to provide for the development and execution of such programs of cooperation as will facilitate the movement of teachers and other professional educational personnel among the states party to it and to authorize specific interstate educational personnel contracts to achieve that end.

(2) The party states find that included in the large movement of population among all sections of the nation are many qualified educational personnel who move for family and other personal reasons but who are hindered in using their professional skill and experience in their new locations. Variations from state to state in requirements for qualifying educational personnel discourage such personnel from taking the steps necessary to qualify in other states. As a consequence, a significant number of professionally prepared and experienced educators are lost to our school systems. Facilitating the employment of qualified educational personnel, without reference to their states of

origin, can increase the available educational resources. Participation in this compact can increase the availability of educational manpower.

Article II. Definitions

As used in this agreement and contracts made pursuant to it, unless the context clearly requires otherwise, the following definitions apply:

(1) "Educational personnel" means persons who must meet requirements pursuant to state law as a condition of employment in educational programs.

(2) "Designated state official" means the educational official of a state selected by that state to negotiate and enter into, on behalf of his state, contracts pursuant to this agreement.

(3) "Accept" or any variant thereof means to recognize and give effect to one or more determinations of another state relating to the qualifications of educational personnel in lieu of making or requiring a like determination that would otherwise be required by or pursuant to the laws of a receiving state.

(4) "State" means a state, territory, or possession of the United States, the District of Columbia, or the commonwealth of Puerto Rico.

(5) "Originating state" means a state (and the subdivisions thereof, if any) whose determination that certain educational personnel are qualified to be employed for specific duties in schools is acceptable in accordance with the terms of a contract made pursuant to Article III.

(6) "Receiving state" means a state (and the subdivisions thereof) which accept educational personnel in accordance with the terms of a contract made pursuant to Article III.

Article III. Interstate Educational Personnel Contracts

(1) The designated state official of a party state may make one or more contracts on behalf of his state with one or more other party states providing for the acceptance of educational personnel. Any such contract for the period of its duration shall be applicable to and binding on the states whose designated state officials enter into it and the subdivisions of those states with the same force and effect as if incorporated in this agreement. A designated state official may enter into a contract pursuant to this article only with states in which he finds that there are programs of education, certification standards, or other acceptable qualifications that assure preparation or qualification of educational personnel on a basis sufficiently comparable even though not identical to that prevailing in his own state.

(2) Any such contract shall provide for:

(a) its duration;

(b) the criteria to be applied by an originating state in qualifying educational personnel for acceptance by a receiving state;

(c) such waivers, substitutions, and conditional acceptance as shall aid the practical effectuation of the contract without sacrifice of basic educational standards; and

(d) any other necessary matters.

(3) No contract made pursuant to this agreement shall be for a term longer than 5 years, but any such contract may be renewed for like or lesser periods.

(4) Any contract dealing with acceptance of educational personnel on the basis of their having completed an educational program shall specify the

earliest date or dates on which originating state approval of the program or programs involved can have occurred. No contract made pursuant to this agreement shall require acceptance by a receiving state of any persons qualified because of successful completion of a program prior to January 1, 1954.

(5) The certification or other acceptance of a person who has been accepted pursuant to the terms of a contract shall not be revoked or otherwise impaired because the contract has expired or been terminated. However, any certificate or other qualifying document may be revoked or suspended on any ground which would be sufficient for revocation or suspension of a certificate or other qualifying document initially granted or approved in the receiving state.

(6) A contract committee composed of the designated state officials of the contracting states or their representatives shall keep the contract under continuous review, study means of improving its administration, and report not less than once a year to the heads of the appropriate education agencies of the contracting states.

Article IV. Approved and Accepted Programs

(1) Nothing in this agreement shall be construed to repeal or otherwise modify any law or regulation of a party state relating to the approval of programs of educational preparation having effect solely on the qualification of educational personnel within that state.

(2) To the extent that contracts made pursuant to this agreement deal with the educational requirements for the proper qualification of educational personnel, acceptance of a program of educational preparation shall be in accordance with such procedures and requirements as may be provided in the applicable contract.

Article V. Interstate Cooperation

The party states agree that:

(1) they will, so far as practicable, prefer the making of multilateral contracts pursuant to Article III of this agreement; and

(2) they will facilitate and strengthen cooperation in interstate certification and other elements of educational personnel qualification and for this purpose shall cooperate with agencies, organizations, and associations interested in certification and other elements of educational personnel qualification.

Article VI. Agreement Evaluation

The designated state officials of any party states may meet from time to time as a group to evaluate progress under the agreement and to formulate recommendations for changes.

Article VII. Other Arrangements

Nothing in this agreement shall be construed to prevent or inhibit other arrangements or practices of any party state or states to facilitate the interchange of educational personnel.

Article VIII. Effect — Withdrawal

(1) This agreement shall become effective when enacted into law by two states. Thereafter it shall become effective as to any state upon its enactment of this agreement.

(2) Any party state may withdraw from this agreement by enacting a statute repealing the same, but no such withdrawal shall take effect until 1 year after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other party states.

(3) No withdrawal shall relieve the withdrawing state of any obligation imposed upon it by a contract to which it is a party. The duration of contracts and the methods and conditions of withdrawal therefrom shall be those specified in their terms.

Article IX. Construction — Severability

This agreement shall be liberally construed so as to effectuate the purpose thereof. The provisions of this agreement shall be severable and if any phrase, clause, sentence, or provision of this agreement is declared to be contrary to the constitution of any state or of the United States or the application thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this agreement and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this agreement is held to be contrary to the constitution of any state participating therein, the agreement shall remain in full force and effect as to the state affected as to all severable matters.

20-4-208. Transfer from administrative position. (1) A tenure teacher serving in an administrative position may be assigned to a teaching position with a reduction in salary when the economic conditions of the district require a reduction of administrative staff. The salary for the new position must be the same as the salary that the teacher would have received if the teacher had been continuously employed in the new position rather than in the administrative position.

(2) If a board policy or a collective bargaining agreement provides seniority rights for teachers, a district that assigns a tenure teacher serving in an administrative position to a teaching position shall recognize for teacher seniority purposes the tenure teacher's time of service in the administrative position.

(3) As used in this section, the term:

(a) "administrative position" means a position that the trustees of a district designate as administrative or supervisory in nature, not including the position of district superintendent; and

(b) "reduction of administrative staff" is limited to reductions necessary because of declining enrollment or financial exigency.

(4) When a tenure teacher serving in an administrative position is to be transferred under this section, the teacher must be notified prior to May 1 by certified letter or by personal notification for which a signed receipt must be obtained. The notification must include:

(b) a printed copy of this section for the teacher's information.

(5) A tenure teacher who receives notice under subsection (4) may request in writing, within 10 days of the notice, a hearing before the board of trustees. The board of trustees shall set the hearing not less than 10 days or more than 20 days from receipt of the request unless both parties agree to an extension. If a hearing is requested, the trustees shall:

(a) conduct the hearing to determine whether the reason or reasons for the transfer were in compliance with the provisions of subsection (1); and

(b) resolve at the end of the hearing to uphold the transfer or to reject the transfer and return the teacher to the administrative position.

(6) A tenure teacher may appeal a decision under this section to the county superintendent as provided in 20-3-210. The county superintendent shall conduct a hearing to determine whether the reason or reasons for the transfer were in compliance with the provisions of subsection (1).

(7) The teacher or the trustees may appeal the determination of the county superintendent to the superintendent of public instruction as provided in 20-3-107.

(8) A tenure teacher who is transferred to a teaching position under this section must be offered the next comparable administrative position for which he is endorsed that becomes available in the district.

Code Commissioner Correction: In (1) the Code Commissioner substituted "20-5-321" for "20-5-301(3)(e)". Section 20-5-301 was repealed by Ch. 563, L. 1993. Section 20-5-321, enacted by sec. 2, Ch. 563, L. 1993, deals with the subject matter formerly contained in 20-5-301. Pursuant to sec. 84, Ch. 10, L. 1993, the Code Commissioner has substituted the reference.

20-5-317 through 20-5-319 reserved.

20-5-320. Attendance with discretionary approval. (1) A child may be enrolled in and attend a school in a Montana school district that is outside of the child's district of residence or a public school in a district of another state or province that is adjacent to the county of the child's residence, subject to discretionary approval by the trustees of the resident district and the district of choice. If the trustees grant discretionary approval of the child's attendance in a school of the district, the parent or guardian may be charged tuition and may be charged for transportation.

(2) (a) Whenever a parent or guardian of a child wishes to have the child attend a school under the provisions of this section, the parent or guardian shall apply to the trustees of the district where the child wishes to attend. The application must be made on an out-of-district attendance agreement form supplied by the district and developed by the superintendent of public instruction.

(b) The attendance agreement must set forth the financial obligations, if any, for tuition and for costs incurred for transporting the child under Title 20, chapter 10.

(c) The trustees of the district of choice may waive any or all of the tuition rate, but any waiver must be applied equally to all students.

(3) An out-of-district attendance agreement approved under this section requires that the parent or guardian initiate the request for an out-of-district attendance agreement and that the trustees of both the district of residence and the district of choice approve the agreement.

(4) If the trustees of the district of choice waive tuition, approval of the resident district trustees is not required.

(5) The trustees of a school district may approve or disapprove the out-of-district attendance agreement consistent with this part and the policy adopted by the local board of trustees for out-of-district attendance agreements.

(6) The approval of an out-of-district attendance agreement by the applicable approval agents or as the result of an appeal must authorize the child named in the agreement to enroll in and attend the school named in the agreement for the designated school year.

(7) The trustees of the district where the child wishes to attend have the discretion to approve any attendance agreement.

(8) This section does not preclude the trustees of a district from approving an attendance agreement for educational program offerings not provided by the resident district, such as the kindergarten or grades 7 and 8 programs, if the trustees of both districts agree to the terms and conditions for attendance and any tuition and transportation requirement. For purposes of this subsection, the trustees of the resident district shall initiate the out-of-district agreement.

(9) (a) A provision of this title may not be construed to deny a parent the right to send a child, at personal expense, to any school of a district other than the resident district when the trustees of the district of choice have approved an out-of-district attendance agreement and the parent has agreed to pay the tuition as prescribed by 20-5-323. However, under this subsection (9), the tuition rate must be reduced by the amount the parent or guardian of the child paid in district and county property taxes during the immediately preceding school fiscal year for the benefit and support of the district in which the child will attend school.

(b) For the purposes of this section, "parent or guardian" includes an individual shareholder of a domestic corporation as defined in 35-1-113 whose shares are 95% held by related family members to the sixth degree of consanguinity or by marriage to the sixth degree of affinity.

(c) The tax amount to be credited to reduce any tuition charge to a parent or guardian under subsection (9)(a) is determined in the following manner:

(i) determine the percentage of the total shares of the corporation held by the shareholder parent or parents or guardian;

(ii) determine the portion of property taxes paid in the preceding school fiscal year by the corporation, parent, or guardian for the benefit and support of the district in which the child will attend school.

(d) The percentage of total shares as determined in subsection (9)(c)(i) is the percentage of taxes paid as determined in subsection (9)(c)(ii) that is to be credited to reduce the tuition charge.

(10) As used in 20-5-320 through 20-5-324, the term "guardian" means the guardian of a minor as provided in Title 72, chapter 5, part 2.

20-5-321. Attendance with mandatory approval — tuition and transportation. (1) An out-of-district attendance agreement that allows a child to enroll in and attend a school in a Montana school district that is outside of the child's district of residence or in a public school district of a state or province that is adjacent to the county of the child's residence is mandatory whenever:

(a) the child resides closer to the school that the child wishes to attend and more than 3 miles from the school the child would attend in the resident district;

(b) the child resides in a location where, due to road or geographic conditions, it is impractical to attend the school nearest the child's residence;

(c) the child is a member of a family who must send another child outside of the elementary district to attend high school and the child of elementary age may more conveniently attend an elementary school where the high school is located, provided the child resides more than 3 miles from an elementary school in the resident district or the parent must move to the elementary district where the high school is located to enroll another child in high school;

(d) the child has been adjudicated by a court of competent jurisdiction to be an abused, neglected, or dependent child, as defined in 41-3-102, or a youth in need of supervision or a delinquent youth, as defined in 41-5-103, and has been placed in a licensed youth care facility that is approved by the department of family services and, as a result of the placement, is required to attend school outside of the child's district of residence; or

(e) the child is required to attend school outside of the district of residence as the result of a placement by a state agency or parent in a group home licensed by the state or an order of a court of competent jurisdiction.

(2) (a) Whenever a parent or guardian of a child, an agency of the state, or a court wishes to have a child attend a school under the provisions of this section, the parent or guardian, agency, or court shall complete an out-of-district attendance agreement in consultation with an appropriate official of the district the child will attend.

(b) The attendance agreement must set forth the financial obligations, if any, for costs incurred for tuition and transportation as provided in 20-5-323 and Title 20, chapter 10.

(c) The trustees of the district of choice may waive any or all of the tuition rate, but any waiver must be applied equally to all students.

(3) Except as provided in subsection (4), the trustees of the resident district and the trustees of the district of choice shall approve the out-of-district attendance agreement and notify the county superintendent of schools of the county of the child's residence of the approval of the agreement within 10 days. The county superintendent shall approve the agreement for payment under 20-5-324(5).

(4) Unless the child is a child with disabilities who resides in the district, the trustees of the district where the school to be attended is located may disapprove an out-of-district attendance agreement whenever they find that, due to insufficient room and overcrowding, the accreditation of the school would be adversely affected by the acceptance of the child.

20-5-323. Tuition and transportation rates. (1) Except as provided in subsections (3) and (4), whenever a child has approval to attend a school outside of the child's district of residence under the provisions of 20-5-320 or 20-5-321, the basis of the rate of tuition is a flat rate for each of the 15 district-size groupings determined by rule by the superintendent of public instruction by March 15 of each year, using statewide district expenditure and revenue data for the general fund, debt service fund, and retirement fund to determine the average district contribution.

(2) The tuition for children with disabilities must be determined under rules adopted by the superintendent of public instruction for the calculation of tuition for special education pupils.

(3) The tuition rate for out-of-district placement pursuant to 20-5-321(1)(d) and (1)(e) for a student without disabilities who requires a program with costs that exceed the average district costs must be determined as the actual individual costs of providing that program according to the following:

(a) the district of attendance and the district, person, or entity responsible for the tuition payments shall approve an agreement with the district of attendance for the tuition cost; and

(b) for a Montana resident student, the average district per-ANB foundation payment amount received in the year for which the tuition charges are calculated must be subtracted from the per-student program costs for a Montana resident student.

(4) When a child attends a public school of another state or province or has been placed by a state agency in an out-of-state residential program, the amount of daily tuition may not be greater than the average annual cost per student in the child's district of residence. This calculation for tuition purposes is determined by totaling all of the expenditures for all of the district budgeted funds for the preceding school fiscal year and dividing that amount by the October 1 enrollment in the preceding school fiscal year. For the purposes of this subsection, the following do not apply:

(a) placement of a child with disabilities pursuant to Title 20, chapter 7, part 4;

(b) placement made in a state or province with a reciprocal tuition agreement pursuant to 20-5-314; or

(c) an order issued under Title 40, chapter 4, part 2.

(5) The amount, if any, charged for transportation may not exceed the lesser of the average transportation cost per student in the child's district of residence or 21.25 cents per mile. The average expenditures for the district transportation fund for the preceding school fiscal year must be calculated by dividing the transportation fund expenditures by the October 1 enrollment for the preceding fiscal year.

20-5-324. Tuition report and payment provisions. (1) At the close of the school term of each school fiscal year and before July 15, the trustees of a district shall report to the county superintendent:

(a) the name and district of residence of each child who is attending a school of the district under an approved mandatory out-of-district attendance agreement;

(b) the number of days of enrollment for each child reported under the provisions of subsection (1)(a);

(3) Before July 30, the county superintendent shall report the information in subsection (1)(d) to the superintendent of public instruction, who shall determine the total foundation amount for which the district would be eligible if the student were enrolled in the resident district. The reimbursement amount is the difference between the actual amount paid and the amount calculated in this subsection.

(4) Notwithstanding the requirements of subsection (5), tuition payment provisions for out-of-district placement of students with disabilities must be determined pursuant to Title 20, chapter 7, part 4.

(5) Except as provided in subsection (6), when a child has approval to attend a school outside the child's district of residence under the provisions of 20-5-320 or 20-5-321, the district of residence shall finance the tuition amount from the district tuition fund and any transportation amount from the transportation fund.

(6) When a child has mandatory approval under the provisions of 20-5-321, the tuition and transportation obligation for an elementary school child attending a school outside of the child's county of residence must be financed by the county basic tax for elementary districts, as provided in 20-9-331, for the child's county of residence or for a high school child attending a school outside the county of residence by the county basic tax for high school districts, as provided in 20-9-333, for the child's county of residence.

(7) By December 31 of the school fiscal year, the county superintendent or the trustees shall pay at least one-half of any tuition and transportation obligation established under this section out of the money realized to date from the appropriate basic county tax account provided for in 20-9-334 or from the district tuition or transportation fund. The remaining tuition and transportation obligation must be paid by June 15 of the school fiscal year. The payments must be made to the county treasurer in each county with a school district that is entitled to tuition and transportation. Except as provided in subsection (9), the county treasurer shall credit tuition receipts to the general fund of a school district entitled to a tuition payment. The tuition receipts must be used in accordance with the provisions of 20-9-141. The county treasurer shall credit transportation receipts to the transportation fund of a school district entitled to a transportation payment.

(8) The superintendent of public instruction shall reimburse the district of residence from the state equalization account for the foundation amount determined in subsection (3).

(9) (a) Any tuition receipts received under the provisions of Title 20, chapter 7, part 4, or 20-5-323(3) for the current school fiscal year that exceed the tuition receipts of the prior year may be deposited in the district miscellaneous programs fund and must be used for that year in the manner provided for in 20-9-507 to support the costs of the program for which the tuition was received.

(b) Any other tuition receipts received for the current school fiscal year that exceed the tuition receipts of the prior year may be deposited in the district miscellaneous programs fund and may be used for that year in the manner provided for in that fund. For the ensuing school fiscal year, the receipts must be credited to the district general fund budget.

School Districts — General Provisions

20-6-101. Definition of elementary and high school districts. (1) As used in this title, except as defined in 20-9-402 for bonding purposes or unless the context clearly indicates otherwise, the term "district" means the territory, regardless of county boundaries, organized under the provisions of this title to provide public educational services under the jurisdiction of the trustees prescribed by this title. High school districts may encompass all or parts of the territory of one or more elementary districts.

(2) (a) An elementary district is a district organized for the purpose of providing public education for all grades up to and including grade 8 and for preschool programs and kindergartens. An elementary district may be inactive if the district attaches to a high school district under the provisions of 20-6-701 to form a K-12 school district.

(b) A high school district is a district organized for the purpose of providing those public educational services authorized by this title for all grades beyond grade 8, including postsecondary programs, except those programs administered by community college districts or the Montana university system. A high school district with an attached elementary district may provide the educational services for an elementary district through the procedures established in 20-6-701 through 20-6-703.

(3) An elementary district is known as "District No. ...., ... County" and a high school district, except a high school district where a county high school is operated, is known as "High School District No. ...., ... County". A district is a body corporate and, as a body corporate, may sue and be sued, contract and be contracted with, and acquire, hold, use, and dispose of real or personal property for school purposes, within the limitations prescribed by law. Unless the context clearly indicates otherwise, the trustees of elementary districts and high school districts have the same types of powers, duties, and responsibilities authorized and imposed by the laws of Montana.

(4) Unless the context clearly indicates otherwise, an elementary district operating a high school in a county that has not been divided into high school

districts is considered a high school district under this title and the trustees of the elementary district are the trustees of the high school district. An elementary district operating a high school may not have the bonding authority of a high school district. However, the elementary district may exercise its bonding authority, in the manner provided by law, for high school purposes.

(5) As used in this title, unless the context clearly indicates otherwise, a county high school is considered a high school district subject to the limitations prescribed by law for a county high school as a result of its being a part of the county government. The boundaries of the high school district for a county high school are:

(a) the high school district boundaries established by the county high school boundary commission; or

(b) if no boundaries have been established, the county boundaries, except for any territory located in a joint high school district.

(6) A county high school recognized as a high school district under the provisions of subsection (5)(b) may not have a bonding authority. Instead, the county shall exercise its bonding authority in the manner provided in 20-9-451.

(1) The board of county commissioners shall maintain a permanent record which plainly and definitely describes the boundaries of each district within the county. (2) If the county superintendent determines that the boundaries of any elementary district or high school district are in conflict or are incorrectly described, he shall change, harmonize, and describe them accurately, and he shall make a report of such boundary adjustments to the board of county commissioners. When the board of county commissioners approves a district boundary report submitted by the county superintendent, such boundaries shall be the legal boundaries and description of the district within the county. Whenever district boundaries are clarified under this section, the county superintendent shall supply the trustees of the district with the legal descriptions of the boundaries of their district.

Elementary School Districts

20-6-201. Elementary district classification. (1) Each elementary district shall have a classification of:

(a) first class, if it has a population of 6,500 or more;

(b) second class, if it has a population of 1,000 or more but less than 6,500; or

(c) third class, if it has a population of less than 1,000.

(2) The population of an elementary district must be determined by the county superintendent on the basis of the best available population information for the district.

(3) The county superintendent shall establish the classification of each elementary district in the county on the basis of the population determined for the district and the district classification criteria prescribed in this section. Whenever the population of an elementary district increases or decreases requiring an adjustment of the district classification according to the criteria prescribed in this section, the county superintendent shall declare the district's classification to be changed in accordance with the determined population, except that the classification of an elementary district may not be changed more than once every 5 years.

(4) Whenever the county superintendent changes an elementary district's classification with the result that a larger number of trustees is required on the elementary board of trustees, the increased number of trustee positions must be filled in the manner provided for in 20-3-302.

1993 Amendment: Chapter 137 in (4), at end, substituted "in 20-3-302" for "filling trustee vacancies" and deleted former second and third sentences that read: "Such positions shall be subject to election on the next regular school election day. If the county superintendent changes an elementary district's classification with the result that a lesser number of trustees is required, the next elementary trustee positions that become vacant under any circumstances shall not be filled until the number of elementary trustee positions has been reduced to the number required by law"; and made minor changes in style.

(1) the entire territory of a district is annexed or attached to another district;

(2) the entire territory of the portion of a joint district located in one county is annexed or attached to another district; or

20-6-203. District consolidation. Any two or more elementary districts in one county may consolidate to organize an elementary district. The consolidation shall be conducted under the following procedure:

(1) At the time the consolidation proposition is first considered, the districts involved shall jointly determine whether the consolidation shall be made with or without the mutual assumption of the bonded indebtedness of each district by all districts included in the consolidation proposition.

(2) A consolidation proposition may be introduced, individually, in each of the districts by either of the two following methods:

(a) the trustees may pass a resolution requesting the county superintendent to order an election to consider a consolidation proposition involving their district; or

(b) not less than 20% of the electors of an elementary district who are qualified to vote under the provisions of 20-20-301 may petition the county superintendent requesting an election to consider a consolidation proposition involving their resident district.

(3) When the county superintendent has received a resolution or a valid petition from each of the districts included in the consolidation proposition, he shall, within 10 days after the receipt of the last resolution or petition and as provided by 20-20-201, order the trustees of each elementary district included in the consolidation proposition to call a consolidation election.

(4) Each district, individually, shall call and conduct an election in the manner prescribed in this title for school elections. In addition:

(a) if the districts to be consolidated are to mutually assume the bonded indebtedness of each district involved in the consolidation, the consolidation election also shall follow the procedures prescribed in 20-6-206; or

(b) if the districts to be consolidated are not to mutually assume the bonded indebtedness of each district involved in the consolidation, the consolidation election also shall follow the procedures prescribed in 20-6-207.

(5) After the county superintendent has received the election certification under the provisions of 20-20-416 from the trustees of each district included in a consolidation proposition, he shall determine if the consolidation proposition has been approved in each district. If each district has approved the consolidation proposition, he shall, within 10 days after the receipt of the last election certificate, order the consolidation of such districts. If it be for consolidation with the mutual assumption of bonded indebtedness of each elementary district by all districts included in the consolidation order, such order shall specify that all the taxable real and personal property of the consolidated district shall assume the bonded indebtedness of each district. In addition, such order shall specify the number of the consolidated elementary district and shall contain the county superintendent's appointment of the

trustees for the consolidated district who shall serve until a successor is elected at the next succeeding regular school election and qualified. The superintendent shall send a copy of such order to the board of county commissioners and to the trustees of each district incorporated in the consolidation order.

(6) If any district included in the consolidation proposition disapproves the consolidation proposition, the consolidation of all districts shall fail, and the county superintendent shall notify each district of the disapproval of the consolidation proposition.

(1) Any joint elementary district shall be abandoned for the reasons prescribed in 20-6-209 or when the taxable value of the taxable property of the portion of the joint district that is located within any one of the counties is of so little value that the continued inclusion of such portion in the joint district is not justified. A proposition to dissolve a joint elementary district shall be introduced by a petition signed by a majority of the electors, qualified under the provisions of 20-20-301, who reside in the territory of the joint district that is located within one county. Such petition shall be addressed and presented to the county superintendent of the county of residence of the petitioners.

(2) Whenever a county superintendent receives a valid petition for the dissolution of a joint elementary district, he shall immediately notify the county superintendents of all the other counties with territory located in the joint district. The county superintendents jointly shall, within 10 days after the receipt of the petition and as provided by 20-20-201, order the trustees of the joint district to call an election. The trustees shall call and conduct, at the same time, separate elections in each portion of the joint district that is located in a separate county. Such elections shall be called and conducted in the manner prescribed in this title for school elections and shall be considered as if each were an election in a separate district. An elector who may vote at a joint district dissolution election shall be qualified to vote under the provisions of 20-20-301. The election judges for each separate election in the joint district shall send the election certificate to the county superintendent of the county in which they serve.

(3) After the receipt of the election certificates, the county superintendents shall jointly determine the result of such election on the following basis:

(a) if a majority of all the joint district electors voting at each election conducted in the joint district are in favor of the dissolution of the joint district, the dissolution of the joint elementary district shall be approved;

(b) if two-thirds of the electors voting at one of the elections conducted in a county's portion of the joint district vote in favor of the joint district dissolution, the dissolution of that portion of such joint district may be approved if all the county superintendents involved in such dissolution proposition agree that such dissolution will not place an undue hardship on any other county's portion of the joint district and there is no good and sufficient reason why such dissolution should not be made; or

(c) if the conditions of either subsection (a) or (b) cannot be satisfied, the dissolution of the joint district shall be disapproved.

(4) The county superintendents shall jointly order the joint elementary district dissolution if the proposition is approved and, whether it has been approved or disapproved, shall jointly notify the joint district of the result. The dissolution of a joint district shall become effective on the first day of the ensuing school fiscal year.

(5) When the dissolution of a joint elementary district has been approved and ordered under subsection (3)(a) above, the county superintendent of each county shall individually order the attachment of the territory of the dissolved joint elementary district within his county to a contiguous elementary district within his county except when a school is operated in such territory, in which case the territory shall operate as a separate elementary district of the county.

(6) When the dissolution of a joint elementary district has been approved and ordered under the provisions of subsection (3)(b) above, the county superintendent of the county where the dissolved portion of the joint elementary district is located shall attach such territory to a contiguous elementary district within his county.

(7) In the event a dissolution proposition is disapproved, no subsequent joint elementary district dissolution election shall be held within 3 years thereafter.

20-6-213. Transfer of territory from one elementary district to another. (1) A majority of the registered electors of an elementary district who reside in territory that is a part of an elementary district may petition the county superintendent to transfer the territory in which they reside to another elementary district if:

(a) the territory to be transferred is contiguous to the district to which it is to be attached;

(b) the territory to be transferred is not located within 3 miles, over the shortest practical route, of an operating school of the district from which it is to be detached;

(c) the transfer of the territory will not reduce the taxable value of the district to less than $100,000 unless the remaining territory of the district will contain not less than 50,000 acres of nontaxable Indian land;

(d) the board of trustees of the school district that would receive the territory has approved in writing the transfer; and

(e) the territory proposed to be transferred to another elementary district has not been included in a petition filed under this section in the previous 3 years.

(2) The petition must be addressed to the county superintendent and must:

(a) provide a legal description of the territory that is requested to be transferred and a description of the elementary district to which it is to be transferred;

(b) state the reasons why the transfer is requested;

(c) state the number of elementary school-age children residing in the territory; and

(d) be accompanied by a $50 nonrefundable filing fee.

(3) A petition that meets the criteria specified in subsection (1) and that contains all the information required by subsection (2) is considered a valid petition. On receipt of a valid petition for a territory transfer, the county superintendent shall:

(a) file the petition;

(b) set a hearing place, date, and time for consideration of the petition that is not more than 40 days after receipt of the petition; and

(c) give notice of the place, date, and time of the hearing. The notices must be posted in the districts affected by the petition for the transfer of territory in the manner prescribed in this title for school elections, with at least one notice posted in the territory to be transferred. Notice must also be delivered to the board of trustees of the school district from which the territory is to be transferred.

(4) The county superintendent shall conduct the hearing as scheduled in accordance with the rules of procedure adopted by the superintendent of public instruction pursuant to 20-3-107(3), and any resident, taxpayer, or representative of the affected districts must, upon request, be heard.

(5) Within 30 days after the hearing, the county superintendent shall, after considering the testimony and exhibits presented at the hearing, issue findings of fact, conclusions of law, and an order. The county superintendent shall grant or deny the requested transfer of territory. The decision must be based on the effects that the transfer would have on those residing in the territory proposed for transfer as well as those residing in the remaining territory of the elementary district.

(6) The decision of the county superintendent is final 30 days after its date unless it is appealed to the board of county commissioners by a resident, taxpayer, or representative of the elementary districts affected by the territory transfer.

(7) The decision of the board of county commissioners, after a hearing on the matter and consideration of the record from the county superintendent's hearing, is final 30 days after its date unless prior to that time it has been contested through the filing of a valid petition to submit the question to a vote of the people in the elementary district from which the land is to be transferred. In order for a petition to be valid, the petition must be signed by 20% of the electors of the elementary district who are qualified to vote in elections for that district under 20-20-301. When a valid petition is submitted under

this subsection, the question of whether the territory must be transferred to another district must be put before the voters at the next regular school election in the affected elementary district. The results of the vote must be the final decision on the petition for transfer of territory.

(8) Whenever a petition to transfer territory from one elementary district to another elementary district creates a joint elementary district or affects the boundary of an existing joint elementary district, the petition to transfer territory must be presented to the county superintendent of the county where the territory is located. The county superintendent shall notify any other county superintendents of counties with elementary districts affected by the petition, and the duties prescribed in this section for the county superintendent and the board of county commissioners must be performed jointly by the county officials.

20-6-216. Limitations for creation of new elementary district. A new elementary district may be created out of the territory of an existing elementary district or districts if:

(1) the taxable value of the taxable property of the territory proposed to be included in such new district is $1 million or more, except that when 50,000 acres or more of such new district are nontaxable Indian land, this limitation shall not be applicable;

(2) the taxable value of the taxable property of each existing district from which territory would be detached will be $2 million or more after the territory is detached;

(3) the ANB in any of the existing districts is not reduced to less than 15;

(4) the territory to be included in the new district shall consist only of parcels of land that are contiguous; and

(5) there is a compelling need, such as a significant increase in school-age population of the territory to be included in the new district, the extreme isolation of such population, or an emergency situation.

20-6-217. Procedure for creation of new elementary district. (1) The petition requesting the creation of a new elementary district out of the territory of an elementary district or districts shall be addressed to the county superintendent and shall:

(a) describe the territory that is requested to be incorporated in the new district and the taxable value of such territory as shown by the last completed assessment roll;

(b) state the reasons why the creation of a new district is requested, in accordance with the provisions of 20-6-216(5); and

(c) be signed by the parents or guardians of not less than 10 children between the ages of 6 and 16 years who reside in the territory that would be included in the new district and who reside more than 3 miles over the shortest practical route from an operating school.

(2) When a county superintendent receives a valid petition requesting the creation of a new district, he shall:

(a) file such petition;

(b) set a hearing place, date, and time for consideration of such petition that is not more than 40 days after the receipt of the petition; and

(c) give notice of the place, date, and time of the hearing. The notices shall be posted in the districts affected by the request in the manner prescribed in this title for school elections, with at least one such notice posted in the territory to be included in the new district.

(3) The county superintendent shall conduct the hearing as scheduled unless before or at the time of the hearing he receives a protest petition signed by a majority of the electors of the proposed new district who are qualified to vote under the provisions of 20-20-301. A valid protest petition shall conclusively deny the creation of a new district. If a hearing is conducted, any resident or taxpayer of the affected districts shall be heard. If the county superintendent considers it advisable and in the best interests of the residents of the proposed new district and the residents of the remaining district, he shall grant the petitioned request and order the creation of a new elementary district with its boundaries coinciding with the boundaries defined in the petition. Otherwise, he shall, by order, deny the request. In the order creating the new district, the county superintendent shall establish the effective date for its creation and the procedures for effecting an orderly transition.

(4) Either of the county superintendent's orders may be appealed to the board of county commissioners within 30 days after the date of such order. Such appeal shall be in writing, signed by not less than three resident taxpayers, and shall state sufficient facts to show the appellants' right to appeal the order. The board of county commissioners shall call a hearing of such appeal for the first regular meeting of the commission that will allow

notice of the hearing to be given in accordance with the requirements for notice of school elections. After considering the material presented at the county superintendent's hearing and such other material as is presented at its hearing, the board of county commissioners shall render a decision on the creation of such new elementary district. Such decision shall be final.

(5) When a new elementary district is created, the county superintendent shall appoint the trustees of the new district, giving preference in his selections to any trustees who were trustees of an old district and who reside in the new district. Any trustee position vacancies that may occur in the other districts shall be filled in the manner provided for filling trustee position vacancies for such district. Any trustee appointed under the provisions of this section shall serve until a successor is elected at the next regular school election and qualified.

(6) The order of the county superintendent or, if his order is appealed, the decision of the board of county commissioners creating a new district under this section shall be null and void, and the new district shall cease to exist, if such district does not open and operate a school within 2 years after the date of such order or decision. If the new district does not satisfy this requirement, the territory shall be reincorporated in the district or districts in which it was located before the creation of such new district and the trustees shall thereafter be without capacity to act.

(7) If a petition has been filed under the provisions of this section and denied by the county superintendent, no new petition may be filed until 1 year after the final decision on the original petition.

High School Districts

20-6-301. High school district classification. The classification of a high school district shall be the same as the classification of the elementary district (20-6-201) where the high school building is located. Whenever the classification of such elementary district is changed, the classification of a high school district shall be changed accordingly and the county superintendent shall adjust the number of additional high school district trustee positions in accordance with the method prescribed in 20-3-354 for the determination of the number of additional trustee positions required for a high school district. An increased number of trustee positions shall be filled by the appointment of the county superintendent, and such positions shall be subject to election at the next regular trustee election. When the number of positions is decreased, the next additional high school trustee positions that become vacant under any circumstances shall not be filled until the number of trustee positions has been reduced to the number required by law.

20-6-304. High school boundary commission — procedure for division of county into high school districts. (1) Each county of the state of Montana shall have a high school boundary commission consisting of the board of county commissioners and the county superintendent. Whenever a county superintendent receives a resolution from the trustees of any high school district requesting the commission to divide the county into high school districts, he shall immediately notify the high school boundary commission. Such commission shall set a time, date, and place for a public hearing on the request. The hearing shall be set for a date within 60 days after the receipt of the request, and any interested person may appear and be heard on such request. The county superintendent shall send a written notice of the public hearing on a requested division to the trustees of each elementary district of the county which has territory that would be affected by the change. The county superintendent shall also give notice of such public hearing in accordance with the requirement for school election notices prescribed by school election provisions of this title. The certificate of the county superintendent filed with the high school boundary commission reciting that such notice requirements have been satisfied shall be conclusive.

(2) In considering a request to divide the county into high school districts, the high school boundary commission shall give primary consideration to the convenience of the high school pupils of the territory under consideration. Such commission also shall consider the grouping of elementary districts to

be encompassed by a high school district or districts and shall group contiguous elementary districts within a high school district unless obstacles of travel, such as mountains, rivers, impractical routes of travel, or distance, make such grouping impractical. After the hearing, the high school boundary commission shall order the division of the county into high school districts whenever requested under the provisions of 20-6-303. The commission's discretion shall extend only to the establishing of boundaries for the newly created high school district or districts.

At least 20 days before issuing an abandonment order, the county superintendent shall notify the trustees of the high school district of the impending abandonment. 20-6-308. Limitations for organization of joint high school district. The boundaries of any high school district which encompass a county's portion of a joint elementary district where an elementary school is operated may be changed to establish a joint high school district. Such high school district boundary change shall be a transfer of all the territory located in another county's portion of the same joint elementary district. No such boundary change shall be made when:

(1) the territory transfer would reduce the taxable value of the taxable property of another high school district to less than $1 million; or

(2) a portion of the territory to be transferred is less than 3 miles from an operating accredited high school located in another high school district.

History: En. 75-6525 by Sec. 184, Ch. 5, L. 1971; amd. Sec. 3, Ch. 256, L. 1975; R.C.M. 1947, 75-6525.

20-6-309. Procedure for organization of joint high school district. The high school district boundary changes permitted under 20-6-308 shall be made according to the following procedure:

(1) A majority of the electors of a joint elementary district who are qualified to vote under the provisions of 20-20-301 and who reside in a county where the elementary school is not located may petition the county superintendent of their resident county to transfer the territory of the joint elementary district where they reside to establish a joint high school district. Such petition also shall state the reasons for requesting such a boundary change and the number of high school pupils residing in the territory.

(2) When the county superintendent receives a valid petition requesting the establishment of a joint high school district, he shall set a time, date, and place for a public hearing on the request which is not more than 40 days after the receipt of the petition. He shall give notice of such hearing in accordance with the election requirements for school election notices prescribed by school election provisions of this title. The county superintendent shall also notify the county superintendent of the county where the high school is located and the trustees of the high school district.

(3) The county superintendent shall hear the request to change the high school district boundaries at the place, time, and date set for the hearing, and any interested person may appear and be heard on the request. If the county superintendent deems it advisable and in the best interests of the residents of the territory to be transferred, he shall grant the petitioned request and order the change of high school boundaries to establish a joint high school district. Otherwise, he shall, by order, deny the request.

(4) If the county superintendent orders the establishment of a joint high school district, he shall immediately send the order to the county superintendent of the county where the high school is located. If the county superintendent of such county approves the order, he shall send such order to the trustees of the high school district. If the trustees approve the order, the boundary change shall become effective. Without the approval of such county superintendent and trustees, the boundary change shall fail.

(5) At any time within 30 days after the date of the county superintendent's order to grant or deny the request to establish a joint high school district, an appeal may be made to the board of county commissioners of the county in which the petition originated. The board of county commissioners shall conduct a hearing for the appeal, and their decision shall be final, subject to the approvals required by subsection (4).

Whenever a high school boundary commission orders a division of the county into high school districts under 20-6-304, its order shall not be final until it has been approved by the superintendent of public instruction. The superintendent of public instruction shall not approve any high school boundary commission order that:

(1) is dated less than 1 year since the last high school boundary commission order was approved for such county; or

(2) has not been confirmed by the high school boundary commission of each county affected by the boundary change when it involves a joint high school district.

20-6-312. County high school unification. (1) Any county high school may be unified with the elementary district where the county high school building is located to establish a unified school system under a unified board of trustees. If the county has not been divided into high school districts, a high school district with boundaries coterminous with the county boundaries shall be created, except that such high school district shall not include the territory of any existing joint high school district located in the county. The territory of an existing joint high school district shall remain a part of such joint high school district. The creation of high school districts under this provision shall be in lieu of the high school district division provisions of 20-6-303.

(2) A proposition to unify a county high school with the elementary district where the county high school building is located shall be introduced whenever:

(a) the trustees of the county high school and the trustees of the elementary district individually pass resolutions requesting the county superintendent to order an election to consider a unification proposition; or

(b) not less than 20% of the electors of the county or, if the county has been divided into high school districts, the electors of the high school district where the county high school is located, and who are qualified to vote under the provisions of 20-20-301, petition the county superintendent to order an election to consider a unification proposition.

(3) When the county superintendent has received the trustees' resolutions or a valid petition, he shall, within 10 days after the receipt of the last resolution or petition and under the provisions of 20-20-201, order the county high school to call an election to consider a unification proposition. The trustees of the county high school shall call and conduct an election in the manner prescribed in this title for school elections. An elector who may vote on the unification proposition shall be qualified to vote under the provisions of 20-20-301. The ballot for a county high school unification proposition shall be substantially in the following form:

COUNTY HIGH SCHOOL UNIFICATION
ELECTION

Shall .... County High School be unified with District No. ...., ... County to establish a unified school system under a unified board of trustees?

☐ FOR the unification of the county high school.

☐ AGAINST the unification of the county high school."

(4) When the county superintendent receives the election certificate from the trustees of the county high school, he shall issue an order declaring the

unification of the county high school with the elementary district identified on the ballot as of the next succeeding July 1, if a majority of those electors voting at such election have voted for the unification proposition.

(5) If a majority of those electors voting at the election have voted against the unification proposition, he shall order the disapproval of the unification proposition.

20-6-313. Transactions after approved county high school unification. (1) Whenever a county high school is unified with the elementary district where the county high school building is located, the following transactions shall be completed on or before the July 1 when the unification becomes effective:

(a) The high school boundary commission, without the approval of the superintendent of public instruction, shall order the creation of a high school district if the county has not already been divided into high school districts.

(b) The county high school trustees, who shall not have the capacity to govern the high school district upon unification, shall surrender all minutes, documents, and other records of the county high school to the trustees of the high school district.

(c) The county superintendent shall order the establishment of additional high school trustee nominating areas in the manner prescribed in 20-3-352 and 20-3-353, if requested to do so by a majority of the outlying elementary districts located in the high school district. When the county superintendent establishes such areas, he shall appoint additional high school district trustees from each area who shall hold office until a successor is elected at the next regular school election and qualified.

(d) The county treasurer, after allowing for any outstanding or registered warrants, shall transfer all end-of-the-year fund cash balances of the county high school to similar funds established for the high school district. All previous years' taxes levied and collected for the county high school shall be credited to the appropriate fund of the high school district.

(e) The board of county commissioners shall execute, in the name of the county, all necessary and appropriate deeds, bills of sale, and other instruments for the conveyance of title to all real and personal property of the county high school, including all appurtenances and hereditaments, to the high school district.

(2) All county high school bonds outstanding at the time of unification shall remain the obligation of the county or that portion of the county against which the bonds were originally issued. The high school district shall be responsible for the maintenance of the debt service fund for such bonds. It shall be the duty of the board of county commissioners and the trustees of the high school district to perform the duties prescribed in the school budgeting and bond redemption provisions of this title for the redemption and interest payments of the county high school bonds in the same manner and by the same means as though the county high school had not been unified.

(2) A consolidation proposition may be introduced, individually, in each of the districts by either of the following methods:

(a) the trustees may pass a resolution requesting the county superintendent to order an election to consider a consolidation proposition involving their district; or

(ii) if the districts to be consolidated are not to mutually assume the bonded indebtedness of each district involved in the consolidation, the consolidation election must also follow the procedures prescribed in 20-6-207.

(5) After the county superintendent receives the election certificate provided for in 20-20-416 from the trustees of each district included in a consolidation proposition, he shall determine if the consolidation proposition has been approved in each district. If each district has approved the consolidation proposition, he shall, within 10 days after the receipt of the election

If the order is for consolidation with the mutual assumption of bonded indebtedness of each high school district by all districts included in the consolidation order, the order shall specify that all taxable real and personal property of the consolidated district shall assume the bonded indebtedness of each district. In addition, the order shall specify the number of the consolidated high school district. The superintendent shall send a copy of the order to the board of county commissioners and to the trustees of each district incorporated in the consolidation order.

20-6-320. Transfer of territory from one high school district to another. (1) A majority of registered electors of a high school district who reside in territory that is a part of a high school district may petition the county superintendent to transfer the territory in which they reside to another high school district if:

(a) the territory to be transferred is contiguous to the high school district to which it is to be attached;

(b) the territory to be transferred is not located within 3 miles, over the shortest practical route, of an operating school of the high school district from which it is to be detached;

(c) the transfer of the territory will not reduce the taxable value of the district to less than $300,000 unless the remaining territory of the high school district contains not less than 50,000 acres of nontaxable Indian land;

(d) the board of trustees of the school district that would receive the territory has approved in writing the transfer; and

(e) the territory proposed to be transferred to another high school district has not been included in a petition filed under this section in the previous 3 years.

(2) The petition must be addressed to the county superintendent and must:

(a) provide a legal description of the territory that is requested to be transferred and a description of the high school district to which it is to be transferred;

(b) state the reasons why the transfer is requested;

(c) state the number of high-school-age children residing in the territory; and

(d) be accompanied by a $50 nonrefundable filing fee.

(3) A petition that meets the criteria specified in subsection (1) and that contains all the information required by subsection (2) is a valid petition. On receipt of a valid petition for a territory transfer, the county superintendent shall:

(a) present the petition to the board of county commissioners for certification that the criteria set forth in subsection (1) have been met. The board shall, within 10 days of receiving the petition, return it to the county superintendent with certification, signed by a majority of the board, that the criteria have been met or with a notation, signed by a majority of the board, that the criteria have not been met. The board's certification is binding on the county superintendent unless the county superintendent believes that the certification is in error. A dispute between the board and the county superintendent on this issue must be decided by the superintendent of public instruction and the decision of the superintendent of public instruction on the matter is final.

(b) file the petition as certified by the board of county commissioners.

(4) If the petition is certified or adjusted on appeal to the superintendent of public instruction to meet the criteria specified in subsection (1), the county superintendent shall:

(a) set a hearing place, date, and time for consideration of the petition that is not more than 40 days after receipt of the petition; and

(b) give notice of the place, date, and time of the hearing. The notices must be posted in the high school districts affected by the petition for the territory transfer in the manner prescribed in this title for school elections, with at least one notice posted in the territory to be transferred.

(5) The county superintendent shall conduct the hearing as scheduled in accordance with the rules of procedure adopted by the superintendent of public instruction pursuant to 20-3-107(3), and any resident, taxpayer, or representative of either affected high school district must be heard.

(6) Within 30 days after the hearing, the county superintendent shall, after considering the testimony and exhibits presented at the hearing, issue findings of fact, conclusions of law, and an order. The county superintendent shall grant or deny the requested transfer of territory. The decision must be based on the effects that the transfer would have on those residing in the territory proposed for transfer as well as those residing in the remaining territory of the high school district.

(7) The decision of the county superintendent is final 30 days after its date unless it is appealed pursuant to 20-3-107 to the superintendent of public instruction by a resident, taxpayer, or representative of either high school district affected by the petitioned territory transfer. The decision of the superintendent of public instruction, after consideration of the record from the county superintendent's hearing, is final 30 days after its date. The final order of the superintendent of public instruction is subject to judicial review pursuant to the Montana Administrative Procedure Act, Title 2, chapter 4.

(8) If a petition to transfer territory from one high school district to another high school district would create a joint high school district or affect the boundary of any existing joint high school district, the petition must be presented to the county superintendent of the county where the territory proposed for transfer is located. The county superintendent shall notify any other county superintendents of counties with districts affected by the petition, and the duties prescribed in this section for the county superintendent must be performed jointly by such county officials.

Whenever a joint district consolidation is considered by two or more districts, the procedure for consolidation without the assumption of bonded indebtedness prescribed in 20-6-315 and 20-6-319 must be used, except that each district shall submit its resolution or petition and its election certificate to the county superintendent of its resident county and the several county superintendents shall jointly perform the duties prescribed for the county superintendent in 20-6-315.

20-6-325. Procedure for creation of new high school district out of existing districts — limitation for creation. (1) To create a new high school district, a petition requesting the creation of a new high school district out of the territory of an existing high school district or districts must be addressed to the county superintendent and must:

(a) describe the territory that is requested to be incorporated in the new district and the taxable value of such territory as shown by the last completed assessment roll;

(b) state the reasons why the creation of a new district is requested; and

(c) be signed by the parents or guardians of not less than 50 children who are at least 14 years old but less than 18 years old and who reside in the territory that would be included in the new district and who reside more than 20 miles over the shortest practical route from an operating high school.

(2) When a county superintendent receives a valid petition requesting the creation of a new district, he shall:

(a) file such petition;

(b) set a hearing place, date, and time for consideration of the petition that is not more than 40 days after the receipt of the petition; and

(c) give notice of the place, date, and time of the hearing. Notices must be posted in the high school districts affected by the request in the manner prescribed in 20-20-204 for school elections, with at least one such notice posted in the territory to be included in the new district.

(3) The county superintendent shall conduct the hearing as scheduled unless before or at the time of the hearing he receives a protest petition signed by a majority of the electors of the proposed new district who are qualified to vote under the provisions of 20-20-301. A valid protest petition conclusively denies the creation of a new district. If a hearing is conducted, any resident or taxpayer of the affected districts must be heard. If the county superintendent considers it advisable and in the best interests of the residents of the proposed new district, he shall grant the petitioned request and order the creation of a new district with its boundaries coinciding with the boundaries defined in the petition. Otherwise, he shall by order deny the request. In the order creating the new district, the effective date for its creation must be the following July 1.

(4) The county superintendent's order may be appealed to the superintendent of public instruction within 30 days after the date of such order. An appeal must be in writing and be signed by not less than 10 residents of the proposed new district. The superintendent of public instruction shall:

(a) call a hearing on the appeal not less than 20 days or more than 30 days from receipt of the appeal;

(b) provide notice of the hearing in the manner prescribed in subsection (2)(c);

(c) consider the material presented at the county superintendent's hearing and pertinent other material; and

(d) render a decision on the creation of such new high school district. The decision is final.

(5) When a new high school district is created, the trustees of the elementary district in which the high school buildings are located are the trustees of the new district. A trustee appointed under the provisions of this section shall serve until a successor is elected at the next regular school election and is qualified.

(6) If the district does not open and operate a school within 2 years after the effective date of the creation of the new district, the order of the county

superintendent or, if his order is appealed, the decision of the superintendent of public instruction creating a new district under this section is void and the new district ceases to exist. If the new district does not satisfy this requirement, the territory must be reincorporated in the district or districts in which it was located before the creation of the new district and the trustees are without capacity to act.

(7) If a petition has been filed under the provisions of this section and denied by the county superintendent, no new petition may be filed until 1 year after the final decision on the original petition.

(8) For the purposes of this section, the taxable value of the taxable property of the territory proposed to be included in the new district must be at least $1 million, unless 50,000 acres or more of such proposed new district are nontaxable Indian land, and the taxable value of the taxable property of each existing district from which territory would be detached must be at least $2 million after the territory is detached.

School District Reorganization

20-6-401. Definitions. As used in this part, unless the context clearly indicates otherwise, the following definitions apply:

(1) "Component districts" means the elementary or high school districts incorporated into the enlarged district.

(2) "Eligible pupils" means the average number belonging (ANB) in the operating schools of the component districts and the tuition pupils residing in the component districts and attending another district's school under the tuition provisions of the school laws, except that the pupils residing in the component district having the largest total number of pupils are ineligible for bonus payment consideration.

(3) "Enlarged district" means the elementary or high school district resulting from the consolidation or annexation of two or more component districts.

(4) "General bonus payment" for first- and second-class school districts must be $450 per eligible pupil per year for a period of 3 years and must be deposited in the enlarged district's general fund. General bonus payment for third-class school districts must be $750 per eligible pupil per year for a period of 3 years and must be deposited in the enlarged district's general fund. The general bonus payment must be made from the state school equalization aid account.

(5) "Transportation bonus payment" is the provision of 66 2/3% state financing of the on-schedule transportation amount as provided by the transportation provisions of the school laws. When an eligible pupil is entitled to transportation, the enlarged district is entitled to the transportation bonus payment for the eligible pupil for a period of 3 years. The payment must be made from the state transportation aid account. When the eligible pupil rides a bus providing transportation for ineligible pupils, the 66 2/3% state financ-

ing of the on-schedule amount for this payment must be prorated to provide financing for the eligible pupil.

Application for the bonus payments must be made during the school year of the order creating the enlarged school district.

History: En. Sec. 3, Ch. 125, L. 1971; R.C.M. 1947, 75-6542; amd. Sec. 12, Ch. 617, L. 1983.

When an application is approved, the superintendent of public instruction shall determine the number of eligible pupils for the bonus payments. He shall notify the enlarged district's board of trustees and the county superintendent(s) of the disapproval of the application or of the approval of the application establishing the number of eligible pupils.

On or before June 30 of the next 3 consecutive years following the year of application, the superintendent of public instruction shall disburse the bonus payments for approved applications to the enlarged school district, and such disbursement is statutorily appropriated as provided in 17-7-502. The general bonus payment shall be deposited by the county treasurer in the enlarged district's general fund, and the transportation bonus payment shall be deposited by the county treasurer in the transportation fund. 20-6-410. Tenure protected — hiring preference for employees. (1) Whenever two or more school districts consolidate or join through annexation to organize into a single district in the manner provided for in Title 20, chapter 6, a principal, teacher, or other certified employee of the school districts who has a right of tenure under Montana law must be given absolute preference in hiring for the first school fiscal year for any vacant position with the consolidated or enlarged district for which the employee is qualified with the required certification endorsements. Upon acceptance of a position, the certified employee continues to have tenure in the consolidated or enlarged district and the board of trustees of the consolidated or enlarged school district in which the person will perform duties shall recognize and give effect to the right of tenure.

(2) A noncertified, nonprobationary employee of a school district that consolidates or joins another district through annexation must be given preference in hiring for the first school fiscal year for any vacant position with the consolidated or enlarged district for which the employee has substantially equal qualifications and, upon acceptance of a position, may not be given probationary status.

History: En. Sec. 1, Ch. 497, L. 1991.

20-6-411. Bonded indebtedness to remain with original territory except when assumed by election. Whenever district boundaries are changed in any manner prescribed in this title, the existing bonded indebtedness against any district or territory affected by a change of boundaries shall remain the indebtedness of the original territory against which such bonds were issued and shall be paid by levies on the original territory, except when elementary districts are consolidated with the mutual assumption of bonded indebtedness or when an elementary district is annexed with a joint assumption of the annexing district's bonded indebtedness with the annexing district. Any moneys to the credit of the debt service fund of a district when its boundaries are changed shall be used to pay the existing bond principal and interest of the original territory issuing such bonds as it becomes due or for bond redemption under the bonding provisions of this title.

Whenever a district shall cease to exist in any manner prescribed in this title, except when districts are consolidated, the cash on hand to the credit of the funds of the district and the debts of such district shall be allocated in the following manner:

(1) Any cash to the credit of the district shall be used to pay any debts of the district, including bonded indebtedness, except that any cash available in the debt service fund shall be used first to pay bond interest and all outstanding bonds.

(2) If any cash remains to the credit of the district after paying its debts, the cash shall be transferred by the county treasurer to the credit of the district or districts assuming its territory. When the territory is assumed by more than one district, the remaining cash shall be prorated between the districts on the basis of the number of children attending school and residing within the territory assumed by each district as determined by the county superintendent.

(3) If any tuition debt remains as an obligation of the district, the tuition debt shall be the obligation of the taxable property of the discontinued district, except when the tuition debt has been assumed by the consolidated or annexing district. The tuition debt shall be financed by a mill levy on the property of the discontinued district and paid from these proceeds by the county superintendent.

In addition, when two or more elementary districts are consolidated with the mutual assumption of bonded indebtedness, the cash credited to the debt service fund and the bonded indebtedness also shall be transferred to a similar fund of the consolidated district.

After the new district has operated a school for 1 month, the county superintendent shall order the county treasurer to transfer the cash to which the new district is entitled to the credit of the fund of the new district which corresponds with the fund from which it was transferred. The new district shall not assume any debts of the old district other than existing bonded indebtedness which remains an obligation against the taxable property of the territory included in the new district.

The trustees of any district shall designate the grade assignments for the schools of the district, but for the purposes of this title each school shall be known as:

(1) an elementary school when it comprises the work of any combination of kindergarten, other preschool programs, or the first eight grades or their equivalents. A middle school is a school comprising the work of grades 4 through 8 or any combination thereof that has been accredited as a middle school under the provisions of 20-7-102. When an accredited junior high school or an accredited 6-year high school is operated by the district, grades 7 and 8 or their equivalents shall not be considered as elementary grades.

(2) a high school when it comprises the work of one or more grades of schoolwork or their equivalents intermediate between the elementary schools and the institutions of higher education of the state of Montana. Types of high schools shall be designated as follows:

20-6-502. Opening or reopening of elementary school. The trustees of any elementary district may open or reopen an elementary school of the district when such opening or reopening has been approved in accordance with the following procedure:

(1) The parents of at least three pupils who would attend the opened or reopened school petition the trustees of the district to open or reopen a school during the ensuing school fiscal year. Such petition shall identify the school, state the reasons for requesting the opening or reopening, and give the names of the children who would attend such school.

(2) If the trustees approve the opening or reopening of a school, they shall send the petition with a copy of their approval resolution to the county superintendent. The county superintendent shall review the petition to determine if the average number belonging (ANB) of such school would be five or more.

(3) The county superintendent shall present the petition, trustees' approval, and his findings on the probable ANB to the board of county commissioners (budget board) for their consideration. The budget board shall deny the opening or reopening of any school if the county superintendent's enrollment estimate for such school is less than five ANB. In all other cases, the budget board may approve or disapprove the requested opening or reopening of the elementary school.

(4) If the budget board approves a school opening or reopening, the county superintendent shall send a copy of such approval, along with the petition, trustees' approval, and his estimate of the probable ANB, to the superintendent of public instruction. The superintendent of public instruction shall approve or disapprove the requested opening or reopening of the elementary school. If the opening or reopening is approved, the superintendent of public instruction shall approve or adjust the ANB estimate of the county superintendent for such school and such ANB amount shall be used for budgeting and BASE funding program purposes during the ensuing school fiscal year. K-12 School Districts

20-6-701. K-12 school districts required — definition — procedure for creation — exception. (1) Except as provided in subsection (4), by the school fiscal year beginning July 1, 1995, each elementary district with the same district boundaries as a high school district shall attach to the high school district for the purpose of establishing a K-12 school district.

(2) For the purposes of this title, unless the context clearly indicates otherwise, "K-12 school district" means a high school district with an elementary district that has been attached to the high school district under the

procedures provided in this section, with the high school district remaining an organized district under the provisions of 20-6-101 and other provisions of law and the elementary district becoming an inactive district under the provisions of 20-6-101.

(3) The attachment of an elementary district to a high school district to form a K-12 school district must be conducted under the following procedure:

(a) The trustees of each district shall pass a resolution requesting the county superintendent to order an attachment involving their districts.

(b) When the county superintendent receives a resolution from each of the districts, the county superintendent shall, within 10 days after receipt of the last resolution, order the attachment of the elementary district to the high school district to take effect on July 1 of the ensuing school fiscal year. Within 30 days of the order, the county superintendent shall send a copy of the order to the board of county commissioners, the trustees of the districts included in the attachment order, and the superintendent of public instruction.

(4) This section does not apply to a school district receiving Public Law 81-874 funding if creation of a K-12 district would result in the loss of Public Law 81-874 funding.

History: En. Sec. 1, Ch. 555, L. 1991; amd. Sec. 1, Ch. 194, L. 1993.

Compiler's Comments

1993 Amendment: Chapter 194 at beginning of (1) inserted "Except as provided in subsection (4), by the school fiscal year beginning July 1, 1995" and made attachment mandatory rather than permissive; in (3)(a) substituted "The trustees of each district shall pass a resolution requesting the county superintendent to order an attachment involving their districts" for language concerning providing for passage of trustee resolutions requesting County Superintendent to order an election or allowing not less than 20% of electors of an elementary and high school district to petition for election to consider attachment proposition; in (3)(b) substituted requirement that County Superintendent order attachment of an elementary school district to a high school district within 10 days of receipt of resolution for requirement that County Superintendent within 10 days of receipt of a resolution or valid petition order district trustees to call an attachment election in conjunction with a regular school election; deleted (3)(b)(ii) that required that attachment proposition include assumption of the elementary school district's bonded indebtedness by the high school district; deleted (3)(c) that required that districts conduct attachment election in manner prescribed for school elections; deleted (3)(d) that required that County Superintendent, after receiving certificate of election from district trustees, determine if the attachment proposition has been approved by the districts and, if so, within 10 days of receipt of the certificate order attachment of the elementary school district to the high school district; and inserted (4) excluding application of this section to school districts receiving Public Law 81-874 funding if creation of K-12 district would result in loss of Public Law 81-874 funding. Amendment effective July 1, 1993.

20-6-702. Funding for K-12 school districts. (1) Notwithstanding the provisions of subsections (2) through (6), a K-12 school district formed under the provisions of 20-6-701 is subject to the provisions of law for high school districts.

(2) The number of elected trustees of the K-12 school district must be based on the classification of the attached elementary district under the provisions of 20-3-341 and 20-3-351.

(3) Calculations for the following must be made separately for the elementary school program and the high school program of a K-12 school district:

(a) the calculation of ANB for purposes of determining the total per-ANB entitlements must be in accordance with the provisions of 20-9-311;

(b) the basic county tax and revenues for the elementary BASE funding program amount for the district must be determined in accordance with the provisions of 20-9-331, and the basic special tax and revenues for the high school BASE funding program amount for the district must be determined in accordance with 20-9-333; and

(c) the guaranteed tax base aid for BASE funding program purposes for a K-12 school district must be calculated separately, using each district's guaranteed tax base ratio, as defined in 20-9-366. The BASE budget levy to be levied for the K-12 school district must be prorated based on the ratio of the BASE funding program amounts for elementary school programs to the BASE funding program amounts for high school programs.

(4) The retirement obligation and eligibility for retirement guaranteed tax base aid for a K-12 school district must be calculated and funded as a high school district retirement obligation under the provisions of 20-9-501.

(5) For the purposes of budgeting for a K-12 school district, the trustees shall adopt a single fund for any of the budgeted or nonbudgeted funds described in 20-9-201 for the costs of operating all grades and programs of the district.

(6) Tuition for attendance in the K-12 school district must be determined separately for high school pupils and for elementary pupils under the provisions of 20-5-320 through 20-5-324, except that the actual expenditures used for calculations in 20-5-323 must be based on an amount prorated between the elementary and high school programs in the appropriate funds of each district in the year prior to the attachment of the districts.

20-7-420. Residency requirements — financial responsibility for special education. (1) In accordance with the provisions of 1-1-215, a child's district of residence for special education purposes is the residence of the child's parents or of the child's guardian if the parents are deceased, unless otherwise determined by the court. This applies to a child living at home, in an institution, or under foster care. If the parent has left the state, the parent's last known district of residence is the child's district of residence.

(2) The county of residence is financially responsible for tuition and transportation as established under 20-5-323 for a child with disabilities, as defined in 20-7-401, including a child who has been placed by a state agency in a foster care or group home licensed by the state. The county of residence is not financially responsible for tuition and transportation for a child with disabilities who is placed by a state agency in an out-of-state public school or an out-of-state private residential facility.

(3) If an eligible child, as defined in 20-7-436, is receiving inpatient treatment in an in-state residential treatment facility or children's psychiatric hospital, as defined in 20-7-436, and the educational services are provided by a public school district under the provisions of 20-7-411 or 20-7-435, the superintendent of public instruction shall reimburse the district providing the services for the negotiated amount, as established pursuant to 20-7-435(5), that represents the district's costs of providing education and related services. Payments must be made from funds appropriated for this purpose. If the negotiated amount exceeds the daily membership rate under 20-7-435(3) and any per-ANB amount of direct state aid, the superintendent of public instruction shall pay the remaining balance from the state equalization aid account. However, the amount spent from the state equalization aid account for this purpose may not exceed $500,000 during any biennium.

(4) Under the provisions of 20-7-422(3), the superintendent of public instruction shall provide funds for the education fees required to provide a free appropriate public education for a child with disabilities who is in need of special education and related services and is placed by a state agency in an out-of-state private residential facility or out-of-state public school, provided that, in determining the special education services needed for the child with disabilities, the district of residence has complied with the rules promulgated under 20-7-402.

(5) A state agency that makes a placement of a child with disabilities is responsible for the financial costs of room and board and the treatment of the child.

1993 Amendments: Chapter 375 in first sentence of (1), after "guardian", inserted "if the parents are deceased"; at beginning of first sentence of (3) substituted "If an eligible child, as defined in 20-7-436, is receiving inpatient treatment" for "If a child with disabilities who is in need of special education is placed", near middle substituted "educational services are provided by a public school district under the provisions of 20-7-411 or 20-7-435" for "educational placement is in a public school district", and at end substituted "the superintendent of public instruction shall reimburse the district providing the services for the negotiated amount, as established pursuant to 20-7-435(5), that represents the district's costs of providing education and related services. Payments must be made from funds appropriated for this purpose. Chapter 563 near beginning of first and second sentences of (2) and near middle of (3) substituted "county" for "district" and after "tuition" inserted "and transportation" (amendment in (3) rendered ineffective by amendment to (3) in ch. 375); in first sentence of (2), after "under", substituted "20-5-323" for "20-5-305 and 20-5-312"; and made minor changes in style.

Code Commissioner Correction: In (3) the Code Commissioner substituted "of direct state aid" for "paid on the foundation program schedules as provided in 20-9-318 through 20-9-320". Sections 20-9-318 through 20-9-320 were repealed by Ch. 633, L. 1993. The Code Commissioner has substituted "direct state aid" because that concept replaced foundation program schedules in Ch. 633, L. 1993. If the child is in need of a surrogate parent, the trustees of a school district or their designee or the governing authority of an institution or its designee shall nominate a surrogate for the child within 30 days of that determination.

(2) The person nominated as a surrogate parent must be an adult who is not an employee of a state or local educational agency. The surrogate parent may not have a vested interest that will conflict with the person's representation and protection of the child. The surrogate, whenever practicable, must be knowledgeable about the educational system, special education requirements, and the legal rights of the child in relation to the educational system. Whenever practicable, the surrogate parent must be familiar with the cultural or language background of the child.

(3) The nomination for appointment of a surrogate parent, along with all necessary supporting documents, must be submitted to the youth court for official appointment of the surrogate parent by the court. The trustees of a school district or their designee or the governing authority of an institution or its designee shall take all reasonable action to ensure that the youth court appoints or denies the appointment of a person nominated as a surrogate parent within 45 days of the court's receipt of all necessary supporting documents. If the youth court denies an appointment, the trustees of a district or their designee or the governing authority of an institution or its designee shall nominate another person to be appointed as the surrogate parent.

(2) The county superintendent shall calculate the number of mills to be levied on the taxable property in the district to finance the general fund levy requirement for any amount that does not exceed the BASE budget amount for the district by dividing the amount determined in subsection (1)(c) by the sum of:

(a) the amount of guaranteed tax base aid that the district will receive for each mill levied, as certified by the superintendent of public instruction; and

(b) the taxable valuation of the district divided by 1,000.

(3) The net general fund levy requirement determined in subsections (1)(c) and (1)(d) must be reported to the county commissioners on the fourth Monday of August by the county superintendent as the general fund net levy requirement for the district, and a levy must be set by the county commissioners in accordance with 20-9-142.

20-9-163. Resolution for budget amendment — petition to superintendent of public instruction. (1) Whenever the trustees of a district decide that a budget amendment is necessary because of an enrollment increase, they may petition the superintendent of public instruction to adopt a resolution for the budget amendment. The petition must be signed by a majority of the trustees.

(2) The petition must state the facts constituting the need for the budget amendment, the estimated amount of money required to fund the budget amendment, the funds affected by the budget amendment, the anticipated source of financing for the budget amendment, and the current year enrollment.

(3) The superintendent of public instruction shall promptly approve or disapprove the petition requesting approval to adopt a resolution for a budget amendment because of increased enrollment. If the petition is for a budget amendment for an enrollment increase as provided in 20-9-161(1), the superintendent of public instruction shall adjust the district's maximum general fund budget based on the approved enrollment increase. Upon approval, a district may not adopt a budget amendment if the amount will cause the district to exceed the district's adjusted maximum general fund budget. If the petition is approved, the trustees may adopt a resolution for a budget amendment and take all other steps required for the adoption of a budget amendment. Approval of a petition by the superintendent of public instruction authorizes the board of trustees to initiate a budget amendment by resolution and does not relieve the trustees of the necessity of complying with the requirements of the school budgeting laws. Approval of the petition may not be construed as approval of any subsequent application for increased state aid on account of the budget amendment.

20-9-165. Budget amendment limitation, preparation, and adoption procedures. (1) The meeting of the trustees to consider and adopt a budget amendment must be open to the public, and any taxpayer in the district has the right to appear and be heard. If at the meeting a majority of the trustees present find that there is sufficient need for a budget amendment, the trustees may make and adopt a preliminary budget amendment, setting forth fully the facts constituting the need for the budget amendment. In adopting the preliminary budget amendment, the trustees may budget for any fund that was included on the final budget of the district for the current school fiscal year. The budget must be itemized to show the amount appropriated for each item.

(2) When the budget amendment is the result of increased enrollment, the maximum amount of the budget amendment for all funds must be determined in the following manner:

(a) Determine the total amount in the final budget for the current school fiscal year of all funds affected by the enrollment increase, less any amounts appropriated as capital outlay and any amount appropriated for addition to the operating reserve.

(b) Divide the amount determined in subsection (2)(a) by the number of pupils originally enrolled in the district during the immediately preceding school fiscal year. The resulting cost per pupil is the maximum permissible per-pupil expenditure in the budget amendment.

(c) Determine the enrollment increase of the current school fiscal year by subtracting the number of pupils originally enrolled during the immediately preceding school fiscal year from the number of pupils enrolled for the current school year. The result is the enrollment increase for the current school fiscal year.

(d) Multiply the cost per pupil determined in subsection (2)(b) by the enrollment increase determined in subsection (2)(c). The result is the maximum limitation on a budget amendment for amendments resulting from increased enrollment.

(3) For other types of budget amendments, the budget amendment is limited to the expenditures considered by the trustees to be reasonable and necessary to finance the conditions of the budget amendment and the prelimi-

nary budget amendment must include the details of the proposed expenditures.

(4) Whenever the trustees adopt a preliminary budget amendment for the transportation fund, the trustees shall attach to the budget amendment a copy of each transportation contract that is connected with the budget amendment and that has been prepared and executed in accordance with the school transportation contract laws.

(5) After the trustees have adopted the budget amendment by a majority vote of the trustees, it must be signed by the chairman of the trustees and the clerk of the district and copies must be sent to the county superintendent, the county treasurer, and the superintendent of public instruction.

(a) A "budgeted fund" means any fund for which a budget must be adopted in order to expend money from the fund. The general fund, transportation fund, bus depreciation reserve fund, tuition fund, retirement fund, debt service fund, building reserve fund, adult education fund, nonoperating fund, and any other funds designated by the legislature are budgeted funds.

(b) A "nonbudgeted fund" means any fund for which a budget is not required in order to expend money on deposit in the fund. Elementary and high school districts shall record the receipt and disbursement of all money in accordance with generally accepted accounting principles. The superintendent of public instruction has general supervisory authority as prescribed by law over the school financial administration provisions, as they relate to elementary and high school districts. The superintendent of public instruction shall adopt rules necessary to secure compliance with the law.

(3) Except as otherwise provided by law, whenever the trustees of a district determine that a fund is inactive and will no longer be used, the trustees shall close the fund by transferring all cash and other account

balances to the general fund if the fund does not have a cash or fund balance deficit.

20-9-305. Proration and calculation of BASE funding program for joint district. (1) In joint districts, the direct state aid of a joint district must be prorated among the counties in which any part of the joint district is located for the purpose of determining the amount of each source of revenue for the direct state aid for which each county is obligated. The proration of the joint district direct state aid must be calculated as follows:

(a) Divide the joint district direct state aid by the ANB of the joint district to determine the per-ANB amount of the direct state aid.

(b) Determine the ANB for each county's portion of the joint district on the basis of each pupil's resident county. When taken together, the sum of the ANB assigned to all the counties must equal the total ANB for the joint district.

(c) Multiply the per-ANB amount of the direct state aid determined in subsection (1)(a) by the ANB for each county's portion, as determined in subsection (1)(b), to determine the portion of the direct state aid for each county.

(2) The portion of a joint district direct state aid for each county, as determined in subsection (1)(c), is a separate direct state aid amount in the county for the purposes of calculating the various revenues for the BASE funding program. After the calculation of the direct state aid revenues, the remainder of the general fund revenues must be calculated in accordance with the provisions for general fund financing.

20-9-311. *(Temporary)* **Calculation of average number belonging (ANB).** (1) Average number belonging (ANB) must be computed as follows:

(a) count the regularly enrolled full-time pupils who were enrolled as of the first Monday in October of the prior school fiscal year; and

(b) multiply the enrollment calculated in subsection (1)(a) by the sum of the pupil-instruction and the approved pupil-instruction-related days for the current school year and divide by 180.

(2) For the purpose of calculating ANB under subsection (1), up to 7 approved pupil-instruction-related days may be included in the calculation.

(3) When a school district has approval to operate less than 180 school days under 20-9-804, the total ANB must be calculated in accordance with the provisions of 20-9-805.

(4) Enrollment for a part of a morning session or a part of an afternoon session by a pupil must be counted as enrollment for one-half day.

(5) In calculating the ANB for pupils enrolled in a program established under 20-7-117(1), enrollment at a regular session of the program for at least 2 hours of either a morning or an afternoon session must be counted as one-half pupil for ANB purposes. If a variance has been granted as provided in 20-1-302, ANB must be computed in a manner prescribed by the superintendent of public instruction, but the ANB for a kindergarten student may not exceed one-half for each kindergarten pupil.

(6) When any pupil has been absent, with or without excuse, for more than 10 consecutive school days, the pupil may not be included in the count calculation of the ANB unless the pupil resumes attendance prior to the day of the enrollment count.

(7) The enrollment of prekindergarten pupils, as provided for in 20-7-117, may not be included in the ANB calculations.

(8) If a student spends less than half the time in the regular program and the balance of the time in school in the special education program, the student is considered a full-time special education pupil but is not considered regularly enrolled for ANB purposes. If a student spends half or more of the time in school in the regular program and the balance of the time in the special education program, the student is considered regularly enrolled for ANB purposes.

(9) The ANB of the regularly enrolled, full-time pupils for the public schools of a district must be based on the aggregate of all the regularly enrolled, full-time pupils attending the schools of the district, except that when:

(a) (i) a school of the district is located more than 20 miles beyond the incorporated limits of a city or town located in the district and at least 20 miles from any other school of the district, the number of regularly enrolled, full-time pupils of the school must be calculated separately for ANB purposes, and the district must receive a basic entitlement for the school calculated separately from the other schools of the district;

(ii) a school of the district is located more than 20 miles from any other school of the district and no incorporated territory is involved in the district, the number of regularly enrolled, full-time pupils of the school must be calculated separately for ANB purposes, and the district must receive a basic entitlement for the school calculated separately from the other schools of the district; or

(iii) the superintendent of public instruction approves an application not to aggregate when conditions exist affecting transportation, such as poor roads, mountains, rivers, or other obstacles to travel, or when any other condition exists that would result in an unusual hardship to the pupils of the school if they were transported to another school, the number of regularly enrolled, full-time pupils of the school must be calculated separately for ANB purposes, and the district must receive a basic entitlement for the school calculated separately from the other schools of the district;

(b) a junior high school has been approved and accredited as a junior high school, all of the regularly enrolled, full-time pupils of the junior high school must be considered as high school district pupils for ANB purposes;

(c) a middle school has been approved and accredited, all pupils below the 7th grade must be considered elementary school pupils for ANB purposes and the 7th and 8th grade pupils must be considered high school pupils for ANB purposes; or

(d) a school has not been accredited by the board of public education, the regularly enrolled, full-time pupils attending the nonaccredited school are not eligible for average number belonging calculation purposes, nor will an average number belonging for the nonaccredited school be used in determining the BASE funding program for the district.

(10) When 11th or 12th grade students are regularly enrolled on a part-time basis, high schools may calculate the ANB to include an "equivalent ANB" for those students. The method for calculating an equivalent ANB must be determined in a manner prescribed by the superintendent of public instruction.

(11) For average daily attendance reporting purposes, districts shall provide the superintendent of public instruction with annual reports of school attendance for regularly enrolled students and special education students, using a format determined by the superintendent of public instruction. *(Terminates June 30, 1994—sec. 62, Ch. 633, L. 1993.)*

20-9-311. *(Effective July 1, 1994)* **Calculation of average number belonging (ANB).** (1) Average number belonging (ANB) must be computed as follows:

(a) compute an average enrollment by adding a count of regularly enrolled full-time pupils who were enrolled as of the first Monday in October of the prior school fiscal year to a count of regularly enrolled pupils on February 1 of the prior school fiscal year, or the nearest school day if those dates do not fall on a school day, and divide the sum by two; and

(b) multiply the average enrollment calculated in subsection (1)(a) by the sum of the pupil-instruction and the approved pupil-instruction-related days for the current school fiscal year and divided by 180.

(2) For the purpose of calculating ANB under subsection (1), up to 7 approved pupil-instruction-related days may be included in the calculation.

(3) When a school district has approval to operate less than 180 school days under 20-9-804, the total ANB must be calculated in accordance with the provisions of 20-9-805.

(4) Enrollment for a part of a morning session or a part of an afternoon session by a pupil must be counted as enrollment for one-half day.

(5) In calculating the ANB for pupils enrolled in a program established under 20-7-117(1), enrollment at a regular session of the program for at least 2 hours of either a morning or an afternoon session must be counted as one-half pupil for ANB purposes. If a variance has been granted as provided in 20-1-302, ANB must be computed in a manner prescribed by the superintendent of public instruction, but the ANB for a kindergarten student may not exceed one-half for each kindergarten pupil.

(6) When any pupil has been absent, with or without excuse, for more than 10 consecutive school days, the pupil may not be included in the enrollment count used in the calculation of the ANB unless the pupil resumes attendance prior to the day of the enrollment count.

(7) The enrollment of prekindergarten pupils, as provided in 20-7-117, may not be included in the ANB calculations.

(8) The average number belonging of the regularly enrolled, full-time pupils for the public schools of a district must be based on the aggregate of all the regularly enrolled, full-time pupils attending the schools of the district, except that when:

(a) (i) a school of the district is located more than 20 miles beyond the incorporated limits of a city or town located in the district and at least 20 miles from any other school of the district, the number of regularly enrolled, full-time pupils of the school must be calculated separately for ANB purposes and the district must receive a basic entitlement for the school calculated separately from the other schools of the district;

(iii) the superintendent of public instruction approves an application not to aggregate when conditions exist affecting transportation, such as poor roads, mountains, rivers, or other obstacles to travel, or when any other condition exists that would result in an unusual hardship to the pupils of the school if they were transported to another school, the number of regularly enrolled, full-time pupils of the school must be calculated separately for ANB purposes and the district must receive a basic entitlement for the school calculated separately from the other schools of the district;

(b) a junior high school has been approved and accredited as a junior high school, all of the regularly enrolled, full-time pupils of the junior high school must be considered as high school district pupils for ANB purposes;

(c) a middle school has been approved and accredited, all pupils below the 7th grade must be considered elementary school pupils for ANB purposes and the 7th and 8th grade pupils must be considered high school pupils for ANB purposes; or

(d) a school has not been accredited by the board of public education, the regularly enrolled, full-time pupils attending the nonaccredited school are not eligible for average number belonging calculation purposes, nor will an average number belonging for the nonaccredited school be used in determining the BASE funding program for the district.

(9) When 11th or 12th grade students are regularly enrolled on a part-time basis, high schools may calculate the ANB to include an "equivalent ANB" for those students. The method for calculating an equivalent ANB must be determined in a manner prescribed by the superintendent of public instruction.

(10) For average daily attendance reporting purposes, districts shall provide the superintendent of public instruction with annual reports of school attendance for regularly enrolled students and special education students, using a format determined by the superintendent.

20-9-314. Procedures for determining eligibility and amount of increased average number belonging due to unusual enrollment increase. A district that anticipates an unusual increase in enrollment in the ensuing school fiscal year, as provided for in 20-9-313(4), may increase its basic entitlement and total per-ANB entitlement for the ensuing school fiscal year in accordance with the following provisions:

(1) Prior to May 10, the district shall estimate the elementary or high school enrollment to be realized during the ensuing school fiscal year, based on as much factual information as may be available to the district.

(2) No later than May 10, the district shall submit its application for an unusual enrollment increase by elementary or high school level to the superintendent of public instruction. The application must include:

(a) the enrollment for the current school fiscal year;

(b) the average number belonging used to calculate the basic entitlement and total per-ANB entitlement for the current school fiscal year;

(c) the average number belonging that will be used to calculate the basic entitlement and total per-ANB entitlement for the ensuing school fiscal year;

(d) the estimated enrollment, including the factual information on which the estimate is based, as provided in subsection (1); and

(e) any other information or data that may be requested by the superintendent of public instruction.

(3) The superintendent of public instruction shall immediately review all the factors of the application and shall approve or disapprove the application or adjust the estimated average number belonging for the ensuing ANB calculation period. After approving an estimate, with or without adjustment, the superintendent of public instruction shall:

(a) determine the percentage increase that the estimated enrollment increase is over the current enrollment; and

(b) approve an increase of the average number belonging used to establish the ensuing year's basic entitlement and total per-ANB entitlement in accordance with subsection (5) if the increase in subsection (3)(a) is at least 6%.

(4) The superintendent of public instruction shall notify the district of the decision by the fourth Monday in June.

(5) Whenever an unusual enrollment increase is approved by the superintendent of public instruction, the increase of the average number belonging used to establish the basic entitlement and total per-ANB entitlement for the ensuing ANB calculation period is the difference between the enrollment for the ensuing school fiscal year and 106% of the current enrollment. The amount determined is the maximum allowable increase added to the average number belonging for the purpose of establishing the ensuing year's basic entitlement and total per-ANB entitlement.

(6) Any entitlement increases resulting from provisions of this section must be reviewed at the end of the ensuing school fiscal year. If the actual enrollment is less than the average number belonging used for BASE funding program and entitlement calculations, the superintendent of public instruction shall revise the total per-ANB entitlement calculations using the actual average number belonging. All total per-ANB entitlements received by the district in excess of the revised entitlements are overpayments subject to the refund provisions of 20-9-344(3).

20-9-321. *(Temporary)* **Allowable cost payment and contingency funds for special education.** (1) For the purpose of establishing the allowable cost payment for a current year special education program for a school district, the superintendent of public instruction shall determine the total estimated cost of the special education program for the school district on the basis of a special education program budget submitted by the district. The budget must be prepared on forms provided by the superintendent of public instruction and must set out for each program:

(a) the estimated allowable costs associated with operating the program where allowable costs are as defined in 20-7-431;

(b) the number of pupils expected to be enrolled in the program; and

(c) any other data required by the superintendent of public instruction for budget justification purposes and to administer the provisions of this section.

(2) The total amount of allowable costs approved by the superintendent of public instruction is the special education allowable cost payment for current year special education program purposes.

(3) If a special education program is implemented or expanded during a given school term too late to be included in the determination of the district general fund budget for the school year as prescribed in this part, allowable costs approved under the budgeting provisions of subsections (1) and (2) for the operation of the program during the given year must be funded from any legislative appropriation for contingency financing for special education. Contingency funds granted under this subsection must be deposited in a separate account of the miscellaneous programs fund of the district as provided in 20-9-507.

(4) (a) The special education contingency funds in subsection (3):

(i) are biennially appropriated;

(ii) are for emergencies that may arise in the special education programs of school districts or special education cooperatives; and

(iii) may be used to fund positions that have gone unfilled for a full school fiscal year and for which state special education funds were not awarded.

(b) The board of trustees of a district or the management board of a special education cooperative may apply for contingency funding by submitting to the superintendent of public instruction, in the form prescribed by the superintendent of public instruction, written documentation that describes the need for the funds. *(Terminates June 30, 1994—sec. 62, Ch. 633, L. 1993.)*

20-9-321. *(Effective July 1, 1994)* **Allowable cost payment for special education.** (1) For the purpose of establishing the allowable cost payment for a current year special education program for a school district, the superintendent of public instruction shall determine the total special education payment to a school district, cooperative, or joint board for special education services formed under 20-3-361 prior to July 1, 1992, using the following factors:

(a) the district ANB student count as established pursuant to 20-9-311 and 20-9-313;

(b) a per-ANB amount for the special education instructional block grant;

(c) a per-ANB amount for the special education related services block grant;

(d) weighted cost factors for cooperatives or joint boards meeting the requirements of 20-7-457, to compensate for the additional costs of operations and maintenance, travel, supportive services, recruitment, and administration;

(e) district and cooperative expenditure reports; and

(f) any other data required by the superintendent of public instruction to administer the provisions of this section.

(2) Special education allowable cost payments must be granted to each school district and cooperative with a special education program as follows:

(a) An instructional block grant must be awarded to each school district, based on the district ANB and the per-ANB special education instructional amount.

(b) A special education related services block grant must be awarded to each school district that is not a cooperative member, based on the district ANB and the per-ANB special education related services amount. The special education related services block grant amount for districts that are members of approved cooperatives or a joint board must be awarded to the cooperatives or joint board. If a cooperative or joint board meets the requirements of 20-7-457, the special education related services block grant must be weighted for the factors in subsection (1)(d).

(3) The superintendent of public instruction shall annually determine the per-ANB special education instructional and special education related services block grant amounts based on the prior years' trustees' expenditure data for special education instruction and related services.

(4) The superintendent of public instruction shall adopt rules necessary to implement this section.

(5) A district shall provide a 25% local contribution for special education, matching every $3 of state special education instructional and special education related services block grants with at least one local dollar. A district that is a cooperative member is required to provide the 25% match of the special education related services grant amount to the special education cooperative, but the district is not required to match the weighted funding factors.

(6) The superintendent of public instruction shall determine the actual district match based on the trustees' reports. Any unmatched portion reverts to the state and must be subtracted from the district's ensuing year's special education allowable cost payment.

(7) If a district's allowable costs of special education, as verified by the trustees' reports, exceed by at least 10% the total of the special education instructional and special education related services block grant plus the required district match, the district is eligible for a 65% reimbursement of the costs that exceed the additional 10%. A district that demonstrates severe economic hardship because of exceptional special education costs may apply

to the superintendent of public instruction for an advance on the reimbursement for the year in which the actual costs will be incurred.

(Version effective July 1, 1994) Chapter 633 in (1) substituted "allowable cost payment" for "foundation program amount" and after "total" substituted remainder of language in (1) relating to special education payment to a school district, cooperative, or joint board for special education services formed under 20-3-361 prior to July 1, 1992, for former language that read: "estimated cost of the special education program for the school district on the basis of a special education program budget submitted by the district. (4) If a special education program is implemented or expanded during a given school term too late to be included in the determination of the district foundation program for the school year as prescribed in this part, allowable costs approved under the budgeting provisions of subsections (1) and (2) for the operation of the program during the given year must be funded from any legislative appropriation for contingency financing for special education. (1) The amount of guaranteed tax base aid per ANB that a county may receive in support of the retirement fund budgets of the elementary school districts in the county is the difference between the county mill value per elementary ANB and the statewide mill value per elementary ANB, multiplied by the number of mills levied in support of the retirement fund budgets for the elementary districts in the county.

(2) The amount of guaranteed tax base aid per ANB that a county may receive in support of the retirement fund budgets of the high school districts in the county is the difference between the county mill value per high school ANB and the statewide mill value per high school ANB, multiplied by the number of mills levied in support of the retirement fund budgets for the high school districts in the county.

(3) The amount of guaranteed tax base aid that a district may receive in support of up to 40% of the basic entitlement, up to 40% of the total per-ANB entitlement budgeted within the general fund budget, and up to 40% of the special education payment is calculated in the following manner:

(a) multiply the sum of the district's direct state aid and 40% of the special education allowable cost payment by the corresponding statewide guaranteed tax base ratio;

(b) subtract the taxable valuation of the district from the product obtained in subsection (3)(a); and

(c) divide the remainder by 1,000 to determine the equivalent to the dollar amount of guaranteed tax base aid for each mill levied.

(4) Guaranteed tax base aid provided to any county or district under this section is earmarked to finance the fund or portion of the fund for which it is provided. If a county or district receives more guaranteed tax base aid than it is entitled to, the excess must be returned to the state as required by 20-9-344.

(1) (a) Except as provided in subsection (1)(c), the maximum amount for which an elementary district or a high school district may become indebted by the issuance of bonds, including all indebtedness represented by outstanding bonds of previous issues and registered warrants, is 45% of the taxable value of the property subject to taxation as ascertained by the last completed assessment for state, county, and school taxes previous to the incurring of the indebtedness.

(b) Except as provided in subsection (1)(c), the maximum amount for which a K-12 school district, as formed pursuant to 20-6-701, may become indebted by the issuance of bonds, including all indebtedness represented by outstanding bonds of previous issues and registered warrants, is up to 90% of the taxable value of the property subject to taxation as ascertained by the last-completed assessment for state, county, and school taxes previous to the incurring of the indebtedness. The total indebtedness of the high school district with an attached elementary district must be limited to the sum of 45% of the taxable value of the property for elementary school program purposes and 45% of the taxable value of the property for high school program purposes.

(c) The maximum amount for which an elementary district or a high school district that qualifies for guaranteed tax base aid under the provisions of 20-9-367 may become indebted by the issuance of bonds, including all indebtedness represented by outstanding bonds of previous issues and registered warrants, is 45% of the corresponding statewide mill value per

ANB times 1,000 times the ANB of the district. For a K-12 district, the maximum amount for which the district may become indebted is 45% of the sum of the statewide mill value per elementary ANB times 1,000 times the elementary ANB of the district and the statewide mill value per high school ANB times 1,000 times the high school ANB of the district.

(2) The maximum amounts determined in subsection (1), however, may not pertain to indebtedness imposed by special improvement district obligations or assessments against the school district or to bonds issued for the repayment of tax protests lost by the district. All bonds issued in excess of the amount are void, except as provided in this section.

(3) When the total indebtedness of a school district has reached the limitations prescribed in this section, the school district may pay all reasonable and necessary expenses of the school district on a cash basis in accordance with the financial administration provisions of this chapter.

(4) Whenever bonds are issued for the purpose of refunding bonds, any money to the credit of the debt service fund for the payment of the bonds to be refunded is applied toward the payment of the bonds and the refunding bond issue is decreased accordingly.

20-9-407. Industrial facility agreement for bond issue in excess of maximum. (1) In a school district within which a new major industrial facility which seeks to qualify for taxation as class five property under 15-6-135 is being constructed or is about to be constructed, the school district may require, as a precondition of the new major industrial facility qualifying as class five property, that the owners of the proposed industrial facility enter into an agreement with the school district concerning the issuing of bonds in excess of the 45% limitation prescribed in 20-9-406. Under such an agreement, the school district may, with the approval of the voters, issue bonds which exceed the limitation prescribed in this section by a maximum of 45% of the estimated taxable value of the property of the new major industrial facility subject to taxation when completed. The estimated taxable value of the property of the new major industrial facility subject to taxation shall be computed by the department of revenue when requested to do so by a resolution of the board of trustees of the school district. A copy of the department's statement of estimated taxable value shall be printed on each ballot used to vote on a bond issue proposed under this section.

(2) Pursuant to the agreement between the new major industrial facility and the school district and as a precondition to qualifying as class five property, the new major industrial facility and its owners shall pay, in addition to the taxes imposed by the school district on property owners generally, so much of the principal and interest on the bonds provided for under this section as represents payment on an indebtedness in excess of the limitation prescribed in 20-9-406. After the completion of the new major industrial facility and when the indebtedness of the school district no longer exceeds the limitation prescribed in this section, the new major industrial facility shall be entitled, after all the current indebtedness of the school district has been paid, to a tax credit over a period of no more than 20 years. The credit shall as a total amount be equal to the amount which the facility paid the principal and interest of the school district's bonds in excess of its general liability as a taxpayer within the district.

(3) A major industrial facility is a facility subject to the taxing power of the school district, whose construction or operation will increase the population of the district, imposing a significant burden upon the resources of the district and requiring construction of new school facilities. A significant burden is an increase in ANB of at least 20% in a single year.

20-9-408. Definition of forms of bonds. As used in this title, unless the context clearly indicates otherwise:

(1) "amortization bonds" means the form of bonds on which a part of the principal must be paid each time interest becomes payable. The part payment of principal increases at each installment in the same amount that the interest decreases. The combined interest and principal due on each due date remains the same until the bonds are paid. The final payment may vary from prior payments in the amount resulting from disregarding fractional cents in prior payments.

(2) "serial bonds" means a bond issue payable in annual installments commencing not more than 2 years from the date of issue, any one installment consisting of one or more bonds, with the principal amount of bonds maturing in each installment not exceeding three times the principal amount of the bonds maturing in the immediately preceding installment.

History: En. 75-7105 by Sec. 306, Ch. 5, L. 1971; R.C.M. 1947, 75-7105; amd. Sec. 7, Ch. 631, L. 1983; amd. Sec. 7, Ch. 256, L. 1989.

20-9-409. Form of bond to be issued. All bonds issued by a school district shall be amortization bonds unless serial bonds, in the judgment of the trustees, will be more advantageous to the school district and can be sold at a comparatively reasonable rate of interest.

History: En. 75-7106 by Sec. 307, Ch. 5, L. 1971; R.C.M. 1947, 75-7106.

20-9-410. Limitation of term and interest — timing for redemption. (1) School district bonds may not be issued for a term longer than 20 years, except that bonds issued to refund or redeem outstanding bonds may not be issued for a term longer than 10 years unless the unexpired term of the bonds to be refunded or redeemed is in excess of 10 years, in which case the refunding or redeeming bonds may be issued for the unexpired term. All bonds issued for a longer term than 5 years must be redeemable at the option of the school district on any interest payment date after one-half of the term for which they were issued has expired, and it must be so stated on the face of the bonds. The interest must be as provided under 17-5-102 and must be payable semiannually.

(2) For purposes of this section, the term of a bond issue commences on July 1 of the fiscal year in which the school district first levies taxes to pay the principal and interest on the bonds.

20-9-411. Dates of issue and payments. In order that the dates of payment of installments on school district bond issues may coincide as nearly as possible with the largest monthly tax collections, all school district bonds shall preferably bear a date of some day in June or December. For this reason, the bonds may be dated back not more than 5 months from the time of the actual sale, but no interest shall be charged on these bonds before they have been delivered to the purchaser and payment has been made by the purchaser. Interest accrued on such bonds according to their terms at the time of delivery shall either be refunded by the purchaser or deducted from the first interest payments. The failure to date such bonds in June or December shall not affect their validity.

History: En. 75-7108 by Sec. 309, Ch. 5, L. 1971; R.C.M. 1947, 75-7108.

20-9-412. Issuance of refunding bonds without an election. (1) Bonds of a school district issued for the purpose of providing the money needed to redeem outstanding bonds may be issued without submitting the proposition to the electorate at an election. In order to issue refunding bonds, the trustees, at a regular meeting or a special meeting, shall adopt a resolution setting forth:

(a) the facts regarding the outstanding bonds that are to be redeemed;

(b) the reasons for issuing new bonds; and

(c) the term and details of the new bond issue.

(2) After the adoption of the resolution, the trustees shall:

(a) sell the bonds at a private negotiated sale; or

(b) at their option, give notice of the sale of the new bonds in the same manner that notice is required to be given for the sale of bonds authorized at a school election and sell the new bonds in open competitive bidding, by written bids or by sealed bids.

(3) Except for bonds refunded by a school district under the provisions of Title 17, chapter 5, part 16, including any variable rate finance program so authorized, bonds may not be refunded by the issuance of new bonds unless the rate of interest offered on the new bonds is at least 1/2 of 1% per annum less than the rate of interest in the bonds to be refunded or redeemed.

(4) Refunding bonds issued pursuant to this section may be issued to refund outstanding bonds in advance of the date on which the bonds mature or are subject to redemption, provided the proceeds of the refunding bonds, less any accrued interest or premium received upon the sale of the bonds, are deposited with other funds appropriated to the payment of the outstanding bonds in escrow with a suitable banking institution in or out of the state. Funds deposited must be invested in securities that are general obligations of the United States or the principal and interest of which are guaranteed by the United States and that mature or are callable at the option of the holder on the dates and bear interest at the rates and payable on the dates required to provide funds sufficient, with any cash retained in the escrow account, to pay when due the interest to accrue on each refunded bond to its maturity or redemption date, if called for redemption, and to pay the principal of the bond at maturity or upon the redemption date, and to pay any redemption premium. The escrow account must be irrevocably appropriated to the payment of the principal of and interest and redemption premium, if any, on the refunded bonds. Funds to the credit of the debt service fund for the payment of the refunded bonds and not required for the payment of principal of or interest on the bonds due prior to issuance of the refunding bonds may be appropriated by the district to the escrow account. The school district may pay the reasonable costs and expenses of printing the refunding bonds and of establishing and maintaining the escrow account. Bonds refunded pursuant to this part are not to be considered outstanding for purposes of 20-9-406 or any other debt limitation.

The bonds shall be sold at not less than par with accrued interest to date of delivery, and each bidder shall specify the form of bonds to be issued, whether amortization or serial, and the rate of interest at which he will purchase the bonds. A bid for amortization bonds shall have the preference over a bid for serial bonds, all other things being equal; and in considering bids on these classes of bonds, the trustees shall take into consideration not only the rate of interest demanded on each kind but also every other known element affecting the total cost of the bonds to the district when paid in full. The trustees shall accept the bid which they shall judge most advantageous to the school district. Consultants' fees and attorney fees may be paid to any person or corporation for assisting in the proceedings or in the preparation of the bonds or in negotiating the sale. Provided, however, that bond issues prepared or negotiated for sale under this section shall not be combined for any other purpose but shall be entered separately on the books of the county treasurer and shall be otherwise treated as separate bond issues.

(b) if the purchaser is anybody other than the board of investments, deliver the bonds to the purchaser when full payment of the bonds has been made by the purchaser.

(2) If any of the trustees fails or refuses to pay into the proper county treasury the money arising from the sale of a bond, the trustee is guilty of a felony and shall be punished by imprisonment in the state prison for not less than 1 year or more than 10 years or by a fine of not more than $50,000, or both.

(3) All money realized from the sale of school district bonds must be paid to the county treasurer. The county treasurer shall credit the money to the building fund of the school district issuing the bonds, except money realized for accrued interest or the purposes defined in 20-9-403(1)(c) and (1)(d) must be deposited in the debt service fund and money realized for the purposes authorized in 20-9-403(1)(e) must be deposited in a fund, as provided for in 2-9-316, to pay a final judgment against the school district. Under the provisions of 7-6-2802, the trustees may invest the money for which there is no immediate demand and the interest earned by investment must be used in the manner provided in 7-6-2802. After the full accomplishment of the purpose or purposes of a bond issue, the excess money realized from the bond issue must be transferred to the debt service fund of the school district to be used for the redemption or purchase of bonds of the issue.

(2) The trustees shall also include in the debt service fund of the preliminary budget:

(a) the amount of money necessary to pay the special improvement district assessments levied against the school district that become due during the ensuing school fiscal year; and

(b) a limited operating reserve for the school fiscal year following the ensuing school fiscal year as provided in subsection (3).

(3) At the end of each school fiscal year, the trustees of a school district may designate a portion of the end-of-the-year fund balance of the debt service fund to be earmarked as a limited operating reserve for the purpose of paying, whenever a cash flow shortage occurs, debt service fund warrants and bond obligations that must be paid from July 1 through November 30 of the school fiscal year following the ensuing school fiscal year. 20-9-439. Computation of net levy requirement — procedure when levy inadequate. (1) The county superintendent shall compute the levy requirement for each school district's debt service fund on the basis of the following procedure:

(a) Determine the total money available in the debt service fund for the reduction of the property tax on the district by totaling:

(i) the end-of-the-year fund balance in the debt service fund, less any limited operating reserve as provided in 20-9-438;

(ii) anticipated interest to be earned by the investment of debt service cash in accordance with the provisions of 20-9-213(4) or by the investment of bond proceeds under the provisions of 20-9-435;

(iii) any state reimbursement for school facilities distributed to a qualified district under the provisions of 20-9-346, 20-9-370, and 20-9-371; and

(iv) any other money, including money from federal sources, anticipated by the trustees to be available in the debt service fund during the ensuing school fiscal year from such sources as legally authorized money transfers into the debt service fund or from rental income, excluding any guaranteed tax base aid.

(b) Subtract the total amount available to reduce the property tax, determined in subsection (1)(a), from the final budget for the debt service fund as established in 20-9-438.

(2) The net debt service fund levy requirement determined in subsection (1)(b) must be reported to the county commissioners on the fourth Monday of August by the county superintendent as the net debt service fund levy requirement for the district, and a levy must be made by the county commissioners in accordance with 20-9-142.

(3) If the board of county commissioners fails in any school fiscal year to make a levy for any issue or series of bonds of a school district sufficient to raise the money necessary for payment of interest and principal becoming due during the next ensuing school fiscal year, in any amounts established under the provisions of this section, the holder of any bond of the issue or series or any taxpayer of the district may apply to the district court of the county in which the school district is located for a writ of mandate to compel the board of county commissioners of the county to make a sufficient levy for such purposes. If, upon the hearing of the application, it appears to the satisfaction of the court that the board of county commissioners of the county has failed to make a levy or has made a levy that is insufficient to raise the amount required to be raised as established in the manner provided in this section, the court shall determine the amount of the deficiency and shall issue a writ of mandate directed to and requiring the board of county commissioners, at the next meeting for the purpose of fixing tax levies for county purposes, to fix and make a levy against all taxable property in the school district that is sufficient to raise the amount of the deficiency. The levy is in addition to any levy required to be made at that time for the ensuing school fiscal year. Any

costs that may be allowed or awarded the petitioner in the proceeding must be paid by the members of the board of county commissioners and may not be a charge against the school district or the county.

20-9-441. Redemption of bonds — investment of debt service fund moneys. (1) Whenever there is a sufficient amount of money in any school district debt service fund available to pay and redeem one or more bonds of such school district held by the state of Montana, the county treasurer shall apply such money in payment of as many of such bonds as can be paid and redeemed. The county treasurer shall give notice not less than 30 days before the next interest due date to the board of investments that on such interest due date such bonds will be paid. Before such interest due date, the county treasurer shall remit to the state treasurer the amount of money that is necessary to pay the bonds that are being redeemed and the interest due on such bonds. When the state treasurer receives such payment, he shall cancel such bonds and any unpaid coupons of such bonds and return the canceled bonds and coupons to the county treasurer.

(2) Whenever there is a sufficient amount of money in any school district debt service fund available to pay and redeem one or more optional bonds of such school district not held by the state of Montana, not yet due but then redeemable or becoming redeemable on the next interest due date, the county treasurer shall apply such available money in payment of as many of such bonds as can be paid and redeemed. The county treasurer shall give notice to the holder of the bonds, if known to him, or to any bank or financial institution at which the bonds are payable, at least 30 days before the next interest due date, that the bonds will be paid and redeemed on such date. If the bonds are payable at some bank or financial institution, the county treasurer shall remit to the bank or financial institution, before such interest due date, an amount sufficient to pay and redeem the bonds. If the bonds are not presented for payment and redemption on such interest due date, the accrual of interest shall cease on such interest due date.

(3) Whenever there is money available in any school district debt service fund sufficient to pay and redeem one or more outstanding bonds not yet due or redeemable and not held by the state of Montana, the trustees of such school district may direct the county treasurer to purchase such bonds of the district if this can be done at not more than par and accrued interest or at such reasonable premium as the trustees may feel justified in paying, but in no case exceeding 6%.

(4) Whenever the trustees cannot purchase outstanding bonds of the school district at a reasonable price, the available debt service fund money shall be invested by the trustees under the provisions of 20-9-213(4). Such investments shall be sold in ample time before the debt service fund money is required for the payment of the bonds of the school district.

20-9-466. School district bonds — state loan — qualifications for state loan. (1) The department of administration shall make a loan from the coal severance tax school bond contingency loan fund, established in 17-5-703(1)(e), to a school district in an amount equal to the principal and interest payment on qualifying bonds when due in accordance with the provisions contained in the bonds. In order to receive a loan, the school district must:

(a) have issued bonds between January 21, 1992, and January 1, 1993, pursuant to 20-9-421 and 20-9-464;

(b) be prevented from making principal and interest payments on the bonds because the debt service levy for the bonds:

(i) has been declared invalid or unenforceable under Article II, section 4, or Article X, section 1, of the Montana constitution by a final court order; or

(ii) is prevented by an injunction;

(c) have exhausted the debt service reserve for the bonds; and

(d) have complied with all the requirements for the bonds contained in 20-9-467 and this section.

(2) To qualify for the state loan described in subsection (1), a school district, before issuing its bonds, must have:

(a) received voter approval for bonds pursuant to 20-9-421;

(b) following voter approval, received a certificate of eligibility from the board of public education stating that after consultation with the superintendent of public instruction, the board has determined that a minimum of 75% of the principal amount of the proposed bonds will be used to:

(i) restore, rebuild, or replace a destroyed or severely damaged school building;

(ii) correct one or more building deficiencies that affect the health and safety of school children;

(iii) correct one or more deficiencies that prevent the school district from meeting current accreditation standards; or

(iv) address any combination of circumstances described under subsections (2)(b)(i) through (2)(b)(iii); and

(c) received a final certificate of allocation from the department of administration pursuant to subsection (5).

(3) The board of public education shall:

(a) maintain a record of the total principal amount of bonds for which certification has been issued; and

(b) immediately furnish to the department a copy of each certificate issued.

(4) Upon receipt of a copy of the certificate from the board of public education, the department shall temporarily allocate loan authority to the school district equal to the principal amount of bonds indicated in the board's certificate. The principal amount of bonds for which final certification is issued may be less than the principal amount of bonds approved by the voters pursuant to subsection (2)(a).

(5) To obtain a final certificate of allocation, a school district shall provide the department, on a form provided by the department, the following information:

(a) the tentative date of sale of the school district's bonds;

(b) the principal amount of the bonds to be issued;

(c) the name and addresses of bond counsel and the financial advisor; and

(d) other information as requested by the department.

(6) Upon issuance of the bonds, a school district shall forward to the department a copy of the district's bond resolution, the final opinion of bond counsel on the bonds, and a schedule of principal and interest payments on the bonds to maturity. The bond resolution must include a covenant agreeing to:

(a) defend any lawsuit challenging the school district's authority to sell and issue the bonds and to levy a tax for payment of the principal of and interest on the bonds;

(b) provide to the department before August 1 of each year a report of the school district's outstanding principal balance as of the preceding June 30 on the bonds secured by state loans;

(c) refund the bonds on any normal call date if, during the term of the bonds, the school district can refund its bonds without the state loan security and without increasing its total debt service costs on the bonds; and

(d) enter into a contract with the department establishing a schedule to repay the state if the state loans the school district money to make payments on district bonds. Notwithstanding other provisions of law, the loan must be repaid by the school district at a rate equivalent to the average yield of the pooled investment fund established in 17-6-203(3), commonly known as the short-term investment pool, for the period of the loan. Repayment must begin no later than January 1, 1994, and the loan must be repaid in full within 10 years from the date the first loan is issued to a school district. Repayment must be paid from the sources designated for repayment of the bonds or from any other revenue and assets of the school district, including state equalization funds currently distributed or which may be distributed to the district. Loan repayments received by the department must be deposited in the coal severance tax school bond contingency loan fund.

(7) The department shall maintain a record of the total principal amount of bonds secured by state loans.

(8) A school district issuing bonds subject to 20-9-467 and this section may apply to the attorney general for a determination as to whether its bonds are affected by a court order declaring that the bonds of another district are invalid or unenforceable.

(9) A school district whose authority to levy a property tax to pay principal of and interest on bonds has been challenged shall, upon notification of the challenge, immediately notify the attorney general and the department.

20-9-467. State loan — limitation on state loan authority — priority of loan allocation — application. (1) The allocation of the state's loan authority for bonds issued pursuant to 20-9-466 is intended only to enable a school district to issue bonds pending resolution of the financing of capital outlay.

(2) Except as provided in subsection (5), the total principal amount of school district bonds that may be secured by loans under 20-9-466 may not exceed $25 million and must be allocated to qualifying school districts on a first-come, first-serve basis in order of issuance of final certificates of allocation by the department of administration.

(3) An individual school district may not issue bonds secured by a state loan with a principal amount in excess of $6 million.

(4) If more than one school district qualifies for a state loan and an insufficient amount of state loan authority remains, the board of public education shall allocate the state loan authority to the district with the earliest voter approval of its bonds.

(5) Prior to allocating the final $1.5 million of state loan authority under 20-9-466, the board of public education shall determine if there is a school district eligible for a state loan under 20-9-466(2)(b)(i) and, if so, shall give that district first priority to the remaining loan authority.

(6) This section does not apply unless a bond resolution contains the covenant required under 20-9-466(6).

(c) any other expenditure the district is otherwise authorized to make, subject to subsection (4), including the payment of settlements of legal claims and judgments; and

(d) the costs associated with the issuance and sale of the obligations.

(2) The term of the obligation may not exceed 5 full fiscal years.

(3) At the time of issuing the obligation, there must exist an amount in the budget for the current fiscal year available and sufficient to make the debt service payment on the obligation coming due in the current year. The budget for each following year in which any portion of the principal of and interest on the obligation is due must provide for payment of that principal and interest.

(4) The proceeds of the obligation may not be used to acquire real property or construct a facility.

(5) An obligation issued is payable from any legally available fund of the district and constitutes a general obligation of the district.

(6) The obligation may bear interest at a fixed or variable rate and may be sold to the board of investments at par, at a discount, or with a premium and upon any other terms and conditions that the trustees determine to be in the best interests of the district.

(7) The principal amount of the obligation, when added to the outstanding bonded indebtedness of the district, may not exceed the debt limitation established in 20-9-406.

(v) any other revenue anticipated that may be realized in the retirement fund during the ensuing school fiscal year, excluding any guaranteed tax base aid.

(b) notwithstanding the provisions of subsection (8), subtracting the money available for reduction of the levy requirement, as determined in subsection (3)(a), from the budgeted amount for expenditures in the final retirement fund budget.

(8) The county superintendent shall calculate the number of mills to be levied on the taxable property in the county to finance the retirement fund net levy requirement by dividing the amount determined in subsection (4)(a) by the sum of:

(a) the amount of guaranteed tax base aid that the county will receive for each mill levied, as certified by the superintendent of public instruction; and

(b) the taxable valuation of the district divided by 1,000.

20-9-502. Purpose and authorization of a building reserve fund by an election. (1) The trustees of any district, with the approval of the qualified electors of the district, may establish a building reserve for the purpose of raising money for the future construction, equipping, or enlarging of school buildings or for the purpose of purchasing land needed for school purposes in the district. In order to submit to the qualified electors of the district a building reserve proposition for the establishment of or addition to a building reserve, the trustees shall pass a resolution that specifies:

(a) the purpose or purposes for which the new or addition to the building reserve will be used;

(b) the duration of time over which the new or addition to the building reserve will be raised in annual, equal installments;

(c) the total amount of money that will be raised during the duration of time specified in subsection (1)(b); and

(d) any other requirements under 20-20-201 for the calling of an election.

(2) The total amount of building reserve when added to the outstanding indebtedness of the district may not be more than the limitations provided in 20-9-406. A building reserve tax authorization may not be for more than 20 years.

(3) The election must be conducted in accordance with the school election laws of this title, and the electors qualified to vote in the election must be qualified under the provisions of 20-20-301. The ballot for a building reserve proposition must be substantially in the following form:

OFFICIAL BALLOT
SCHOOL DISTRICT BUILDING RESERVE ELECTION

INSTRUCTIONS TO VOTERS: Make an X or similar mark in the vacant square before the words "BUILDING RESERVE—YES" if you wish to vote for the establishment of a building reserve (addition to the building reserve); if you are opposed to the establishment of a building reserve (addition to the building reserve) make an X or similar mark in the square before the words "BUILDING RESERVE—NO".

Shall the trustees be authorized to impose an additional levy each year for .... years to establish a building reserve (add to the building reserve) of this school district to raise a total amount of .... dollars ($....), for the purpose(s) .... (here state the purpose or purposes for which the building reserve will be used)?

☐ BUILDING RESERVE—YES.

☐ BUILDING RESERVE—NO.

(4) The building reserve proposition is approved if a majority of those electors voting at the election approve the establishment of or addition to the building reserve. The annual budgeting and taxation authority of the trustees for a building reserve is computed by dividing the total authorized amount by the specified number of years. The authority of the trustees to budget and impose the taxation for the annual amount to be raised for the building reserve lapses when, at a later time, a bond issue is approved by the qualified electors of the district for the same purpose or purposes for which the building reserve fund of the district was established. Whenever a subsequent bond issue is made for the same purpose or purposes of a building reserve, the money in the building reserve must be used for such purpose or purposes before any money realized by the bond issue is used.

20-9-503. Budgeting, tax levy, and use of the building reserve fund. (1) Whenever an annual building reserve authorization to budget is available to a district, the trustees shall include such authorized amount in the building reserve fund of the preliminary budget. The county superintendent shall report such amount as the building reserve fund levy requirement to the county commissioners on the fourth Monday of August, and a levy on the district shall be made by the county commissioners in accordance with 20-9-142.

(2) The trustees of any district maintaining a building reserve fund shall have the authority to expend moneys from such fund for the purpose or purposes for which it was authorized without such specific expenditures being included in the final budget when, in their discretion, there is a sufficient amount of money to commence the authorized projects. Such expenditures shall not invalidate the district's authority to continue the annual imposition of the building reserve taxation authorized by the electors of the district.

(3) Whenever there is money credited to the building reserve fund for which there is no immediate need, the trustees may invest such money in accordance with 20-9-213(4). The interest earned from the investment shall be credited to the building reserve fund or the debt service fund, at the discretion of the trustees, and expended for any purpose authorized by law for such fund.

(2) An accounting system for the extracurricular fund recommended by the superintendent of public instruction must be implemented by the trustees. The accounting system must provide for:

20-9-505. Purpose and establishment of nonoperating fund. (1) The trustees of a district that will not operate a school during the ensuing school fiscal year shall establish a nonoperating fund on the first day of the school fiscal year. In establishing the nonoperating fund, the trustees shall cause the transfer of the end-of-the-year fund balance of each fund maintained by the district during the immediately preceding school fiscal year to the nonoperating fund. However, fund balances of the debt service fund and the miscellaneous programs fund, if any, must be maintained in their individual funds.

(2) The trustees of a district establishing a nonoperating fund for the first year of nonoperation may earmark a portion of the nonoperating fund balance as a nonoperating fund operating reserve when they anticipate the reopening of a school in the following school fiscal year. The operating reserve may not be more than the general fund operating reserve designated for the immediately preceding school fiscal year. If a school is not operated in the following school fiscal year, the authority of the trustees to earmark a nonoperating fund operating reserve terminates and the money earmarked as an operating reserve must be used to reduce the levy requirement of the nonoperating fund. If the trustees acquire approval to reopen a school in the following school fiscal year under the provisions of 20-6-502 or 20-6-503 and operate the school, the nonoperating fund operating reserve must be restored as the general fund operating reserve.

(3) The purpose of the nonoperating fund is to centralize the financing and budgeting for the limited functions of a district not operating a school. The functions include:

(a) elementary tuition obligations to other districts;

(b) transportation of the resident pupils;

(c) maintenance of district-owned property; and

(d) any other nonoperating school function of the district considered necessary by the trustees or required by law.

(4) Any expenditure of nonoperating fund money must be made in accordance with the financial administration provisions of this title for a budgeted fund.

(1) The trustees of any district which does not operate a school or will not operate a school during the ensuing school fiscal year shall adopt a nonoperating school district budget in accordance with the school budgeting provisions of this title. Such nonoperating budget shall contain the nonoperating fund and, when appropriate, a debt service fund. The nonoperating budget form shall be promulgated and distributed by the superintendent of public instruction under the provisions of 20-9-103.

(2) After the adoption of a final budget for the nonoperating fund, the county superintendent shall compute the net levy requirement for such fund by subtracting from the amount authorized by such budget the sum of:

(a) the end-of-the-year cash balance of the nonoperating fund or, if it is the first year of nonoperation, the cash balance determined under the transfer provisions of 20-9-505;

(b) the estimated state and county transportation reimbursements; and

(c) any other moneys that may become available during the ensuing school fiscal year.

(3) The county superintendent shall report the net nonoperating fund levy requirement and any net debt service fund levy requirement determined under the provisions of 20-9-439 to the county commissioners on the fourth Monday of August, and such levies shall be made on the district by the county commissioners in accordance with 20-9-142.

20-9-803. Unforeseen emergency minimum. In no case may a district be considered to have made a reasonable effort unless at least 3 school days that have been lost by reason of one or more unforeseen emergencies have in fact been made up.

History: En. Sec. 3, Ch. 288, L. 1979.

20-9-804. Determination of eligibility. If the county superintendent or, in a county with no county superintendent, the superintendent of public instruction determines that a reasonable effort has been made to make up all school days lost by reason of one or more unforeseen emergencies but fewer than the minimum number of school days required by law have been conducted, the school district will nevertheless be credited with full annual equalization apportionment according to the rate established in 20-9-805.

(1) The trustees of any district may furnish transportation to an eligible transportee who attends a school of the district or has been granted permission to attend a school outside of the district. Whenever the trustees of a district provide transportation for any eligible transportee, the trustees must provide all eligible transportees of the district with transportation. The trustees shall furnish transportation when directed to do so by the county transportation committee and such direction is upheld by the superintendent of public instruction.

(2) The tendering of a contract to the parent or guardian whereby the district would pay the parent or guardian for individually transporting the pupil or pupils shall fulfill the district's obligation to furnish transportation for an eligible transportee. The parent or guardian of an eligible transportee may, at his discretion, provide transportation or arrange for transportation for his child at his own expense to any district willing to accept his child.

(3) The type of transportation provided by a district may be:

(1) To coordinate the orderly provision of a uniform transportation program within a county under the transportation law, board of public education transportation policies, and the transportation rules of the superintendent of public instruction, there shall be a county transportation committee created in each county of the state of Montana. The membership of the county transportation committee shall be:

(a) the county superintendent;

(b) the chairman of the board of county commissioners or a member of such board designated by the chairman;

(c) a trustee or district employee designated by the trustees of each high school district of the county;

(d) one representative from each high school district of the county who is a trustee of an elementary district encompassed within the high school district and who has been selected at a meeting of the trustees of such elementary districts; and

(e) a representative of a district of another county when the transportation services of such a district are affected by the actions of the transportation committee, but such a representative shall have a voice only in matters affecting transportation within such district or by such district.

(2) The county transportation committee shall have at least five members, and if this minimum membership cannot be realized in the manner prescribed in subsections (1)(a) through (1)(d) above, the county superintendent shall appoint a sufficient number of members to satisfy the minimum membership requirement.

(3) The county superintendent shall be the chairman of the county transportation committee, and a quorum shall consist of a majority of the membership. The county transportation committee shall meet on the call of the chairman or any three members of such committee.

20-10-132. Duties of the county transportation committee. (1) It shall be the duty of the county transportation committee to:

(a) establish the transportation service areas within the county, without regard to district boundary lines, which will define the geographic area of responsibility for school bus transportation for each district that operates a school bus transportation program;

(b) approve, disapprove, or adjust the school bus routing submitted by the trustees of each district in conformity with the transportation service areas established in subsection (1)(a);

(c) approve, disapprove, or adjust applications, approved by the trustees, for increased reimbursements for individual transportation due to isolated conditions of the eligible transportee's residence; and

(d) conduct hearings to establish the facts of transportation controversies which have been appealed from the decision of the trustees and act on such appeals on the basis of the facts established at such hearing.

(2) After a fact-finding hearing and decision on a transportation controversy, the trustees or a patron of the district may appeal such decision to the superintendent of public instruction who shall render a decision on the basis of the facts established at the county transportation committee hearing.

(3) The trustees of any district which objects to a particular school bus route or transportation service area to which it has been assigned may request a transfer to another school bus route or transportation service area. The county transportation committee may transfer the territory of such district to an adjacent district's transportation service area or approved school bus route with the consent of such adjacent district. When the qualified electors of the district object to the decision of the county transportation committee

and the adjacent district is willing to provide school bus service, 20% of the qualified electors, as prescribed in 20-20-301, may petition the trustees to conduct an election on the proposition that the territory of such district be transferred for school bus transportation purposes to such consenting, adjacent district. When a satisfactory petition is presented to the trustees, the trustees shall call an election in accordance with 20-20-201 for the next ensuing regular school election day. Such election shall be conducted in accordance with the school election laws. If a majority of those voting at such election approve the transfer, it shall become effective on July 1 of the ensuing school fiscal year.

(4) Unless a transfer of a district from one transportation service area or approved school bus route to another such area or route is approved by the county transportation committee and the superintendent of public instruction, the state transportation reimbursement shall be limited to the reimbursement amount for school bus transportation to the nearest operating public elementary school or public high school, whichever is appropriate for the affected pupils.

20-10-141. Schedule of maximum reimbursement by mileage rates. (1) The following mileage rates for school transportation constitute the maximum reimbursement to districts for school transportation from state and county sources of transportation revenue under the provisions of 20-10-145 and 20-10-146. These rates may not limit the amount that a district may budget in its transportation fund budget in order to provide for the estimated and necessary cost of school transportation during the ensuing school fiscal year. All bus miles traveled on routes approved by the county transportation committee are reimbursable. Nonbus mileage is reimbursable for a vehicle driven by a bus driver to and from an overnight location of a school bus when the location is more than 10 miles from the school. A district may approve additional bus or nonbus miles within its own district or approved service area but may not claim reimbursement for the mileage. Any vehicle, the operation of which is reimbursed for bus mileage under the rate provisions of this schedule, must be a school bus, as defined by this title, driven by a qualified driver on a bus route approved by the county transportation committee and the superintendent of public instruction.

(2) The rate per bus mile traveled must be determined in accordance with the following schedule when the number of eligible transportees that board a school bus on an approved route is not less than one-half of its rated capacity:

(a) 85 cents per bus mile for a school bus with a rated capacity of not less than 12 but not more than 45 children; and

(b) when the rated capacity is more than 45 children, an additional 2.13 cents per bus mile for each additional child in the rated capacity in excess of 45 must be added to a base rate of 85 cents per bus mile.

(3) Reimbursement for nonbus mileage provided for in subsection (1) may not exceed 50% of the maximum reimbursement rate determined under subsection (2).

(4) When the number of eligible transportees boarding a school bus on an approved route is less than one-half of its rated capacity, the rate per bus mile traveled must be computed as follows:

(a) determine the number of eligible transportees that board the school bus on the route;

(b) multiply the number determined in subsection (4)(a) by two and round off to the nearest whole number; and

(c) use the adjusted rated capacity determined in subsection (4)(b) as the rated capacity of the bus to determine the rate per bus mile traveled from the rate schedule in subsection (2).

(5) The rated capacity is the number of riding positions of a school bus as determined under the policy adopted by the board of public education.

20-10-142. Schedule of maximum reimbursement for individual transportation. The following rates for individual transportation constitute the maximum reimbursement to districts for individual transportation from state and county sources of transportation revenue under the provisions of 20-10-145 and 20-10-146. These rates constitute the limitation of the budgeted amounts for individual transportation for the ensuing school fiscal year. The schedules provided in this section may not be altered by any authority other than the legislature of the state of Montana. When the trustees contract with the parent or guardian of any eligible transportee to provide individual transportation for each day of school attendance, they shall reimburse the parent or guardian on the basis of the following schedule:

(1) When a parent or guardian transports an eligible transportee or transportees from the residence of the parent or guardian to a school or to schools located within 3 miles of one another, the total reimbursement per day of attendance is determined by multiplying the distance in miles between the residence and the school, or the most distant school if more than one, by 2, subtracting 6 miles from the product, and multiplying the difference by 21.25 cents, provided that:

(a) if two or more eligible transportees are transported by a parent or guardian to two or more schools located within 3 miles of one another and if the schools are operated by different school districts, the total amount of the reimbursement must be divided equally between the districts;

(b) if two or more eligible transportees are transported by a parent or guardian to two or more schools located more than 3 miles from one another, the parent or guardian must be separately reimbursed for transporting the eligible transportee or transportees to each school;

(c) if a parent transports two or more eligible transportees to a school and a bus stop that are located within 3 miles of one another, the total reimbursement must be determined under the provisions of this subsection and must be divided equally between the district operating the school and the district operating the bus;

(d) if a parent transporting two or more eligible transportees to a school or bus stop must, because of varying arrival and departure times, make more than one round-trip journey to the bus stop or school, the total reimbursement allowed by this section is limited to one round trip per day for each scheduled arrival or departure time;

(e) notwithstanding subsection (1)(a), (1)(b), (1)(c), or (1)(d), a reimbursement may not be less than 25 cents a day.

(2) When the parent or guardian transports an eligible transportee or transportees from the residence to a bus stop of a bus route approved by the trustees for the transportation of the transportee or transportees, the total reimbursement per day of attendance is determined by multiplying the distance in miles between the residence and the bus stop by 2, subtracting 3 miles from the product, and multiplying the difference by 21.25 cents, provided that:

(a) if the eligible transportees attend schools in different districts but ride on one bus, the districts shall divide the total reimbursement equally; and

(b) if the parent or guardian is required to transport the eligible transportees to more than one bus, the parent or guardian must be separately reimbursed for transportation to each bus.

(3) When, due to excessive distances, impassable roads, or other special circumstances of isolation the rates prescribed in subsection (1) or (2) would be an inadequate reimbursement for the transportation costs or would result in a physical hardship for the eligible transportee, a parent or guardian may request an increase in the reimbursement rate. A request for increased rates due to isolation must be made by the parent or guardian on the contract for individual transportation for the ensuing school fiscal year by indicating the special facts and circumstances that exist to justify the increase. Before an increased rate due to isolation may be paid to the requesting parent or guardian, the rate must be approved by the county transportation committee and the superintendent of public instruction after the trustees have indicated their approval or disapproval. Regardless of the action of the trustees and when approval is given by the county transportation committee and the superintendent of public instruction, the trustees shall pay the increased rate due to isolation. The increased rate is 1 ½ times the rate prescribed in subsection (1).

(4) When the isolated conditions of the household where an eligible transportee resides require an eligible transportee to live away from the household in order to attend school, the eligible transportee is eligible for the room and board reimbursement. Approval to receive the room and board reimbursement must be obtained in the same manner prescribed in subsection (3). The per diem rate for room and board is $5.31 for one eligible transportee and $3.19 for each additional eligible transportee of the same household.

(5) When the individual transportation provision is to be satisfied by supervised home study or supervised correspondence study, the reimbursement rate is the cost of the study, provided that the course of instruction is approved by the trustees and supervised by the district.

20-10-143. Budgeting for transportation and transmittal of transportation contracts. (1) The trustees of a district furnishing transportation to pupils who are residents of the district shall provide a transportation fund budget that is adequate to finance the district's transportation contractual obligations and any other transportation expenditures necessary for the conduct of its transportation program. The transportation fund budget must include:

(a) an adequate amount to finance the maintenance and operation of district owned and operated school buses;

(b) the annual contracted amount for the maintenance and operation of school buses by a private party;

(c) the annual contracted amount for individual transportation, including any increased amount because of isolation, which may not exceed the schedule amounts prescribed in 20-10-142;

(d) any amount necessary for the purchase, rental, or insurance of school buses; and

(e) any other amount necessary to finance the administration, operation, or maintenance of the transportation program of the district, as determined by the trustees.

(2) The trustees may include a contingency amount in the transportation fund budget for the purpose of enabling the district to fulfill an obligation to provide transportation in accordance with this title for:

(a) pupils not residing in the district at the time of the adoption of the preliminary budget and who subsequently became residents of the district during the school fiscal year; or

(b) pupils who have become eligible transportees since the adoption of the preliminary budget because their legal residence has been changed. The budgeted contingency amount may not exceed 10% of the transportation schedule amount as calculated under the provisions of 20-10-141 and 20-10-142 for all transportation services authorized by the schedules and provided by the district unless 10% of the transportation schedule amount is less than $100, in which case $100 is the maximum limitation for the budgeted contingency amount.

(3) A budget amendment to the transportation fund budget may be adopted subject to the provisions of 20-9-161 through 20-9-166.

(4) The transportation fund budgeted expenditures appropriated by the trustees must be reported on the regular budget form prescribed by the superintendent of public instruction in accordance with 20-9-103, and the adoption of the transportation fund budget must be completed in accordance with the school budgeting laws. When the adopted preliminary budget is sent to the county superintendent, the trustees shall also send copies of all completed transportation contracts for school bus transportation and individual transportation to the county superintendent. The contracts must substantiate all contracted transportation services incorporated in the preliminary budget, and after the county superintendent has utilized the contracts for that purpose but before the fourth Monday of July, he shall send all transportation contracts received to the superintendent of public instruction. When the county superintendent determines a deviation between the preliminary transportation fund budget amount for contracted transportation services and the contracted amount for the services, he shall immediately call the deviation to the attention of the appropriate trustees and shall allow the trustees to change the preliminary budgeted amount to compensate for the deviation.

20-10-144. Computation of revenue and net tax levy requirements for district transportation fund budget. Before the fourth Monday of July and in accordance with 20-9-123, the county superintendent shall compute the revenue available to finance the transportation fund budget of each district. The county superintendent shall compute the revenue for each district on the following basis:

(1) The "schedule amount" of the preliminary budget expenditures that is derived from the rate schedules in 20-10-141 and 20-10-142 must be determined by adding the following amounts:

(a) the sum of the maximum reimbursable expenditures for all approved school bus routes maintained by the district (to determine the maximum reimbursable expenditure, multiply the applicable rate per bus mile by the total number of miles to be traveled during the ensuing school fiscal year on each bus route approved by the county transportation committee and maintained by such district); plus

(b) the total of all individual transportation per diem reimbursement rates for the district as determined from the contracts submitted by the district multiplied by the number of pupil-instruction days scheduled for the ensuing school attendance year; plus

(c) any estimated costs for supervised home study or supervised correspondence study for the ensuing school fiscal year; plus

(d) the amount budgeted on the preliminary budget for the contingency amount permitted in 20-10-143, except if the amount exceeds 10% of the total of subsections (1)(a), (1)(b), and (1)(c) or $100, whichever is larger, the contingency amount on the preliminary budget must be reduced to the limitation amount and used in this determination of the schedule amount; plus

(e) any estimated costs for transporting a child out of district when the child has mandatory approval to attend school in a district outside the district of residence.

(2) (a) The schedule amount determined in subsection (1) or the total preliminary transportation fund budget, whichever is smaller, is divided by 2 and is used to determine the available state and county revenue to be budgeted on the following basis:

(i) one-half is the budgeted state transportation reimbursement, except that the state transportation reimbursement for the transportation of special education pupils under the provisions of 20-7-442 must be 50% of the schedule amount attributed to the transportation of special education pupils; and

(ii) one-half is the budgeted county transportation fund reimbursement and must be financed in the manner provided in 20-10-146.

(b) When the district has a sufficient amount of cash for reappropriation and other sources of district revenue, as determined in subsection (3), to reduce the total district obligation for financing to zero, any remaining amount of district revenue and cash reappropriated must be used to reduce the county financing obligation in subsection (2)(a)(ii) and, if the county financing obligations are reduced to zero, to reduce the state financial obligation in subsection (2)(a)(i).

(c) The county revenue requirement for a joint district, after the application of any district money under subsection (2)(b), must be prorated to each county incorporated by the joint district in the same proportion as the ANB of the joint district is distributed by pupil residence in each county.

(3) The total of the money available for the reduction of property tax on the district for the transportation fund must be determined by totaling:

(a) anticipated federal money received under the provisions of Title I of Public Law 81-874 or other anticipated federal money received in lieu of that federal act;

(b) anticipated payments from other districts for providing school bus transportation services for the district;

(c) anticipated payments from a parent or guardian for providing school bus transportation services for a child;

(d) anticipated or reappropriated interest to be earned by the investment of transportation fund cash in accordance with the provisions of 20-9-213(4);

(e) anticipated or reappropriated revenue from property taxes and fees imposed under 23-2-517, 23-2-803, 61-3-504(2), 61-3-521, 61-3-537, and 67-3-204;

(f) anticipated revenue from coal gross proceeds under 15-23-703;

(a) The general fund appropriation must represent a specific percentage of the budget amount per full-time equivalent student, as determined by the legislature. This percentage must be specified in the appropriations act appropriating funds to the community colleges for each biennium. This percentage does not apply to any portion of the unrestricted budget in excess of the budget amount per full-time equivalent student, as determined by the legislature.

(b) The mandatory levy amount must represent a specific percentage of the budget amount per full-time equivalent student, as determined by the legislature. This percentage must be specified for each community college by the board of trustees of the district and approved by the board of regents.

(c) The funding obtained in subsections (a) and (b) of subsection (1) plus the revenue derived from tuition and fee schedules approved by the board of regents and unrestricted income from any other source is the amount of the unrestricted budget. A detailed expenditure schedule for the unrestricted budget must be submitted to the board of regents for their review and approval.

(d) The amount estimated to be raised by the voted levy must be detailed separately in an expenditure schedule.

20-15-323. Definition of emergency for budgeting purposes. As used in this chapter, unless the context clearly indicates otherwise, the term "emergency" for the purpose of community college budgeting means:

(1) the destruction or impairment of any community college district property necessary to the maintenance of the district, by fire, flood, storm, riot, insurrection, or act of God, to an extent rendering the property unfit for its present use;

(2) a judgment for damages against the district issued by a court after the adoption of the budget for the current year;

(3) an enactment of legislation after the adoption of the budget for the current year that imposes an additional financial obligation on the district; or

(4) any other reason of similar consequence that has been approved by the board of regents upon petition by the trustees of the district.

History: En. Sec. 51, Ch. 767, L. 1991.

20-15-324. Resolution for emergency budget — petition to board of regents. (1) Whenever the trustees of a community college district decide that an emergency exists, they may adopt a resolution proclaiming the emergency by a unanimous vote of all members present at any meeting for which each trustee has been given reasonable notice of the time and place of holding the meeting. The emergency resolution must also state the facts constituting the emergency, the estimated amount of money required to meet the emergency, the funds affected by the emergency, and the time and place the board will meet for the purpose of considering and adopting an emergency budget for the funds for the current school fiscal year.

(2) If the trustees decide that an emergency exists for any reason other than the conditions specified in 20-9-161 (1) through (3), they shall petition the board of regents for permission to adopt a resolution of emergency. The petition must set forth in writing the reasons for the request, the district funds affected by the emergency, the estimated amount of money required to meet the emergency for each affected fund, the anticipated sources of financing for the emergency expenditures, and any other information required by the board of regents. The petition must be signed by each trustee.

(3) The board of regents shall promptly approve or disapprove the petition requesting approval to adopt a resolution of emergency. If the petition is approved, the trustees may adopt a resolution of emergency and take all other steps required for the adoption of an emergency budget. Approval of a petition by the board of regents authorizes the board of trustees to initiate emergency budget proceedings by resolution and does not relieve the trustees of the necessity of complying with the requirements of the emergency budgeting laws.

History: En. Sec. 52, Ch. 767, L. 1991.

20-15-325. Emergency budget limitation, preparation, and adoption procedures. (1) The meeting of the trustees of a community college district to consider and adopt an emergency budget must be open to the public, and any taxpayer in the district has the right to appear and be heard. If at the meeting a majority of the trustees present find that an emergency exists, the trustees may make and adopt a preliminary emergency budget, on the regular budget form, setting forth fully the facts constituting the emergency. In adopting the preliminary emergency budget, the trustees may budget for any fund that was included on the final budget of the district for the current fiscal year. The budget must be itemized to show the amount appropriated for each item as required on the budget form.

(2) When the emergency is the result of increased enrollment, the maximum amount of the emergency budget for all funds must be determined by budget amendment.

(3) If another type of emergency occurs, the budget must be limited to the expenditures considered by the trustees to be reasonable and necessary to finance the conditions of the emergency and the preliminary emergency budget must include the details of the proposed expenditures.

(4) After a majority of the trustees have voted to adopt the emergency budget, it must be signed by the chairman of the trustees and the clerk of the district and copies must be sent to the county superintendent, the county treasurer, and the board of regents.

History: En. Sec. 53, Ch. 767, L. 1991.

20-15-326. Determination of available financing — fixing and levying property taxation for emergency budget. (1) After the last day of the fiscal year for which an emergency budget has been adopted, the county treasurer shall determine the amount of the cash balance that is available to finance the emergency budget's outstanding warrants or registered warrants for each fund included on the emergency budget. The available amount of the cash balance of each fund must be determined by deducting from the county treasurer's year-end cash balance for the fund the outstanding warrants or registered warrants issued under the regularly adopted final budget for the fund and the cash reserve for the fund that the trustees have established, within the limitations of law, for the following fiscal year.

(2) The county treasurer shall prepare and deliver a statement on the financial status of each fund included on an emergency budget for a district that had an emergency budget during the preceding year to the board of county commissioners by the first Monday in August. The statement for each district emergency budget must include:

(a) the total amount of emergency warrants that are outstanding or registered against each fund of the district;

(b) the amount of the cash balance in each fund included on the emergency budget that is available to finance the outstanding warrants or registered warrants; and

(c) after consideration of the available money in subsection (2)(b), the additional amount of money that is required to finance the outstanding warrants or registered warrants and interest on the warrants and that must be raised by a tax levy.

(3) For each fund of the emergency budget of each district requiring a tax levy as established by subsection (2)(c), the board of county commissioners

shall, at the time all other district and county taxes are fixed and levied, levy a tax on the taxable property of each applicable district that will raise sufficient financing to pay the amount established by the county treasurer.
